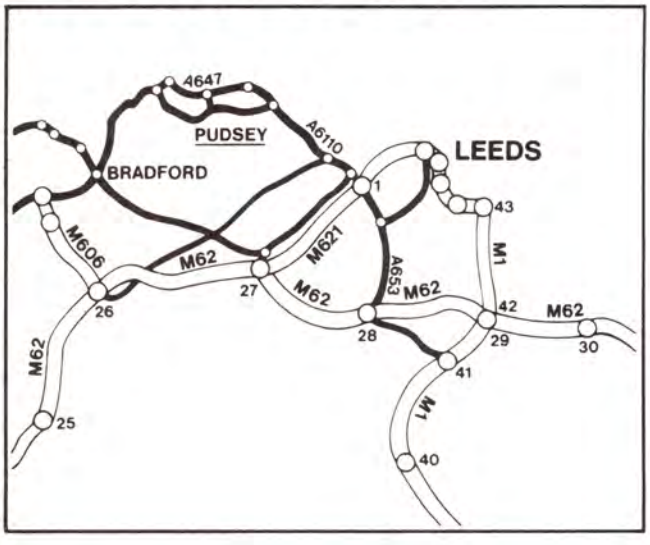
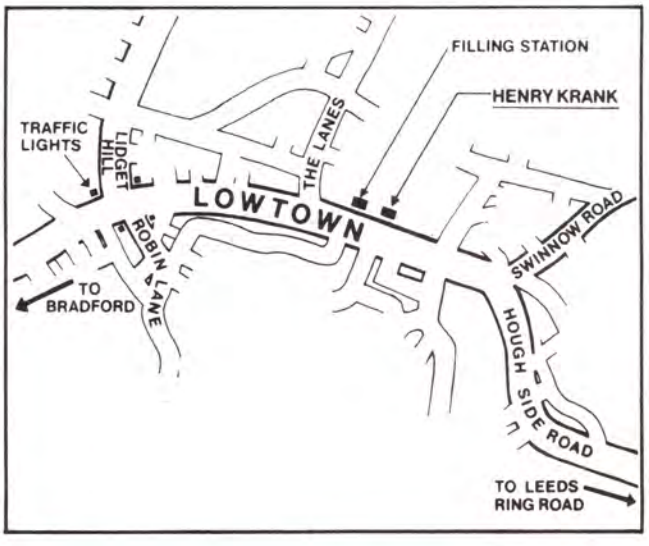
How to find us





Our retail shop is at 100-104 Lowtown, Pudsey, about 500 yards below the traffic lights in the town centre.

Pudsey is situated to the West of Leeds, between Leeds & Bradford, and is only a short distance from the M62 motorway. If approaching from the West on the M62, leave at exit 27 on to the M621. Take the first exit from this motorway, down on to the Leeds ring road and follow signs for Pudsey.

The road is a dual carriageway all the way to the outskirts of Pudsey.

If approaching from the East on the M62, take exit 28 and follow the "Airport" signs until you see signs for Pudsey. This also is the Leeds ring road and is a dual carriageway to the town outskirts.

The two maps above should help you to find us.

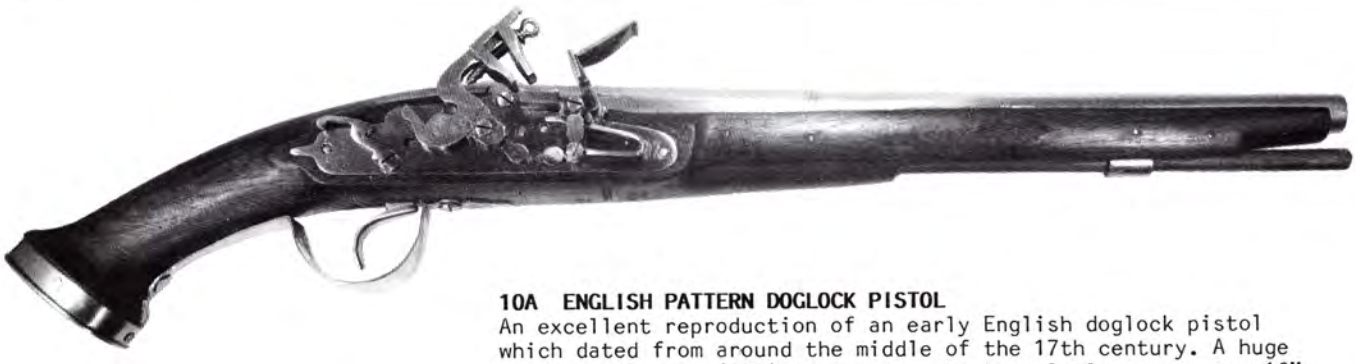
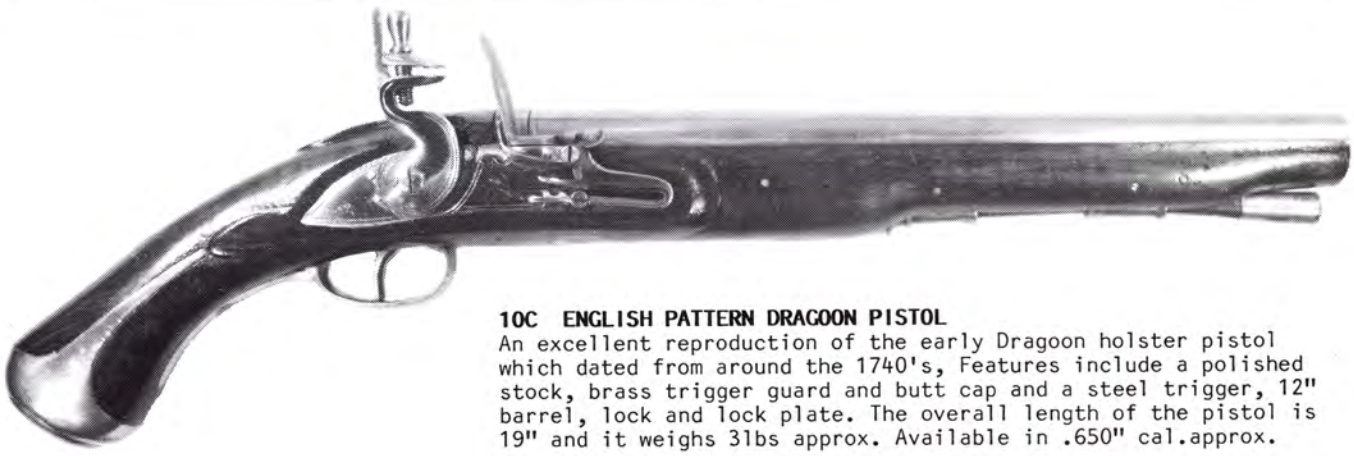
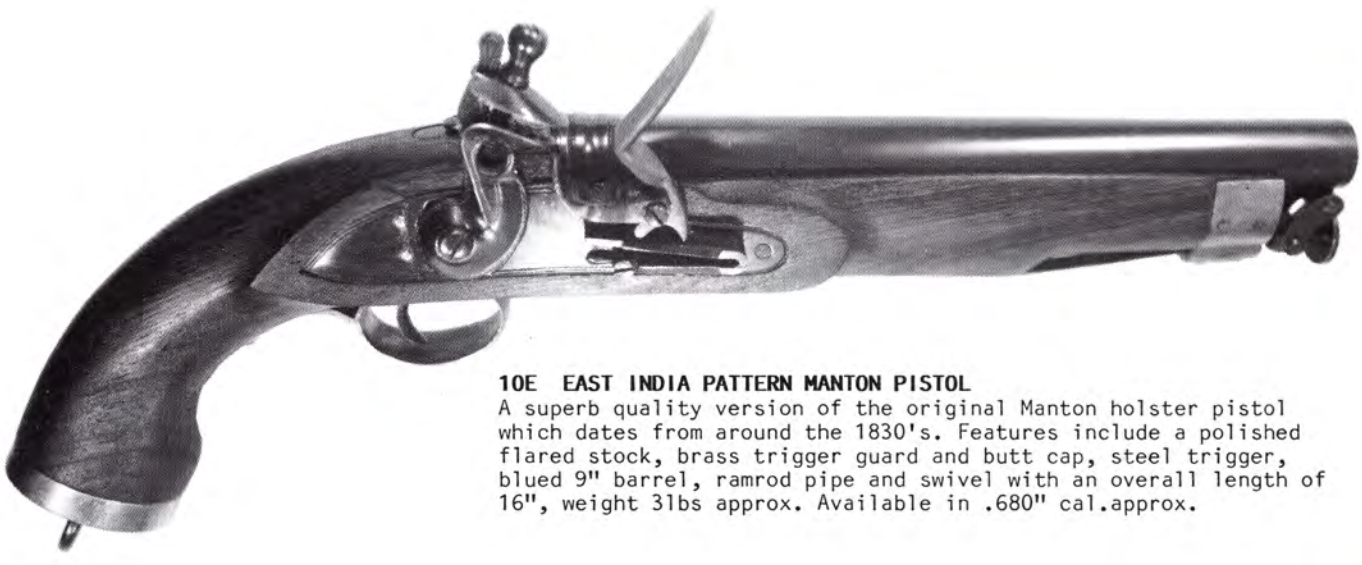
10 SCOTTISH PISTOL
A very good quality reproduction of a flintlock Scottish belt pistol, the 'Ramshorn' design as used by the Highland regiments during the 18th century. Highly polished, hand crafted all steel construction with ball trigger and a 7½" smoothbore barrel of .530" diameter bore approx. The overall length of the pistol is 12½" and the weight is 2lbs approx.



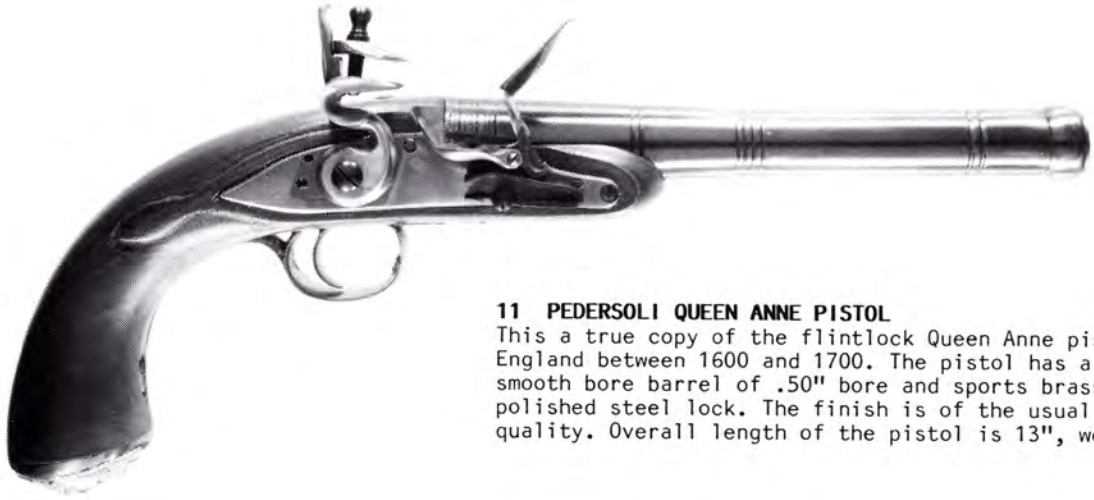
10A ENGLISH PATTERN DOGLOCK PISTOL
An excellent reproduction of an early English doglock pistol which dated from around the middle of the 17th century. A huge pistol of 2 feet (25") in length, the barrel alone measures 16". The features are all steel, lock assembly, lock plate, trigger, trigger guard, barrel and butt cap. The weight of the pistol is 4lbs approx. Available in .630" cal.approx.



10C ENGLISH PATTERN DRAGOON PISTOL
An excellent reproduction of the early Dragoon holster pistol which dated from around the 1740's, Features include a polished stock, brass trigger guard and butt cap and a steel trigger, 12" barrel, lock and lock plate. The overall length of the pistol is 19" and it weighs 3lbs approx. Available in .650" cal.approx.

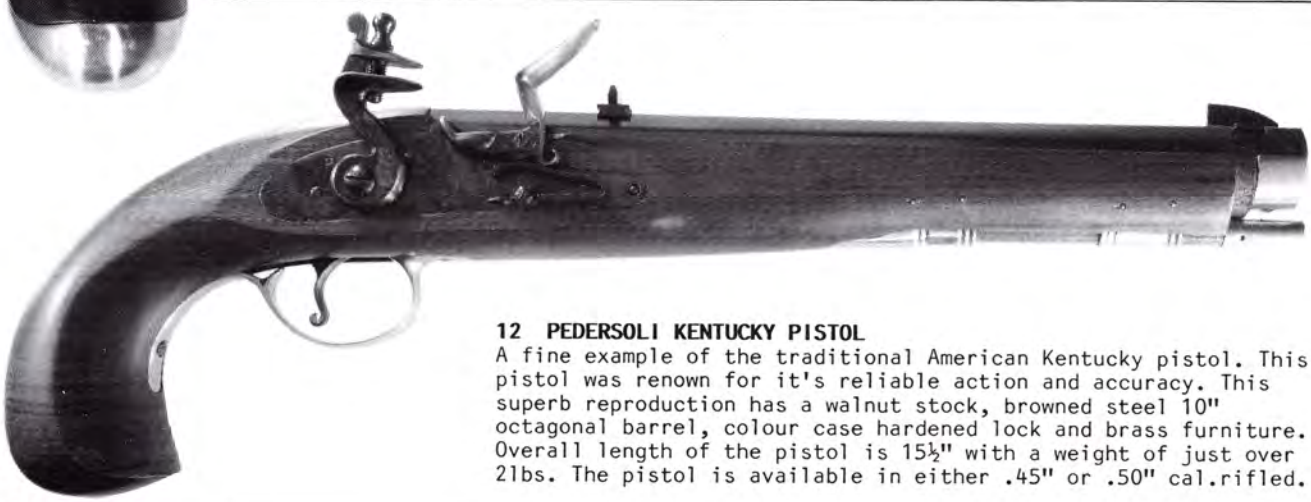


10E EAST INDIA PATTERN MANTON PISTOL
A superb quality version of the original Manton holster pistol which dates from around the 1830's. Features include a polished flared stock, brass trigger guard and butt cap, steel trigger, blued 9" barrel, ramrod pipe and swivel with an overall length of 16", weight 3lbs approx. Available in .680" cal.approx.

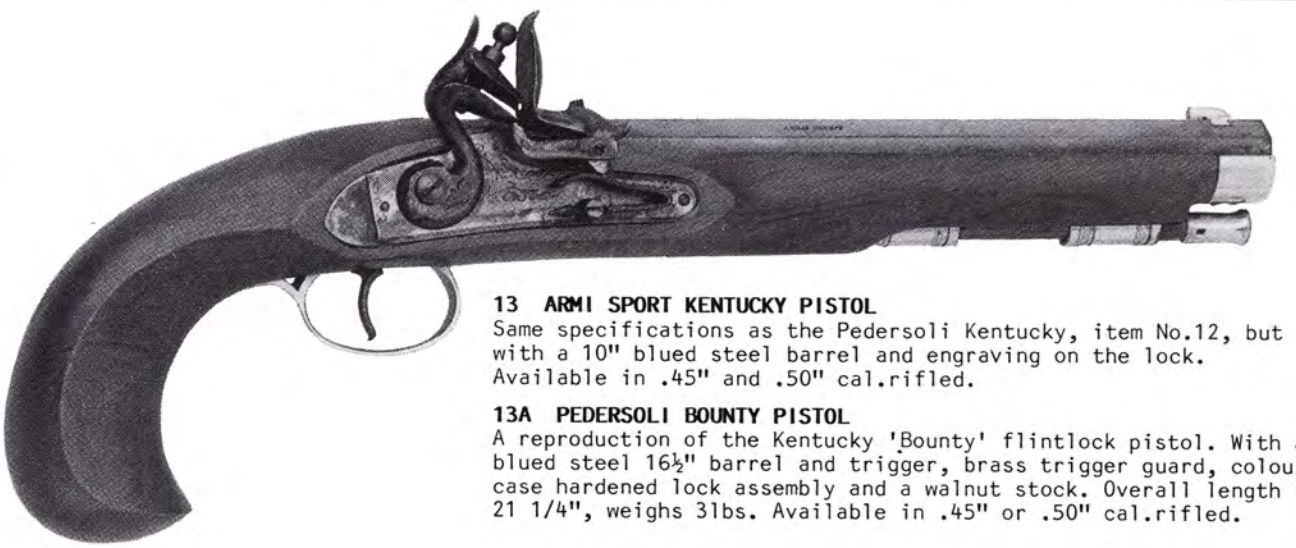


11 PEDERSOLI QUEEN ANNE PISTOL
This a true copy of the flintlock Queen Anne pistol as used in England between 1600 and 1700. The pistol has a browned steel smooth bore barrel of .50" bore and sports brass furniture and a polished steel lock. The finish is of the usual Pedersoli high quality. Overall length of the pistol is 13", weight-2lbs approx.

11A ARMI SAN MARCO CHARLEVILLE PISTOL
A reproduction of the Charleville flintlock pistol which originated in the Saint Etienne armoury and was issued to U.S.and continental troops. The lock plate, trigger guard and butt cap are brass, the belt hook, ramrod and 7½" barrel are steel, blued trigger and walnut stock. Weighs just over 3lbs, overall length-13". Available in .69" smoothbore.

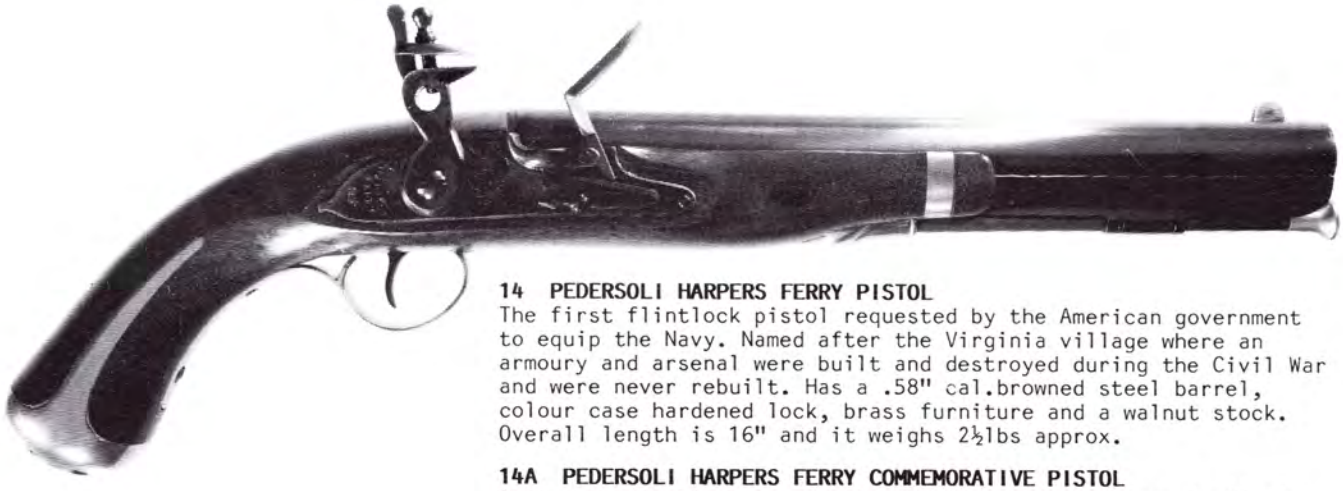


12 PEDERSOLI KENTUCKY PISTOL
A fine example of the traditional American Kentucky pistol. This pistol was renown for it's reliable action and accuracy. This superb reproduction has a walnut stock, browned steel 10" octagonal barrel, colour case hardened lock and brass furniture. Overall length of the pistol is 15½" with a weight of just over 2lbs. The pistol is available in either .45" or .50" cal.rifled.



13 ARMI SPORT KENTUCKY PISTOL
Same specifications as the Pedersoli Kentucky, item No.12, but with a 10" blued steel barrel and engraving on the lock. Available in .45" and .50" cal.rifled.

13A PEDERSOLI BOUNTY PISTOL
A reproduction of the Kentucky 'Bounty' flintlock pistol. With a blued steel 16½" barrel and trigger, brass trigger guard, colour case hardened lock assembly and a walnut stock. Overall length is 21 1/4", weighs 3lbs. Available in .45" or .50" cal.rifled.



14 PEDERSOLI HARPERS FERRY PISTOL
The first flintlock pistol requested by the American government to equip the Navy. Named after the Virginia village where an armoury and arsenal were built and destroyed during the Civil War and were never rebuilt. Has a .58" cal.browned steel barrel, colour case hardened lock, brass furniture and a walnut stock. Overall length is 16" and it weighs 2½lbs approx.

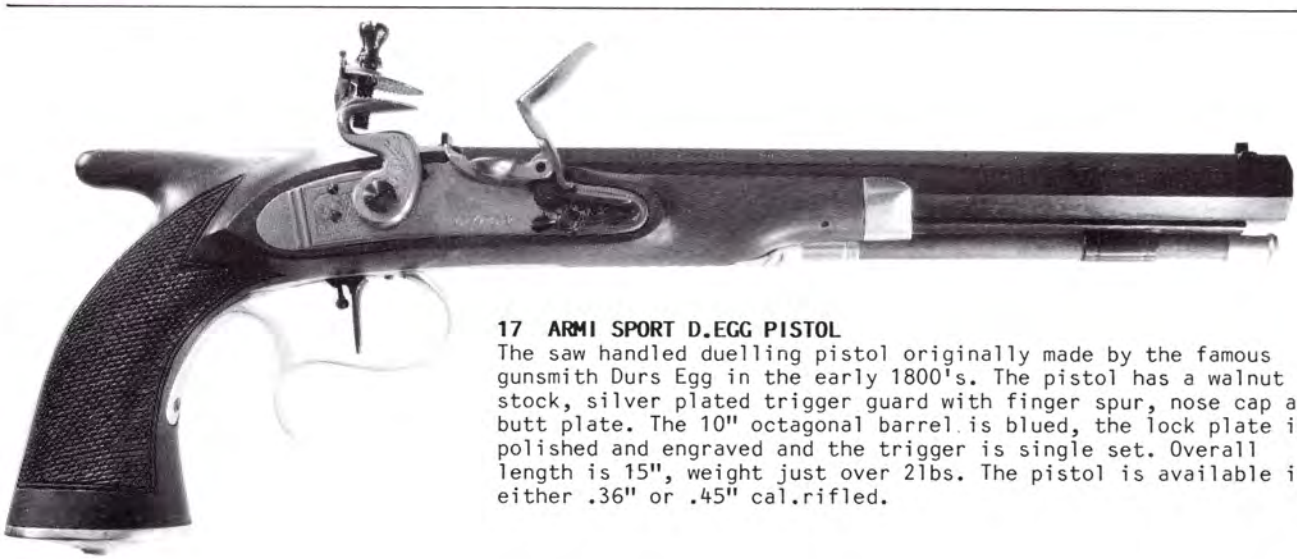
14A PEDERSOLI HARPERS FERRY COMMEMORATIVE PISTOL
Same specifications as item No.14 but with engraving. Available in .58" cal.rifled.

---

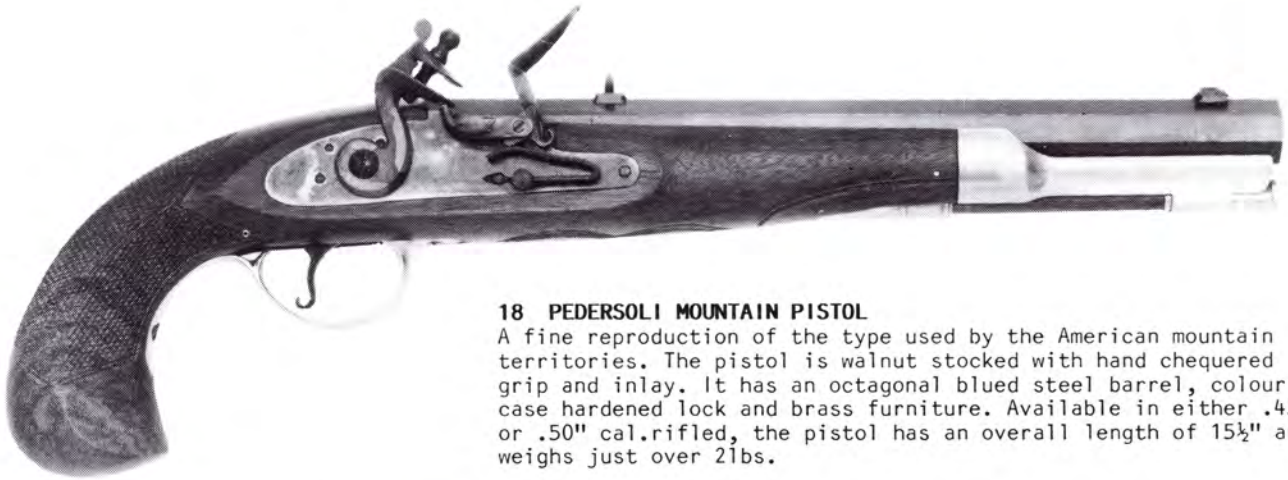
15 ARMI SPORT W.PARKER PISTOL
Derived originally from a duelling pistol produced in Great Britain, but of continental origin. Here produced by Armi Sport of Italy as a quality target pistol with double Austrian type set triggers. The pistol has a 10" octagonal blued steel barrel, walnut stock, highly polished lock plate and silver plated trigger guard. Overall length-17", weight just over 2lbs. The pistol is available in either .36" or .45" cal.rifled.

---

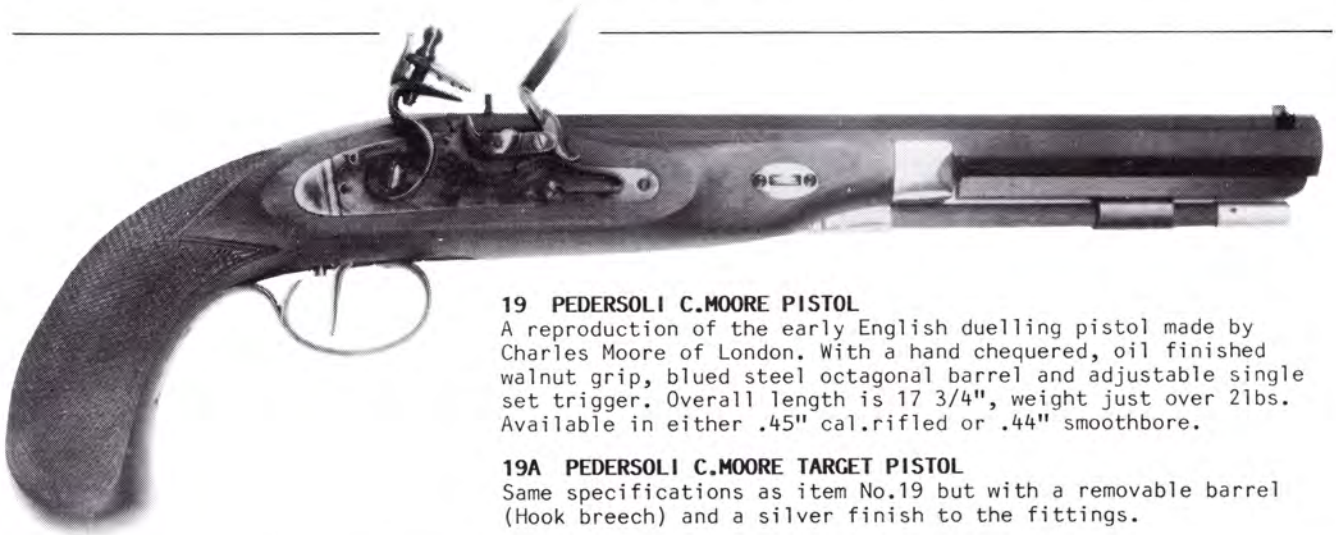
16 ARMI SPORT W.MOORE PISTOL
The William Moore English duelling or target pistol. Winner of many flintlock championships, this pistol has a beautiful hand chequered walnut stock, silver plated trigger guard, nose cap, lower thimble and ramrod tip. Also, has a 10" octagonal blued steel barrel, polished lock plate and single set trigger. Overall length-15½", weight-2 1/4lbs approx. The pistol is available in either .36" or .45" cal.rifled.



17 ARMI SPORT D.EGG PISTOL
The saw handled duelling pistol originally made by the famous gunsmith Durs Egg in the early 1800's. The pistol has a walnut stock, silver plated trigger guard with finger spur, nose cap and butt plate. The 10" octagonal barrel is blued, the lock plate is polished and engraved and the trigger is single set. Overall length is 15", weight just over 2lbs. The pistol is available in either .36" or .45" cal.rifled.

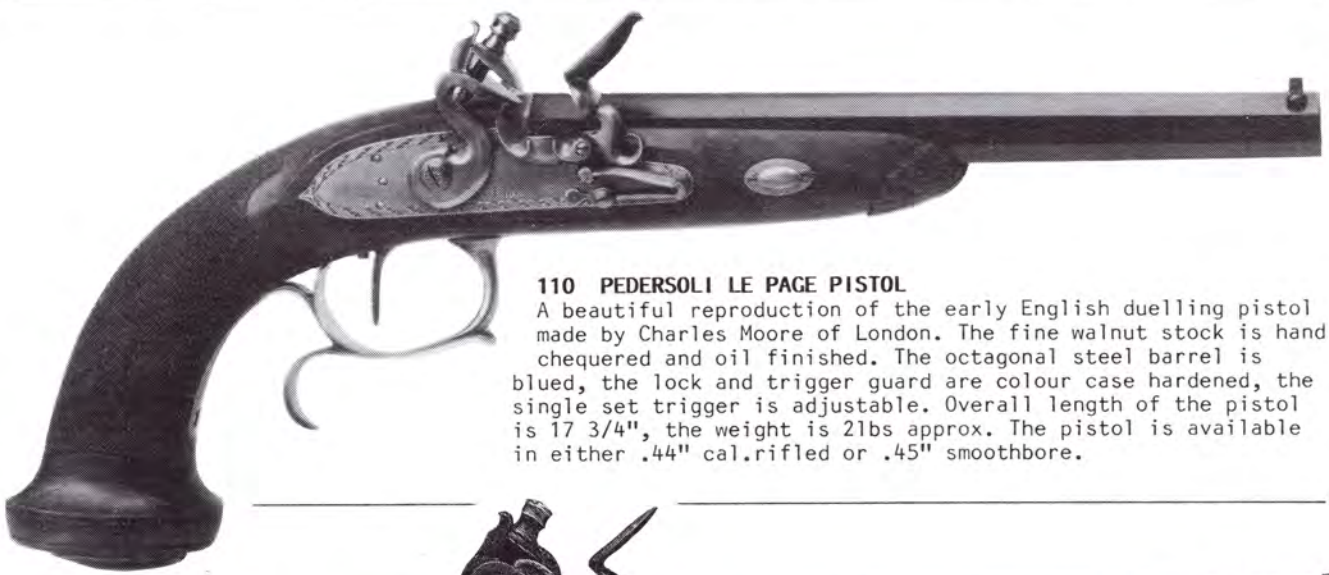


18 PEDERSOLI MOUNTAIN PISTOL
A fine reproduction of the type used by the American mountain territories. The pistol is walnut stocked with hand chequered grip and inlay. It has an octagonal blued steel barrel, colour case hardened lock and brass furniture. Available in either .45" or .50" cal.rifled, the pistol has an overall length of 15½" and weighs just over 2lbs.

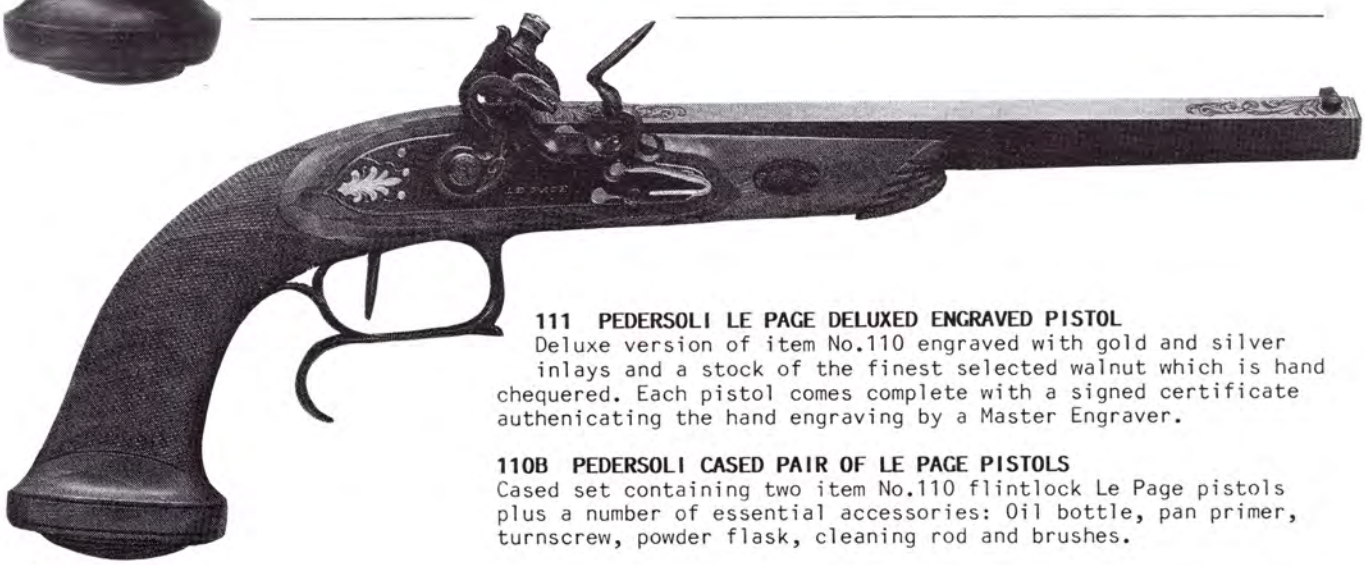


19 PEDERSOLI C.MOORE PISTOL
A reproduction of the early English duelling pistol made by Charles Moore of London. With a hand chequered, oil finished walnut grip, blued steel octagonal barrel and adjustable single set trigger. Overall length is 17 3/4", weight just over 2lbs. Available in either .45" cal.rifled or .44" smoothbore.

19A PEDERSOLI C.MOORE TARGET PISTOL
Same specifications as item No.19 but with a removable barrel (Hook breech) and a silver finish to the fittings.

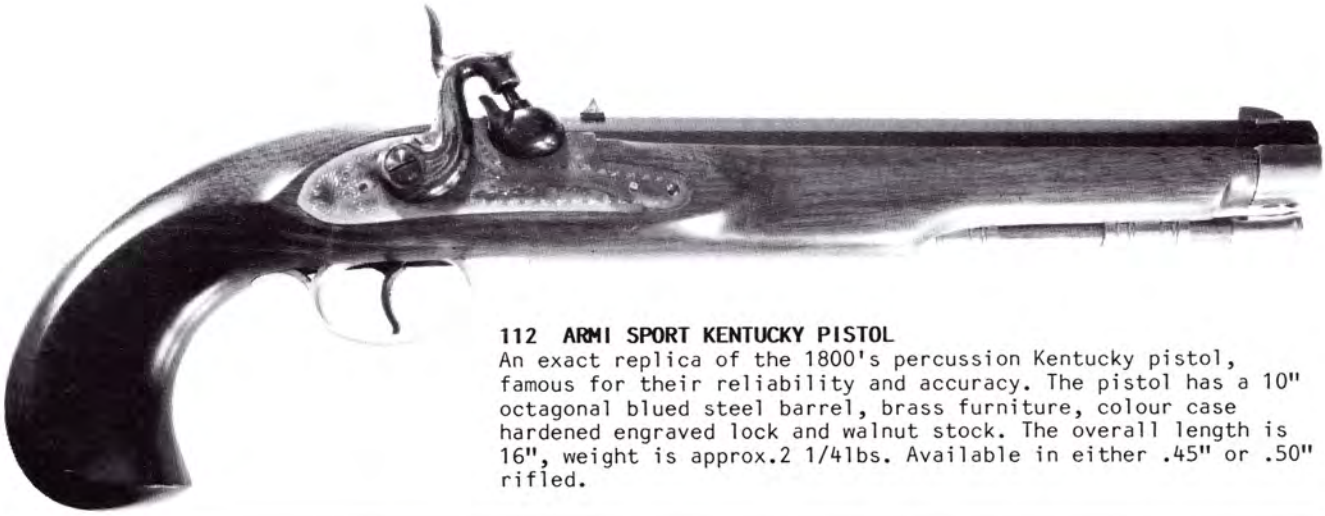


110 PEDERSOLI LE PAGE PISTOL
A beautiful reproduction of the early English duelling pistol made by Charles Moore of London. The fine walnut stock is hand chequered and oil finished. The octagonal steel barrel is blued, the lock and trigger guard are colour case hardened, the single set trigger is adjustable. Overall length of the pistol is 17 3/4", the weight is 2lbs approx. The pistol is available in either .44" cal.rifled or .45" smoothbore.

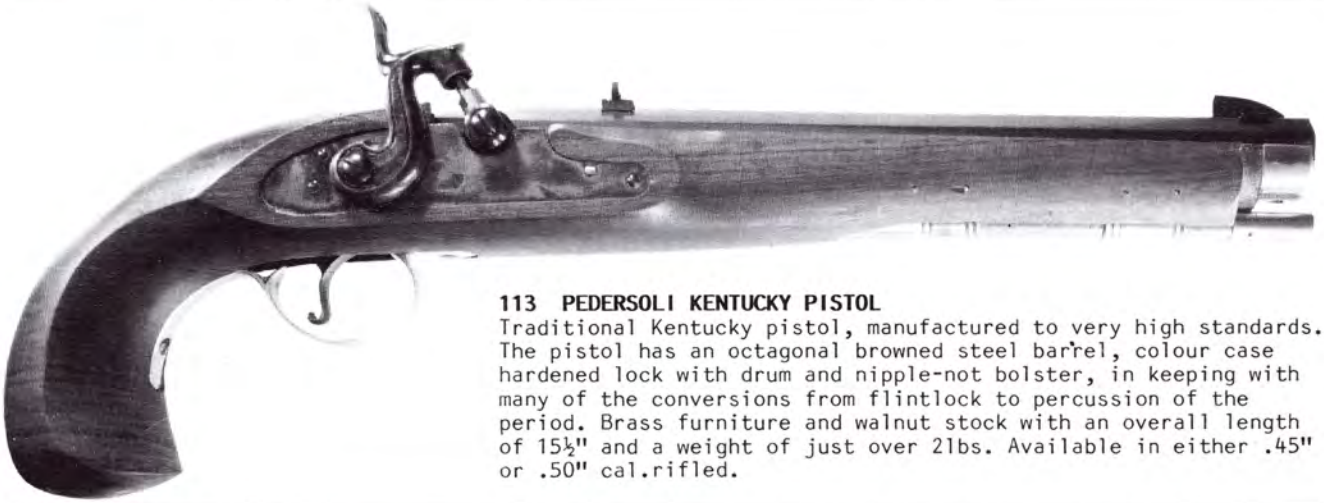


111 PEDERSOLI LE PAGE DELUXED ENGRAVED PISTOL
Deluxe version of item No.110 engraved with gold and silver inlays and a stock of the finest selected walnut which is hand chequered. Each pistol comes complete with a signed certificate authenicating the hand engraving by a Master Engraver.

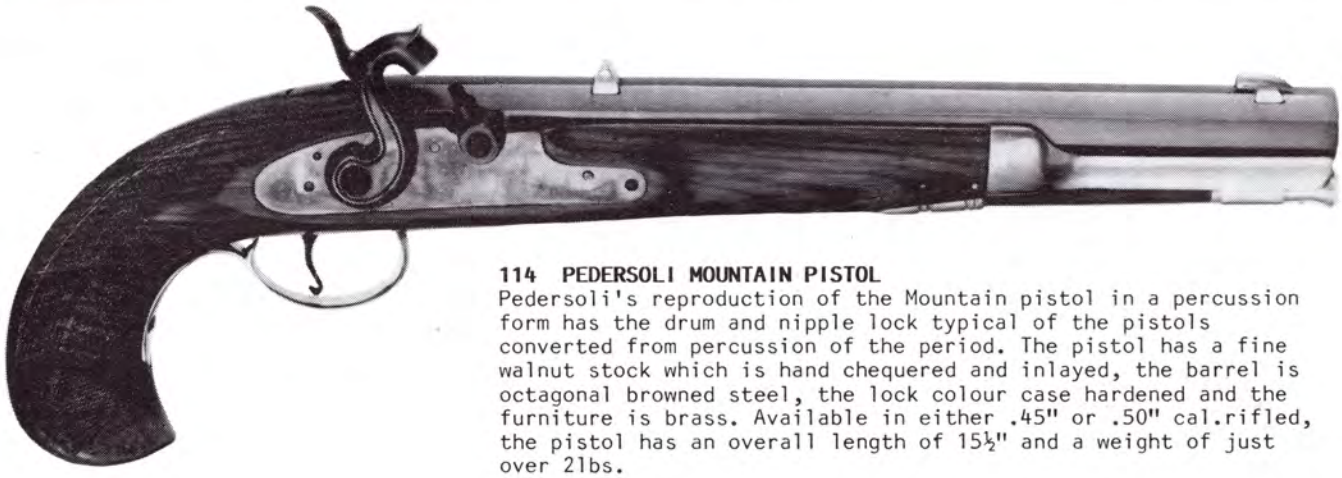
110B PEDERSOLI CASED PAIR OF LE PAGE PISTOLS
Cased set containing two item No.110 flintlock Le Page pistols plus a number of essential accessories: Oil bottle, pan primer, turnscrew, powder flask, cleaning rod and brushes.



112 ARMI SPORT KENTUCKY PISTOL
An exact replica of the 1800's percussion Kentucky pistol, famous for their reliability and accuracy. The pistol has a 10" octagonal blued steel barrel, brass furniture, colour case hardened engraved lock and walnut stock. The overall length is 16", weight is approx.2 1/4lbs. Available in either .45" or .50" rifled.

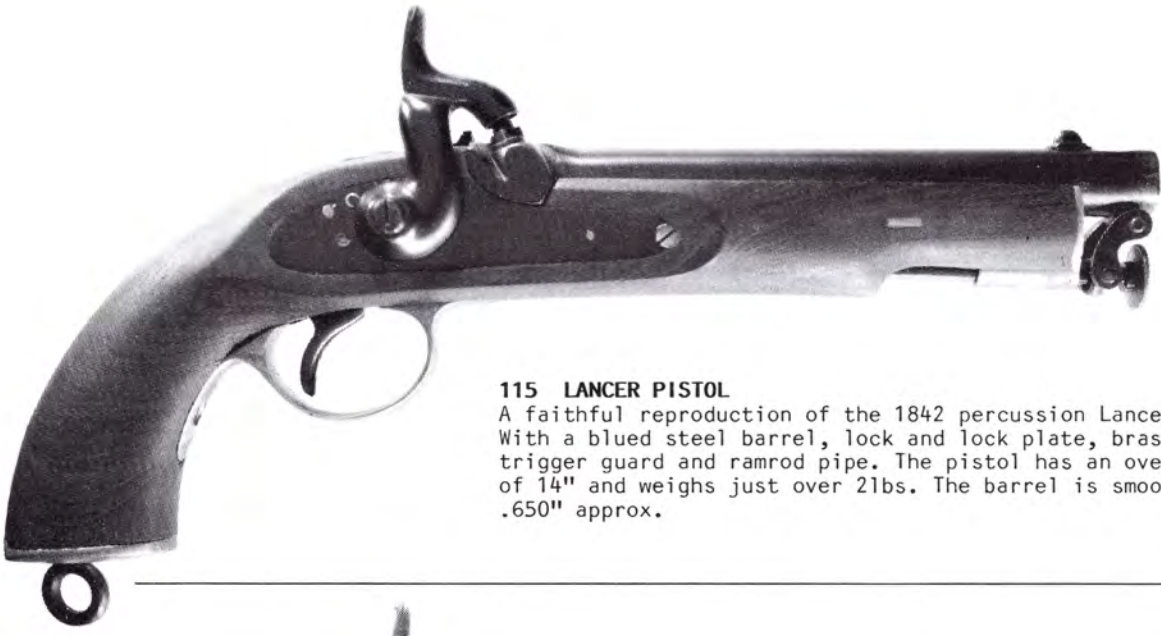


113 PEDERSOLI KENTUCKY PISTOL
Traditional Kentucky pistol, manufactured to very high standards. The pistol has an octagonal browned steel barrel, colour case hardened lock with drum and nipple-not bolster, in keeping with many of the conversions from flintlock to percussion of the period. Brass furniture and walnut stock with an overall length of 15½" and a weight of just over 2lbs. Available in either .45" or .50" cal.rifled.

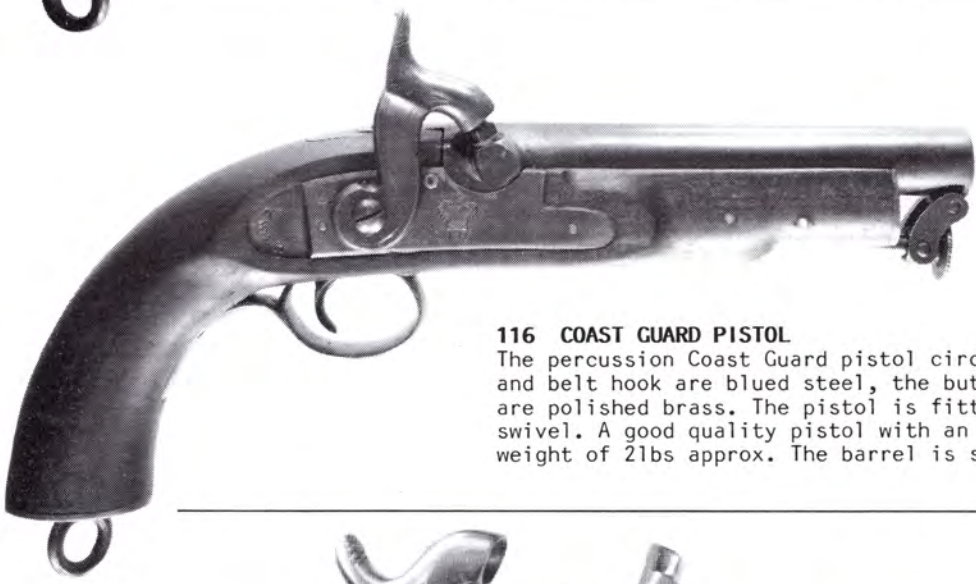


114 PEDERSOLI MOUNTAIN PISTOL
Pedersoli's reproduction of the Mountain pistol in a percussion form has the drum and nipple lock typical of the pistols converted from percussion of the period. The pistol has a fine walnut stock which is hand chequered and inlayed, the barrel is octagonal browned steel, the lock colour case hardened and the furniture is brass. Available in either .45" or .50" cal.rifled, the pistol has an overall length of 15½" and a weight of just over 2lbs.

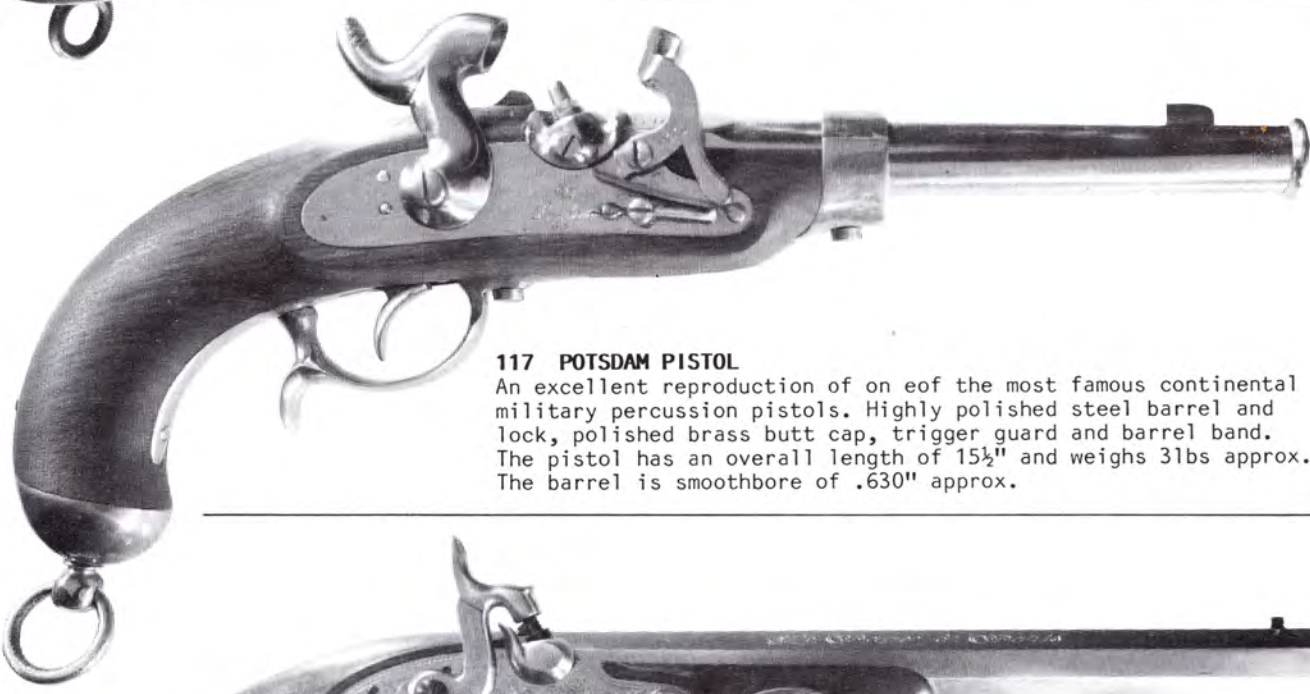
114A PEDERSOLI BOUNTY PISTOL
A reproduction of the Kentucky 'Bounty' percussion pistol. With a long barrel that could assure better accuracy over long distances and was a favourite of the 'Bounty Hunters'. The 16½" barrel is made from blued steel as is the trigger, the trigger guard is brass with a colour case hardened lock assembly and walnut stock. The overall length of the pistol is 21 1/4" and the weight is 3lbs. Available in either .45" or .50" cal.rifled.



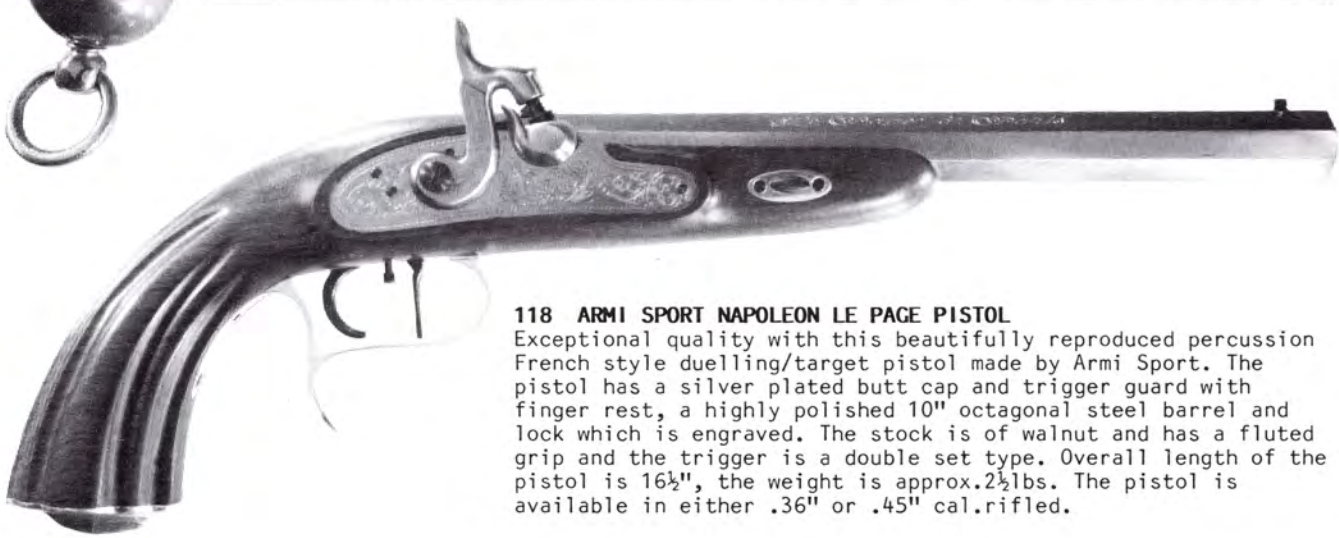
115 LANCER PISTOL
A faithful reproduction of the 1842 percussion Lancer pistol. With a blued steel barrel, lock and lock plate, brass butt cap, trigger guard and ramrod pipe. The pistol has an overall length of 14" and weighs just over 2lbs. The barrel is smoothbore at .650" approx.



116 COAST GUARD PISTOL
The percussion Coast Guard pistol circa 1855. The barrel, lock and belt hook are blued steel, the butt cap and trigger guard are polished brass. The pistol is fitted with a steel ramrod and swivel. A good quality pistol with an overall length of 12" and a weight of 2lbs approx. The barrel is smoothbore of .630" approx.

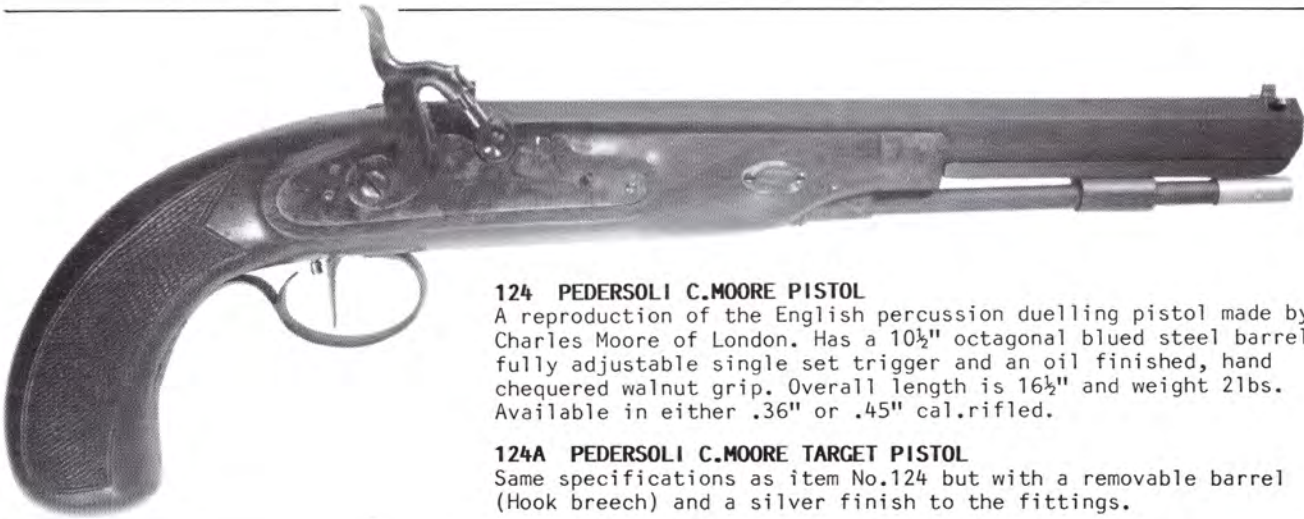


117 POTSDAM PISTOL
An excellent reproduction of on eof the most famous continental military percussion pistols. Highly polished steel barrel and lock, polished brass butt cap, trigger guard and barrel band. The pistol has an overall length of 15½" and weighs 3lbs approx. The barrel is smoothbore of .630" approx.



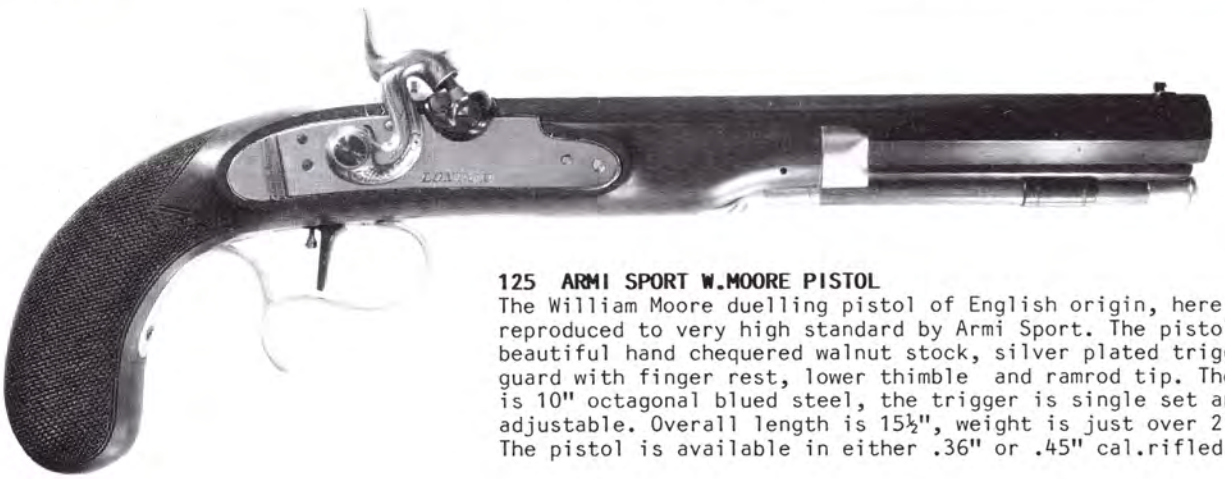
118 ARMI SPORT NAPOLEON LE PAGE PISTOL
Exceptional quality with this beautifully reproduced percussion French style duelling/target pistol made by Armi Sport. The pistol has a silver plated butt cap and trigger guard with finger rest, a highly polished 10" octagonal steel barrel and lock which is engraved. The stock is of walnut and has a fluted grip and the trigger is a double set type. Overall length of the pistol is 16½", the weight is approx.2½lbs. The pistol is available in either .36" or .45" cal.rifled.

123 PEDERSOLI MANG IN GRAZ DELUXE PISTOL
Built to the same specifications as item No.122, but with beautifully hand engraved lock and fittings which are enhanced by fine gold inlay. Again available in .38" cal.rifled.

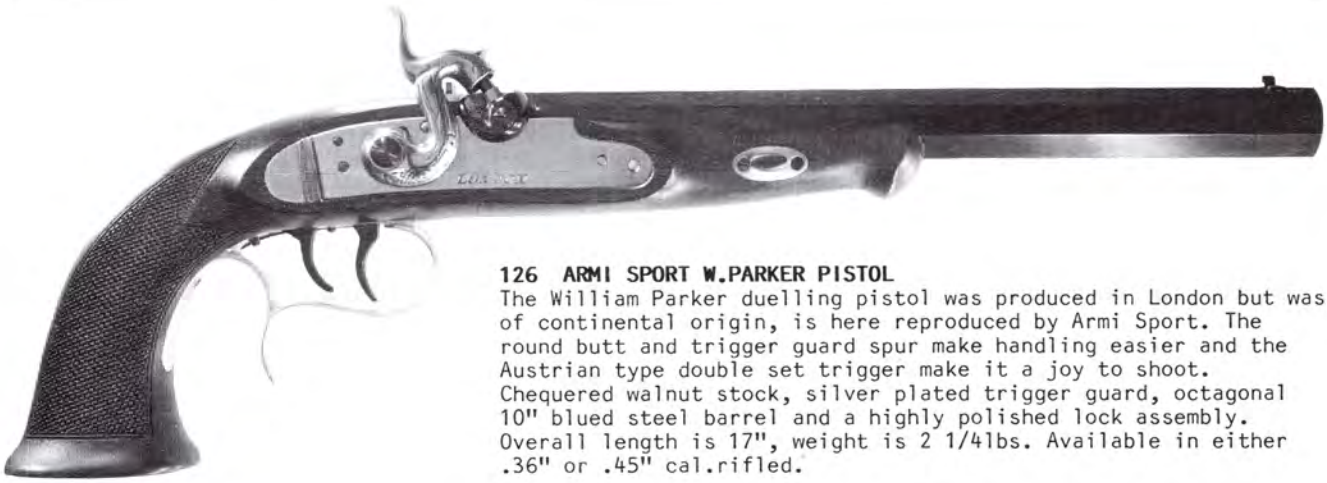


124 PEDERSOLI C.MOORE PISTOL
A reproduction of the English percussion duelling pistol made by Charles Moore of London. Has a 10½" octagonal blued steel barrel, fully adjustable single set trigger and an oil finished, hand chequered walnut grip. Overall length is 16½" and weight 2lbs. Available in either .36" or .45" cal.rifled.

124A PEDERSOLI C.MOORE TARGET PISTOL
Same specifications as item No.124 but with a removable barrel (Hook breech) and a silver finish to the fittings.



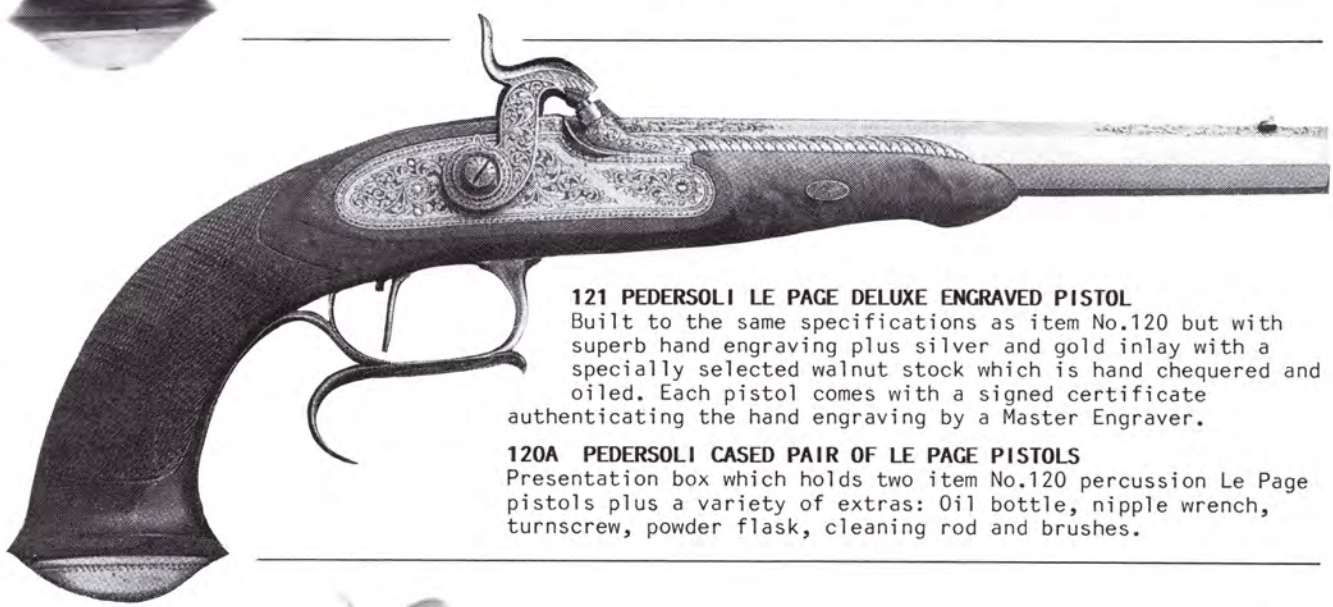
125 ARMI SPORT W.MOORE PISTOL
The William Moore duelling pistol of English origin, here reproduced to very high standard by Armi Sport. The pistol has a beautiful hand chequered walnut stock, silver plated trigger guard with finger rest, lower thimble and ramrod tip. The barrel is 10" octagonal blued steel, the trigger is single set and adjustable. Overall length is 15½", weight is just over 2 1/4lbs. The pistol is available in either .36" or .45" cal.rifled.



126 ARMI SPORT W.PARKER PISTOL
The William Parker duelling pistol was produced in London but was of continental origin, is here reproduced by Armi Sport. The round butt and trigger guard spur make handling easier and the Austrian type double set trigger make it a joy to shoot. Chequered walnut stock, silver plated trigger guard, octagonal 10" blued steel barrel and a highly polished lock assembly. Overall length is 17", weight is 2 1/4lbs. Available in either .36" or .45" cal.rifled.

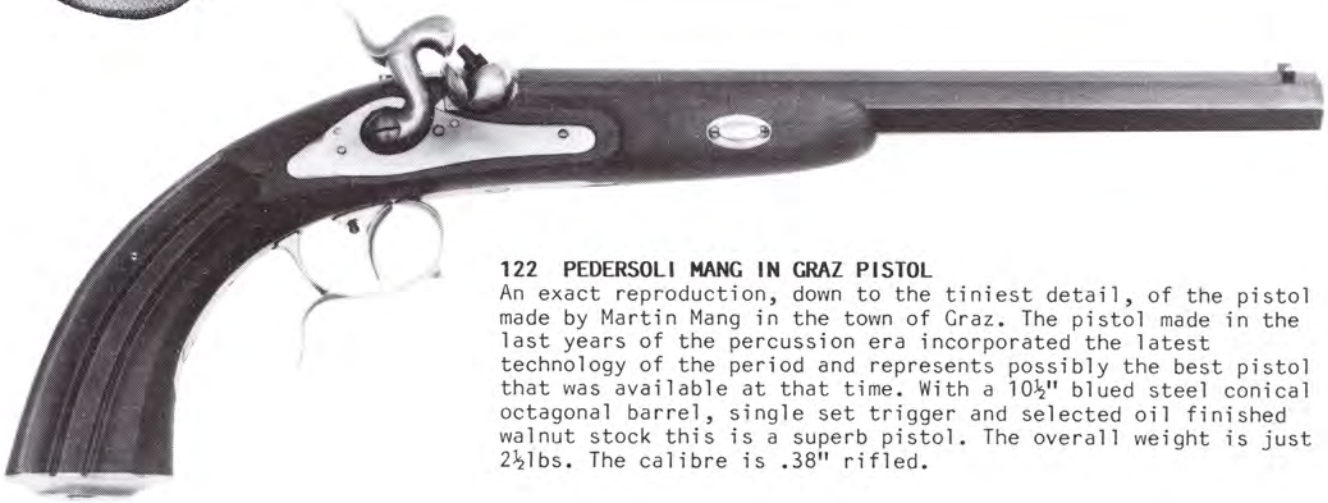
119 ARMI SPORT NAPOLEON LE PAGE DELUXE PISTOL
This pistol is to the same specifications as item No.118 but comes with a beautiful selected figured olive wood stock. Again the pistol is available in either .36" or .45" cal.rifled.

120 PEDERSOLI LE PAGE PISTOL
A superb reproduction of the French target or duelling pistol that was made by Henri Le Page between 1840 and 1850. The pistol is well established as a competative target shooter. A fine quality European stock that is hand chequered and oil polished sets off a bright conical octagonal 9½" barrel and lock. With an adjustable single set trigger, an overall length of 17", weight-just over 2lbs. The barrel is available in a choice of either .36", .38" or .44" cal.rifled.

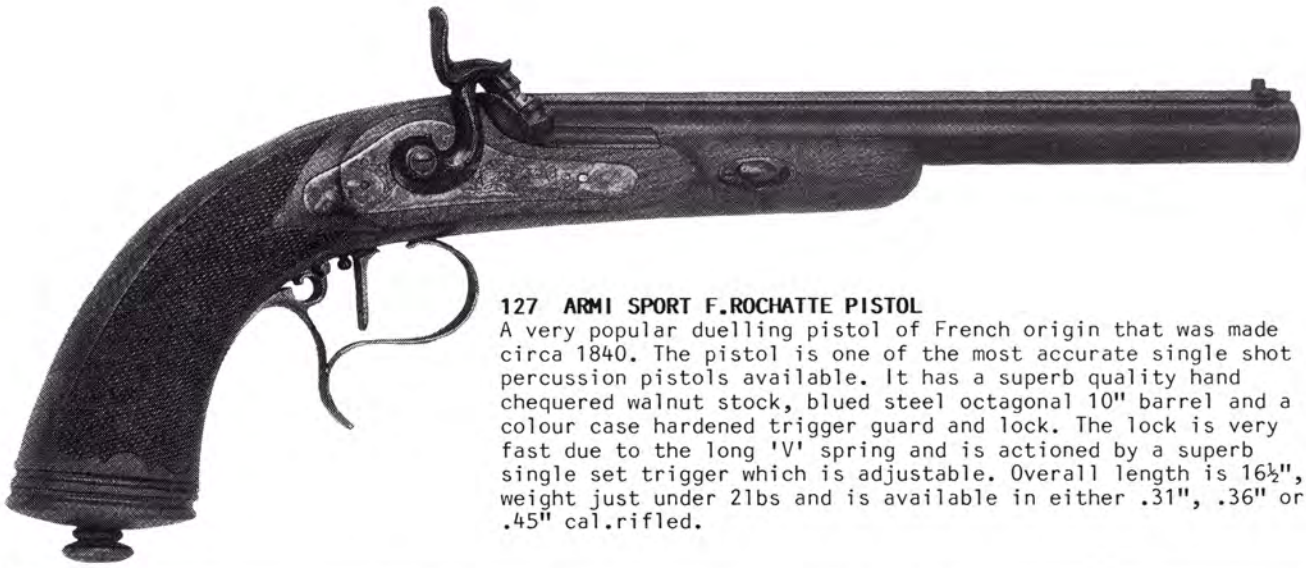


121 PEDERSOLI LE PAGE DELUXE ENGRAVED PISTOL
Built to the same specifications as item No.120 but with superb hand engraving plus silver and gold inlay with a specially selected walnut stock which is hand chequered and oiled. Each pistol comes with a signed certificate authenticating the hand engraving by a Master Engraver.

120A PEDERSOLI CASED PAIR OF LE PAGE PISTOLS
Presentation box which holds two item No.120 percussion Le Page pistols plus a variety of extras: Oil bottle, nipple wrench, turnscrew, powder flask, cleaning rod and brushes.

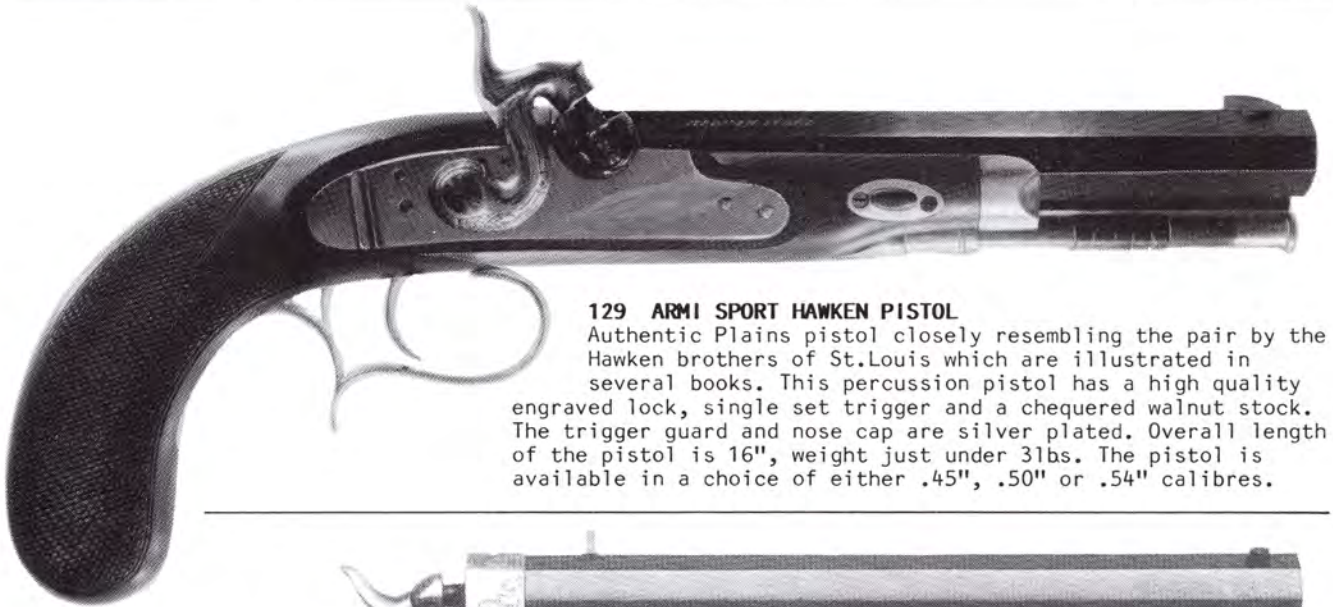


122 PEDERSOLI MANG IN GRAZ PISTOL
An exact reproduction, down to the tiniest detail, of the pistol made by Martin Mang in the town of Graz. The pistol made in the last years of the percussion era incorporated the latest technology of the period and represents possibly the best pistol that was available at that time. With a 10½" blued steel conical octagonal barrel, single set trigger and selected oil finished walnut stock this is a superb pistol. The overall weight is just 2½lbs. The calibre is .38" rifled.

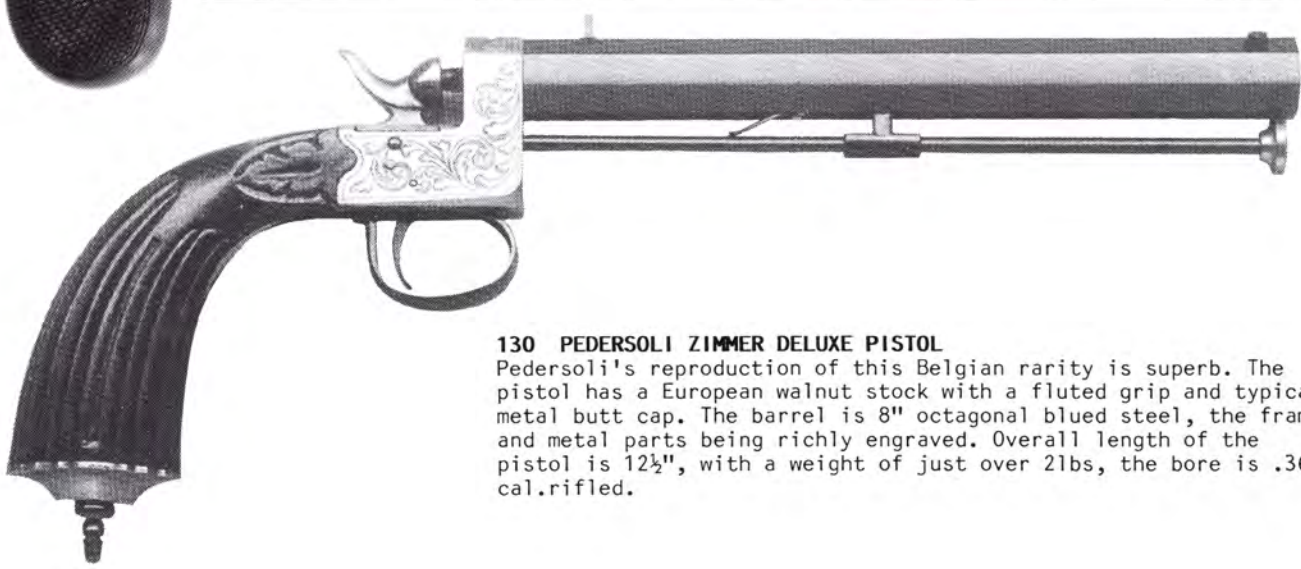


127 ARMI SPORT F.ROCHATTE PISTOL
A very popular duelling pistol of French origin that was made circa 1840. The pistol is one of the most accurate single shot percussion pistols available. It has a superb quality hand chequered walnut stock, blued steel octagonal 10" barrel and a colour case hardened trigger guard and lock. The lock is very fast due to the long 'V' spring and is actioned by a superb single set trigger which is adjustable. Overall length is 16½", weight just under 2lbs and is available in either .31", .36" or .45" cal.rifled.

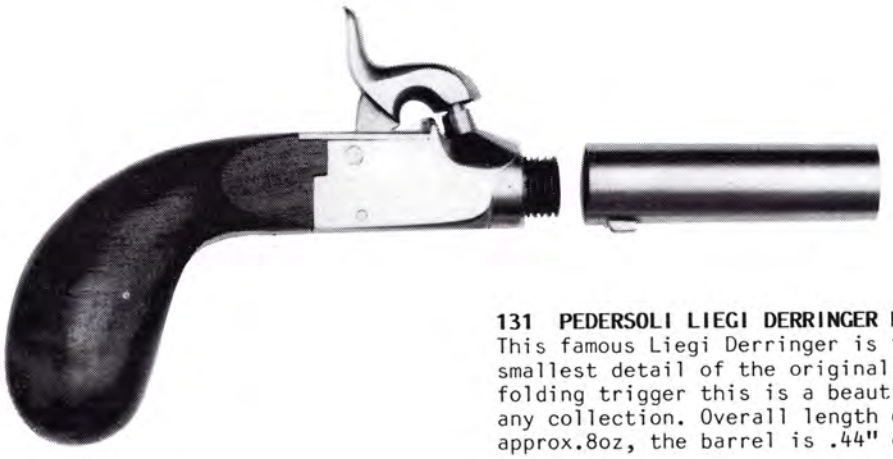
128 ARMI SPORT D.EGG PISTOL
The distinctive saw handled duelling pistol, built by the famous Durs Egg in London in the early 1800's, here shown in percussion form. With a 10" octagonal blued steel barrel, high quality chequered walnut stock and silver plated trigger guard, nose cap and butt cap. The pistol has a highly polished and engraved lock assembly which is actioned by an adjustable single set trigger. The overall length 1s 15", weighs just over 2lbs. Available in either .36" or .45" cal.rifled.



129 ARMI SPORT HAWKEN PISTOL
Authentic Plains pistol closely resembling the pair by the Hawken brothers of St.Louis which are illustrated in several books. This percussion pistol has a high quality engraved lock, single set trigger and a chequered walnut stock. The trigger guard and nose cap are silver plated. Overall length of the pistol is 16", weight just under 3lbs. The pistol is available in a choice of either .45", .50" or .54" calibres.



130 PEDERSOLI ZIMMER DELUXE PISTOL
Pedersoli's reproduction of this Belgian rarity is superb. The pistol has a European walnut stock with a fluted grip and typical metal butt cap. The barrel is 8" octagonal blued steel, the frame and metal parts being richly engraved. Overall length of the pistol is 12½", with a weight of just over 2lbs, the bore is .36" cal.rifled.

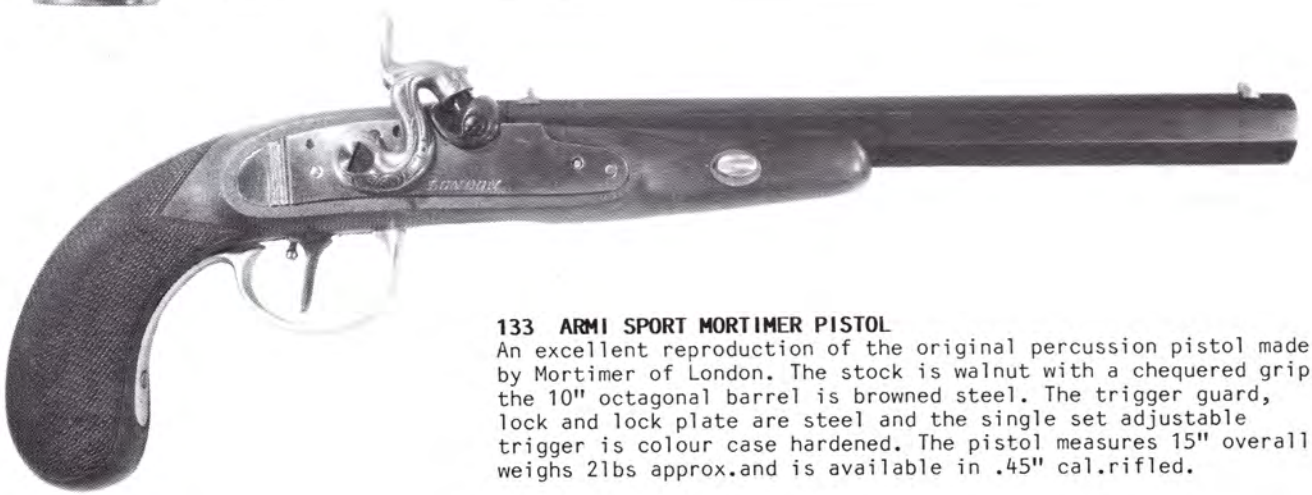


131 PEDERSOLI LIEGI DERRINGER PISTOL
This famous Liegi Derringer is faithfully reproduced down to the smallest detail of the original. With a removable barrel and folding trigger this is a beautiful single shot pistol to add to any collection. Overall length of the pistol is 6½", weight approx.8oz, the barrel is .44" cal.rifled.

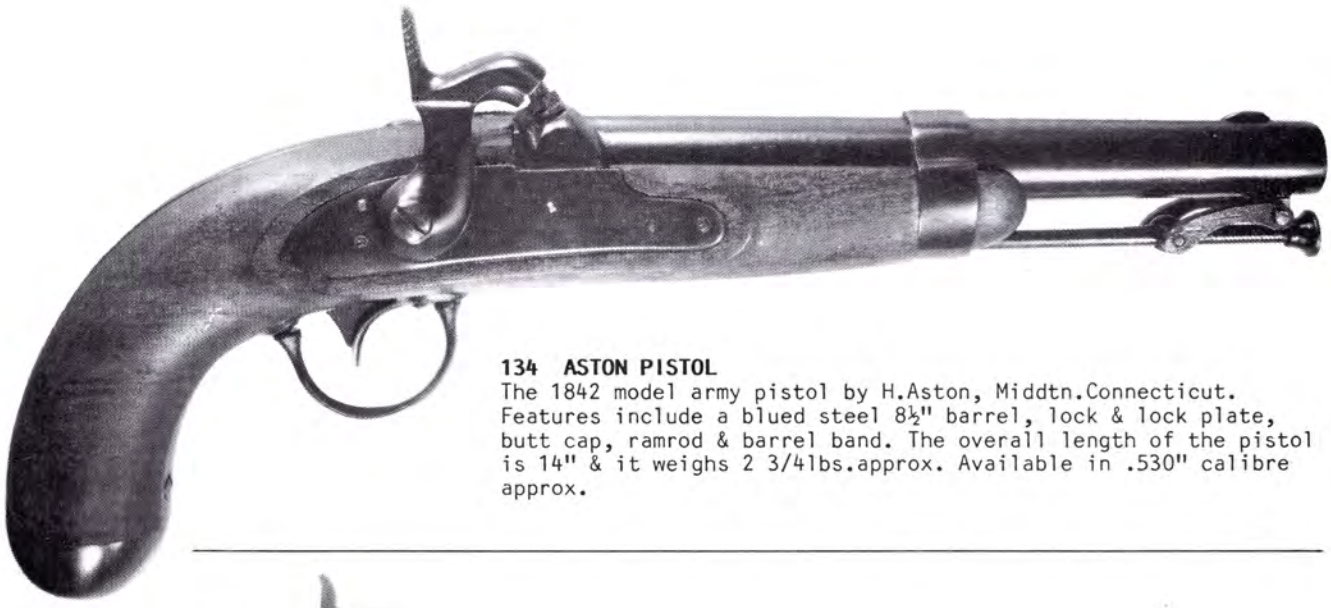
131A PEDERSOLI LIEGI DERRINGER 'POCKET' PISTOL
A new version of the Derringer pistol with a .36" cal.rifled 4" round conical barrel. The stock is select walnut and the trigger folds away. Overall length of the pistol is 8" and it weighs 0.5lbs.

---

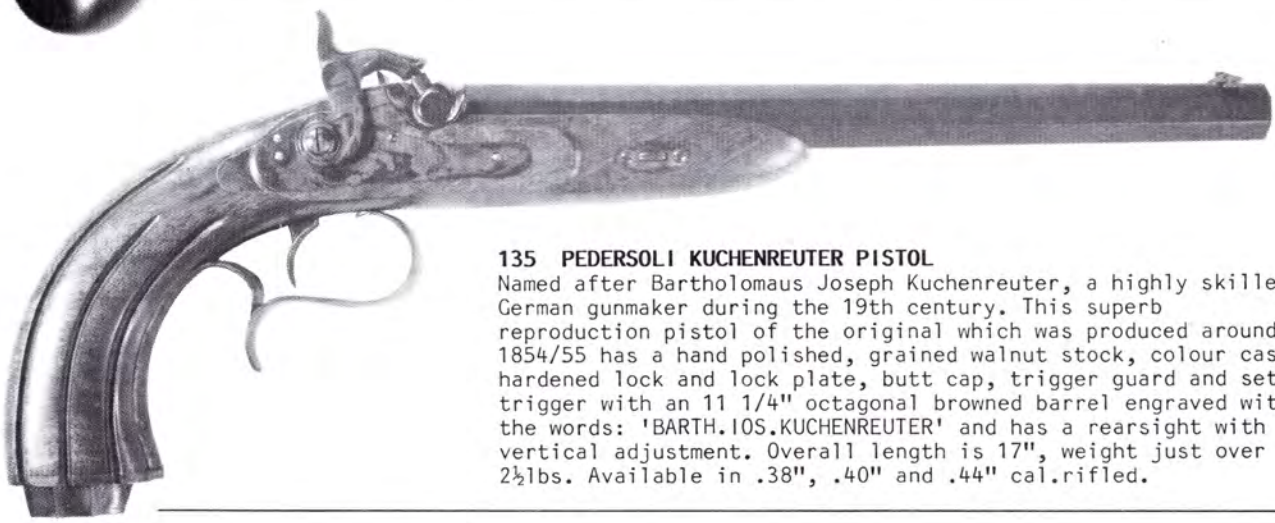
132 ARMI SPORT POTET PISTOL
Superbly reproduced by Armi Sport. The stock is top quality walnut with chequered grips, brightly polished 10" octagonal barrel, trigger guard and butt plate. The lock and lock plate are steel and the single set trigger is adjustable. The overall length of the pistol is 15½", weight-2lbs approx.and is available in .45" cal.rifled.



133 ARMI SPORT MORTIMER PISTOL
An excellent reproduction of the original percussion pistol made by Mortimer of London. The stock is walnut with a chequered grip, the 10" octagonal barrel is browned steel. The trigger guard, lock and lock plate are steel and the single set adjustable trigger is colour case hardened. The pistol measures 15" overall, weighs 2lbs approx.and is available in .45" cal.rifled.



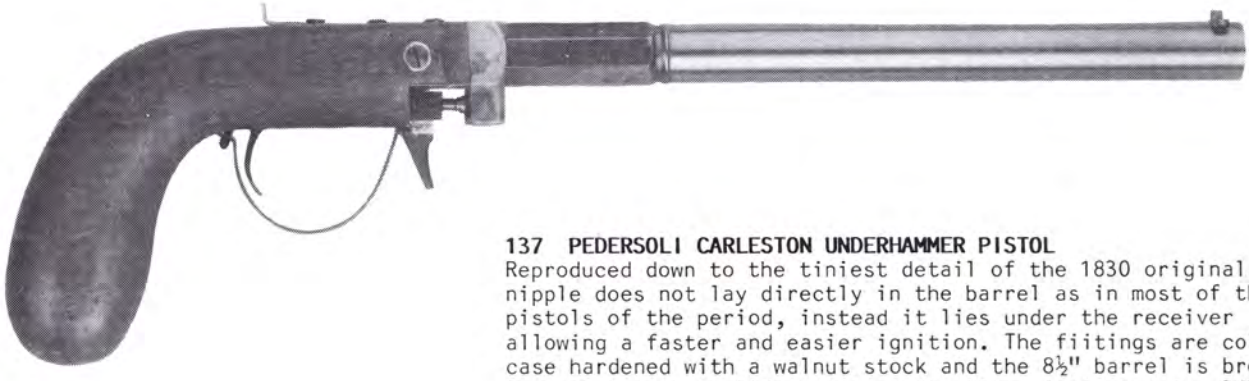
134 ASTON PISTOL
The 1842 model army pistol by H.Aston, Middtn.Connecticut. Features include a blued steel 8½" barrel, lock & lock plate, butt cap, ramrod & barrel band. The overall length of the pistol is 14" & it weighs 2 3/4lbs.approx. Available in .530" calibre approx.



135 PEDERSOLI KUCHENREUTER PISTOL
Named after Bartholomaus Joseph Kuchenreuter, a highly skilled German gunmaker during the 19th century. This superb reproduction pistol of the original which was produced around 1854/55 has a hand polished, grained walnut stock, colour case hardened lock and lock plate, butt cap, trigger guard and set trigger with an 11 1/4" octagonal browned barrel engraved with the words: 'BARTH.IOS.KUCHENREUTER' and has a rearsight with vertical adjustment. Overall length is 17", weight just over 2½lbs. Available in .38", .40" and .44" cal.rifled.

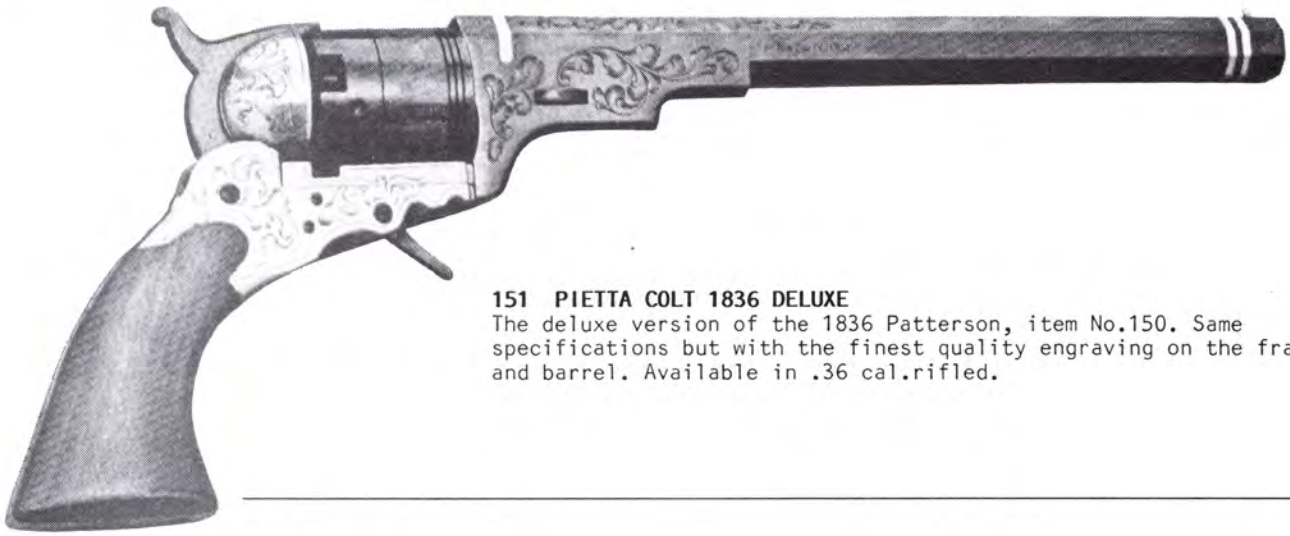
---

136 PEDERSOLI SALOON PISTOL
A reproduction of the original Belgian Saloon pistol. The nipple is positioned to produce an extremely fast ignition. The stock is made from European walnut, the frame and hammer are colour case hardened, the 8" barrel is blued steel. Overall length is 12½" and it weighs 1 3/4lbs. Available in .36" cal.rifled.



137 PEDERSOLI CARLESTON UNDERHAMMER PISTOL
Reproduced down to the tiniest detail of the 1830 original. The nipple does not lay directly in the barrel as in most of the pistols of the period, instead it lies under the receiver allowing a faster and easier ignition. The fiitings are colour case hardened with a walnut stock and the 8½" barrel is browned. Overall length is 16" and it weighs 2lbs. Available in .36" cal. rifled.

150 PIETTA COLT 1836 PATTERSON
The famous Texas Patterson, one of the rarest types of gun in existence was used extensively by the Texas Rangers. Faithfully reproduced in Italy to extremely high standards with a flip down trigger, blued steel 9" octagonal barrel, 5 shot cylinder and frame. The pistol is loaded with the aid of a special loading tool (provided) after removal of the barrel. Overall length is 14", weight approx.2lbs 8oz. Available in .36 cal.rifled.



151 PIETTA COLT 1836 DELUXE
The deluxe version of the 1836 Patterson, item No.150. Same specifications but with the finest quality engraving on the frame and barrel. Available in .36 cal.rifled.

152A ARMI SAN MARCO COLT 1847 WALKER
The Whitneyville Walker was the biggest revolver ever made, only 1100 were produced by Colt in the Whitneyville factory under the direction of Captain Samuel Walker of the Texas Rangers. Reproduced by Armi San Marco of Italy with a 9" round blued steel barrel and cylinder, colour case hardened frame, hammer and trigger guard, walnut grips and an overall length of 15 3/4" and weighs 4½lbs approx. Available in .44 cal.rifled.

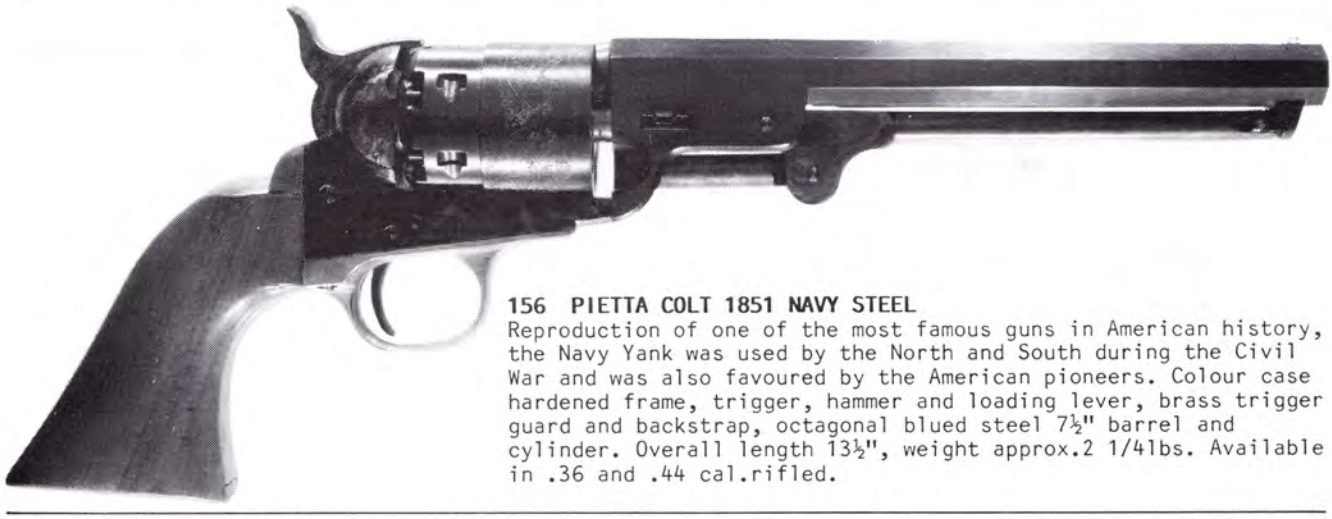
---

153 PIETTA COLT 1851 NAVY SHERIFF'S BRASS
Same specifications as item No.155 but with a shortened 5" barrel. It was originally used in the old west for quick draw and personal protection. Available in .36 and .44 cal.rifled.

154 PIETTA COLT 1851 NAVY SHERIFF'S STEEL
Same specifications as item No.156 but with a shortened 5" barrel. Favoured by both sides of the law in the old west for quick draw and personal protection. Available in .36 and .44 cal.rifled.

---

155 PIETTA COLT 1851 NAVY BRASS
A version of the 1851 Navy Yank model (Item No.156) but with a polished brass frame. Originally used by Confederates during the Civil War. Blued steel 7½" octagonal barrel and cylinder, colour case hardened hammer, trigger and loading lever with polished walnut grips. Overall length is 13½", weight approx.2 1/4lbs. Available in .36 and .44 cal.rifled.



156 PIETTA COLT 1851 NAVY STEEL
Reproduction of one of the most famous guns in American history, the Navy Yank was used by the North and South during the Civil War and was also favoured by the American pioneers. Colour case hardened frame, trigger, hammer and loading lever, brass trigger guard and backstrap, octagonal blued steel 7½" barrel and cylinder. Overall length 13½", weight approx.2 1/4lbs. Available in .36 and .44 cal.rifled.

---

157 PIETTA COLT 1851 NAVY CARBINE
Sometimes known as the 'Buntline', this gun has the same specifications as item No.155 but with a 12" octagonal blued steel rifled barrel. May be used with the shoulder stock, item No.1480 which is illustrated later in this section. Available in .44 cal.rifled.

158 PIETTA COLT 1851 CONFEDERATE SHERIFF'S
Same specifications as item No.159 but with a shortened 5" barrel. Available in .36 and .44 cal.rifled.

---

159 PIETTA COLT 1851 CONFEDERATE
The Souths answer to the 1851 Navy Yank made by Colt. Specifications same as item No.155 but with a round 7½" barrel, brass frame and plain cylinder. Overall length is 13" and it weighs approx.2 1/4lbs. Available in .36 and .44 cal.rifled.

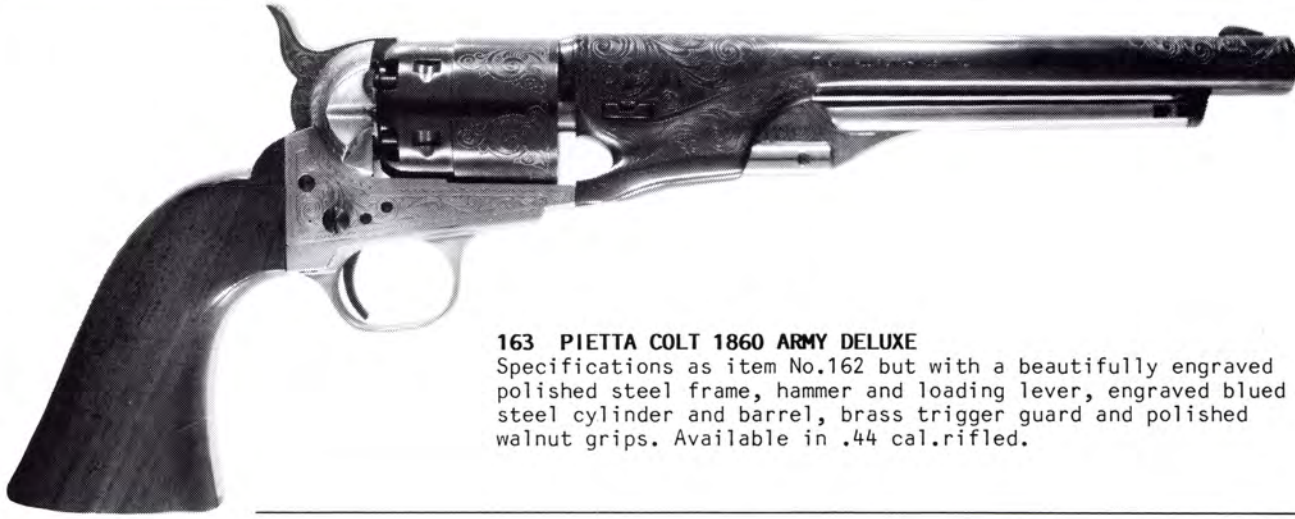
---

160 PIETTA COLT 1851 LONDON SHERIFF'S
Same specifications as item No.161 but with a shortened 5" barrel. Available in .36 and .44 cal.rifled.

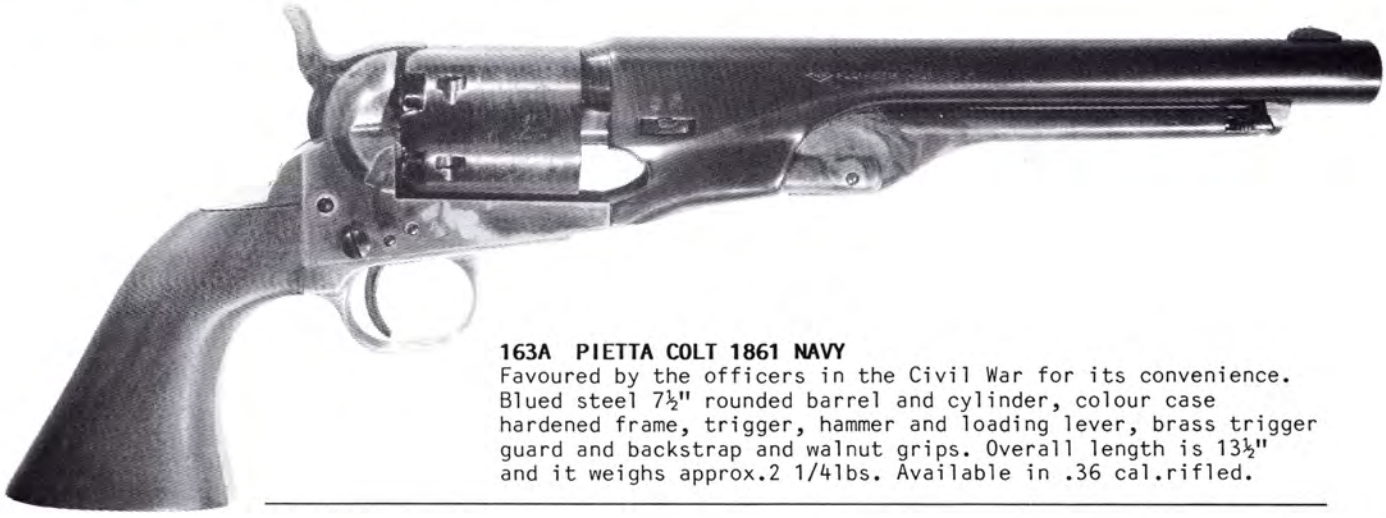
---

161 PIETTA COLT 1851 LONDON
The squareback, also known as the Yank London model was only made in limited quantities and ceased production in 1852 making it probably the rarest design of all the Colt 1851's. Reproduced in Italy to a very high standard with a polished brass frame, backstrap and squareback trigger guard, octagonal 7½" blued steel barrel and cylinder, colour case hardened hammer, trigger and loading lever. Overall length is 13", weight approx.2 1/4lbs. Available in .36 and .44 cal.rifled.

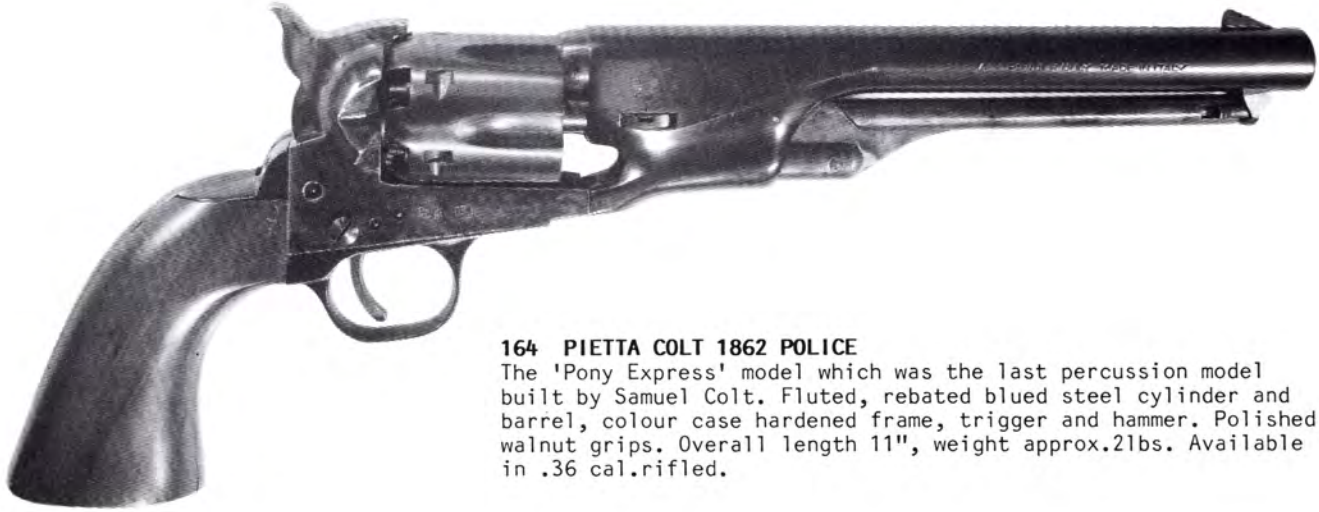
162 PIETTA COLT 1860 ARMY STEEL
A superb reproduction of the 1860 Army as used by the American Cavalry during the Civil War. Blued steel 7½" barrel, colour case hardened hammer, trigger, frame and loading lever, brass trigger guard cut and screwed to accept a shoulder stock. Overall length 14", weight approx.2 1/4lbs. Available in .44 cal.rifled.



163 PIETTA COLT 1860 ARMY DELUXE
Specifications as item No.162 but with a beautifully engraved polished steel frame, hammer and loading lever, engraved blued steel cylinder and barrel, brass trigger guard and polished walnut grips. Available in .44 cal.rifled.



163A PIETTA COLT 1861 NAVY
Favoured by the officers in the Civil War for its convenience. Blued steel 7½" rounded barrel and cylinder, colour case hardened frame, trigger, hammer and loading lever, brass trigger guard and backstrap and walnut grips. Overall length is 13½" and it weighs approx.2 1/4lbs. Available in .36 cal.rifled.



164 PIETTA COLT 1862 POLICE
The 'Pony Express' model which was the last percussion model built by Samuel Colt. Fluted, rebated blued steel cylinder and barrel, colour case hardened frame, trigger and hammer. Polished walnut grips. Overall length 11", weight approx.2lbs. Available in .36 cal.rifled.

165 PIETTA 1862 SPILLER & BURR
Originally made by Edward N.Spiller and David J.Burr in Atlanta, Georgia from 1861 to 1864. Reproduced to very high standards with a solid brass frame for extra strength, octagonal blued steel 7" barrel and cylinder, two piece polished walnut grips. Overall length is 13", weight approx.2lbs. Available in .36 cal.rifled.

---

166 PIETTA REMINGTON 1858 TEXAS
Quality machined brass frame and fixed sights make this an exceptionally strong and precise shooter, considered to be the most advanced design of its time. Octagonal 8" blued steel barrel and cylinder, case hardened trigger and hammer, polished brass trigger guard. Overall length 14", weight approx.2½lbs. Available in .36 and .44 cal.rifled.

166A PIETTA REMINGTON 1858 NEW MODEL ARMY COMPETITION
The first true reproduction of the original Remington New Model Army. Built to the exact dimensions, weight and grip shape of the original, it features a superbly machined 8" barrel with 5 land progressive rifling which makes the pistol a high precision performer on the black powder shooting range. Overall length of the pistol is 13 3/4" with a weight of almost 3lbs. The pistol has a blued frame, barrel and cylinder and a brass silver plated trigger guard, the grips are oil finished walnut. Available in .36 and .44 cal.rifled.

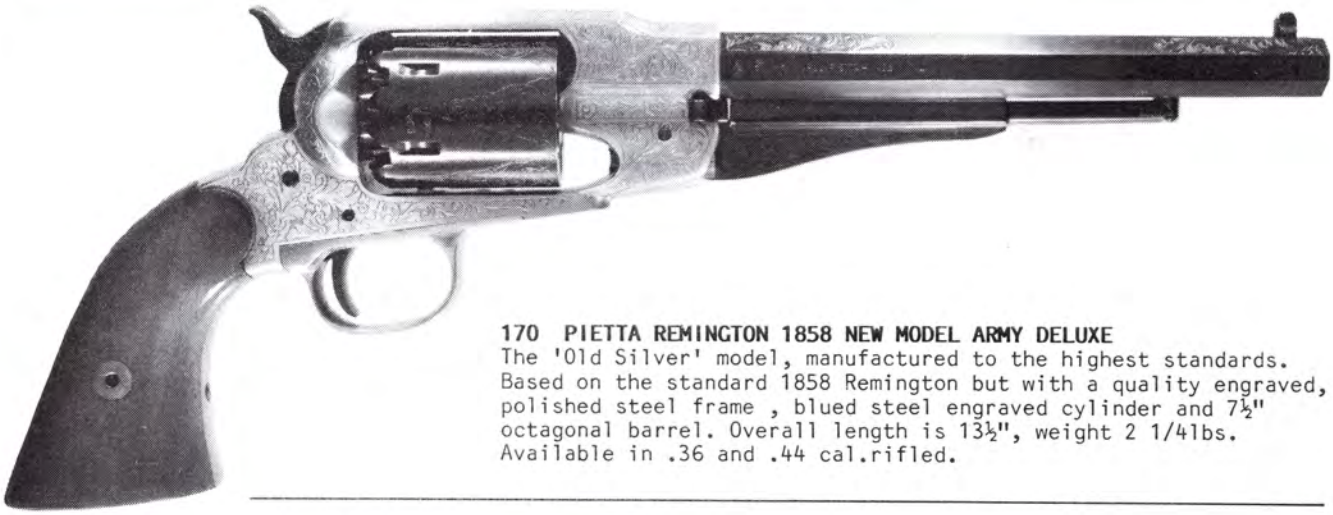
---

167 PIETTA REMINGTON 1858 NICKEL
A faithful copy of the 1858 Remington revolver, specifications the same as item No.168 but with fixed sights and nickel plating. Available in .36 and .44 cal.rifled.

168 PIETTA REMINGTON 1858 NEW MODEL ARMY TARGET
Same specifications as item No.171A but this revolver is fitted with target sights which are adjustable for windage and elevation. Available in .36 and .44 cal.rifled.

---

169 PIETTA REMINGTON 1858 NEW MODEL ARMY STAINLESS
Exceptional quality reproduction of the Remington 1858 model, except that every part with the exception of the grips and trigger guard are manufactured from corrosion resistant stainless steel. Octagonal 7½" barrel, polished walnut grips, brass trigger guard. Overall length 13½", weight approx.2 1/4lbs. Available in .36 and .44 cal.rifled.



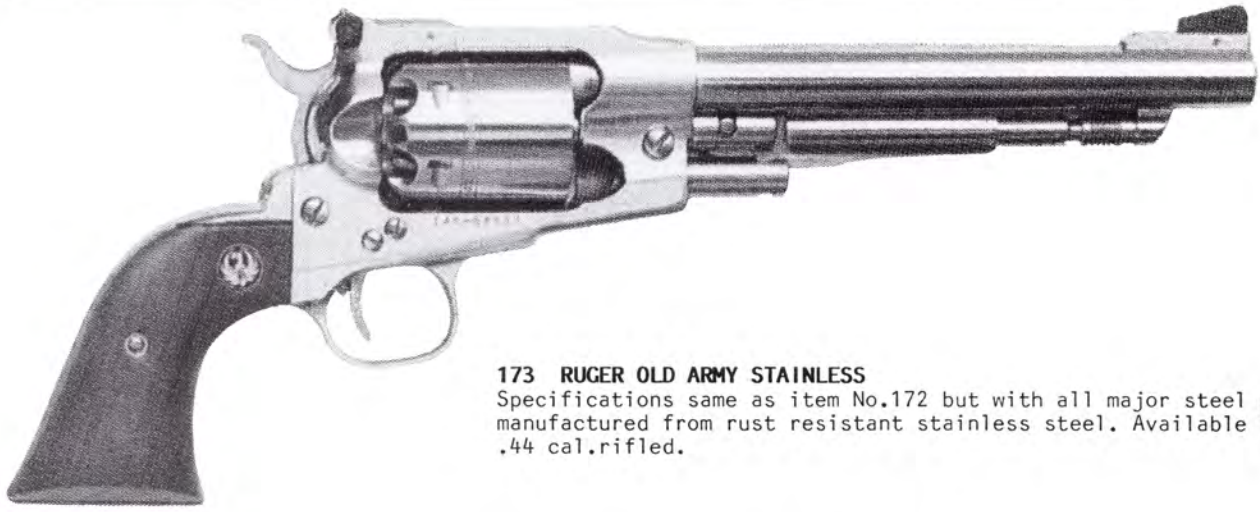
170 PIETTA REMINGTON 1858 NEW MODEL ARMY DELUXE
The 'Old Silver' model, manufactured to the highest standards. Based on the standard 1858 Remington but with a quality engraved, polished steel frame , blued steel engraved cylinder and 7½" octagonal barrel. Overall length is 13½", weight 2 1/4lbs. Available in .36 and .44 cal.rifled.

171A PIETTA REMINGTON 1858 NEW MODEL ARMY
Based on the most accurate and dependable cap and ball revolver of its era, the most advanced design of the time and a veteran of the Civil War. Has an octagonal blued steel 8" barrel, blued cylinder, frame and trigger, brass trigger guard and polished walnut grips. Overall length is 13½", weight approx.2½lbs. Available in .36 and .44 cal.rifled.

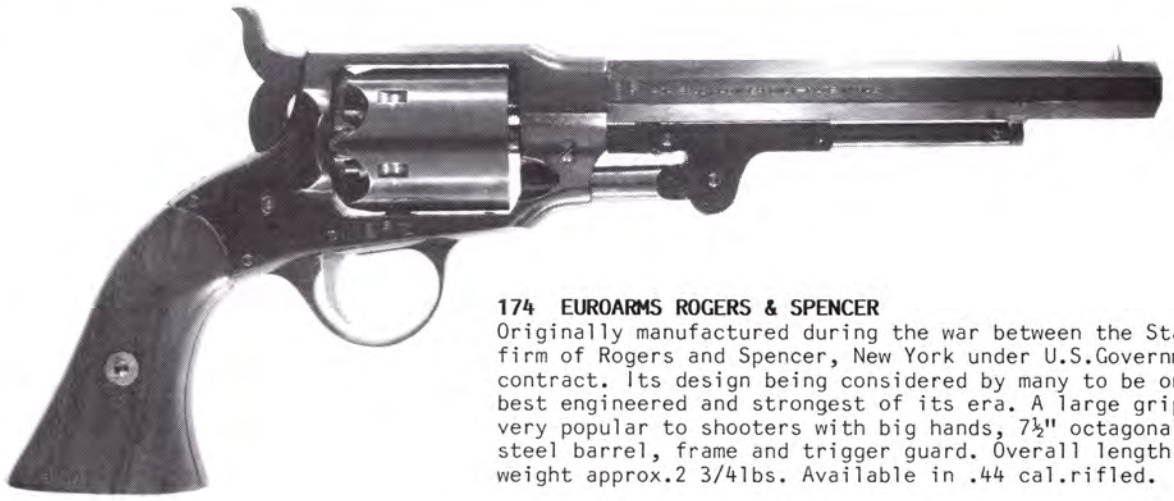
171B PIETTA REMINGTON 1858 BUFFALO
Same specifications as item No.166 but with a longer 12" barrel and adjustable rear sight. Available in .44 cal.rifled.

---

172 RUGER OLD ARMY BLUE
Designed by Ruger engineers, not as a reproduction, but as a modern black powder revolver. Manufactured from the best quality materials with blued steel 7½" barrel, adjustable rear sight and American walnut grips. Weight just under 3lbs. Available in .44 cal.rifled.

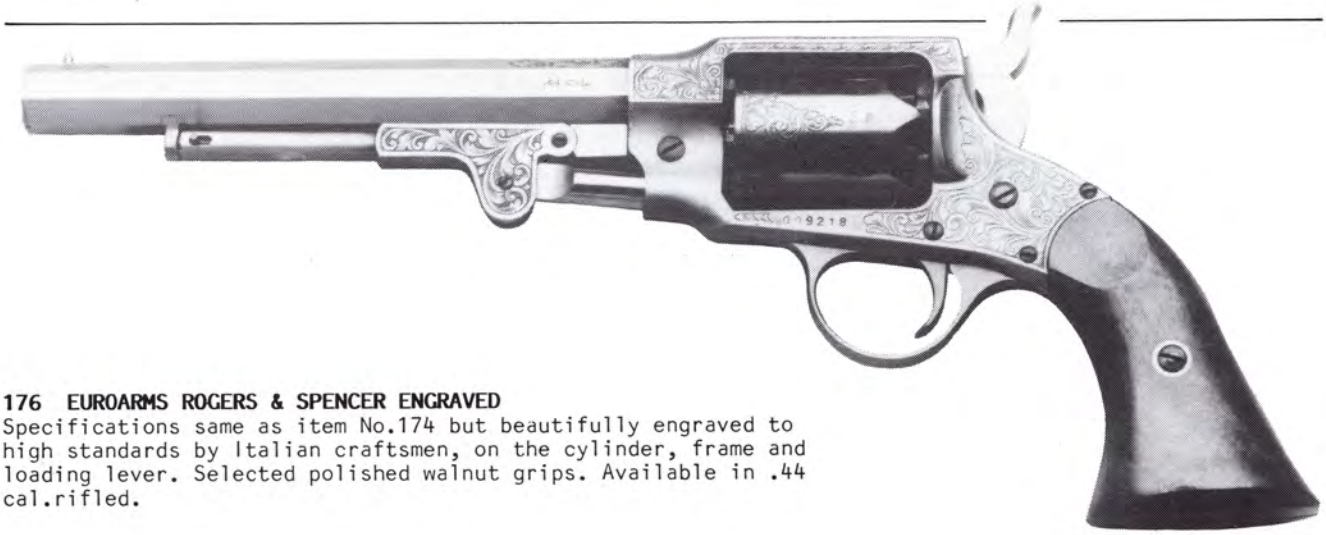


173 RUGER OLD ARMY STAINLESS
Specifications same as item No.172 but with all major steel parts manufactured from rust resistant stainless steel. Available in .44 cal.rifled.

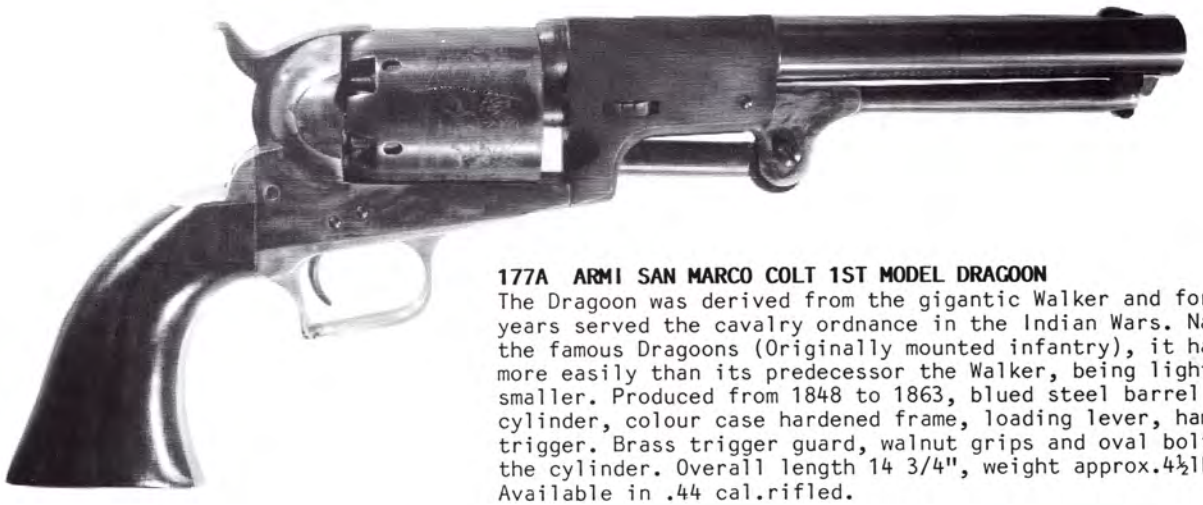


174 EUROARMS ROGERS & SPENCER
Originally manufactured during the war between the States by the firm of Rogers and Spencer, New York under U.S.Government contract. Its design being considered by many to be one of the best engineered and strongest of its era. A large grip makes it very popular to shooters with big hands, 7½" octagonal blued steel barrel, frame and trigger guard. Overall length is 13 3/4", weight approx.2 3/4lbs. Available in .44 cal.rifled.

175 EUROARMS ROGERS & SPENCER TARGET
Specifications same as item No.174 but with the addition of an adjustable rear sight. Available in .44 cal.rifled.



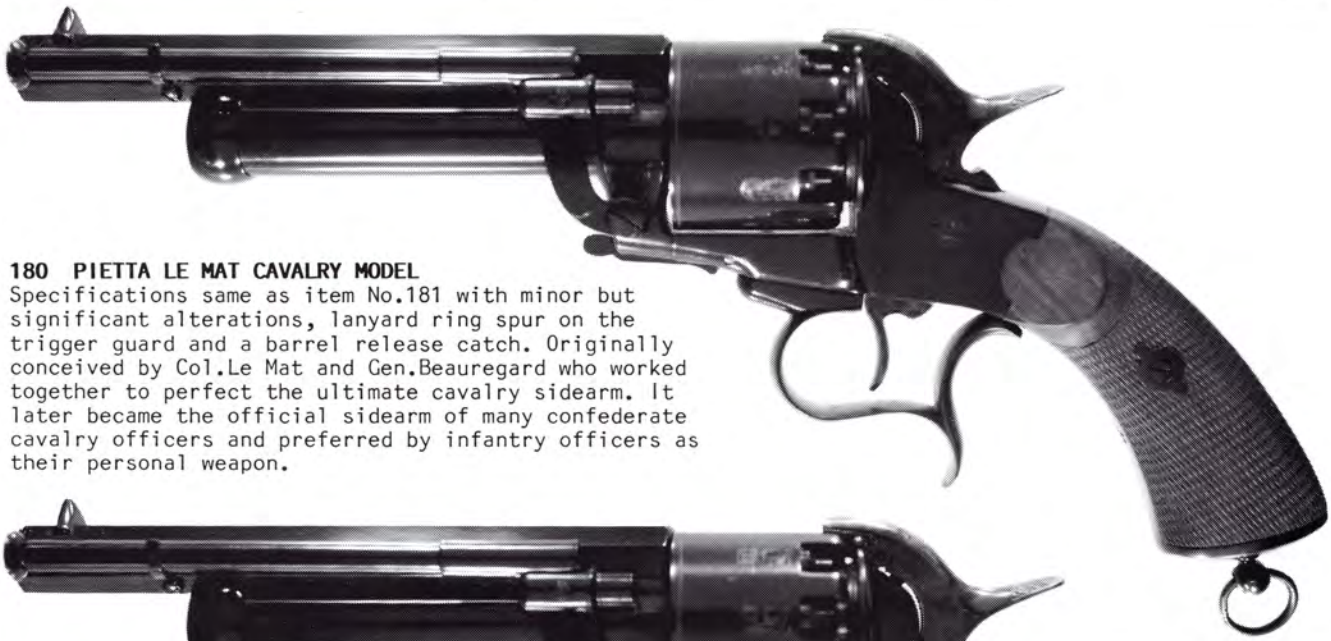
176 EUROARMS ROGERS & SPENCER ENGRAVED
Specifications same as item No.174 but beautifully engraved to high standards by Italian craftsmen, on the cylinder, frame and loading lever. Selected polished walnut grips. Available in .44 cal.rifled.



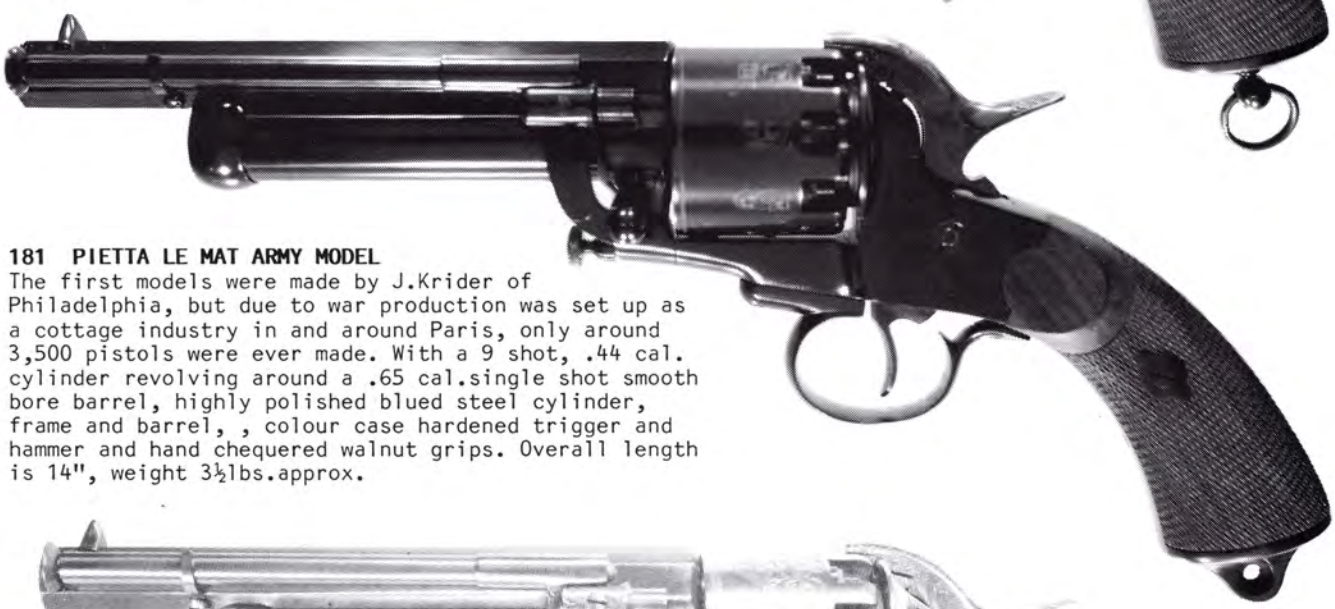
177A ARMI SAN MARCO COLT 1ST MODEL DRAGOON
The Dragoon was derived from the gigantic Walker and for many years served the cavalry ordnance in the Indian Wars. Named for the famous Dragoons (Originally mounted infantry), it handled more easily than its predecessor the Walker, being lighter and smaller. Produced from 1848 to 1863, blued steel barrel and cylinder, colour case hardened frame, loading lever, hammer and trigger. Brass trigger guard, walnut grips and oval bolt slots in the cylinder. Overall length 14 3/4", weight approx.4½lbs. Available in .44 cal.rifled.

178 ARMI SAN MARCO COLT 2ND MODEL DRAGOON
Same specifications as item No.177A, with the exception of having square bolt slots in the cylinder. Available in .44 cal.rifled.

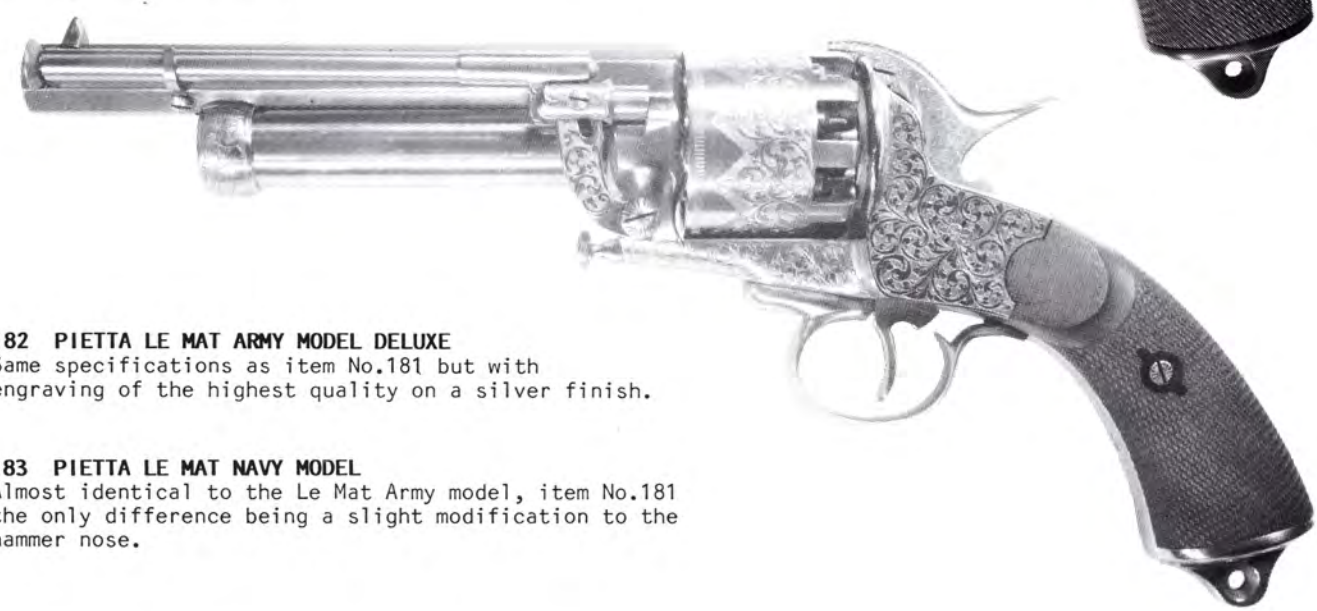
179 ARMI SAN MARCO 3RD MODEL DRAGOON
Same specifications as item No.177A but this model had square bolt slots in the cylinder and an oval trigger guard. Available in .44 cal.rifled.



180 PIETTA LE MAT CAVALRY MODEL
Specifications same as item No.181 with minor but significant alterations, lanyard ring spur on the trigger guard and a barrel release catch. Originally conceived by Col.Le Mat and Gen.Beauregard who worked together to perfect the ultimate cavalry sidearm. It later became the official sidearm of many confederate cavalry officers and preferred by infantry officers as their personal weapon.



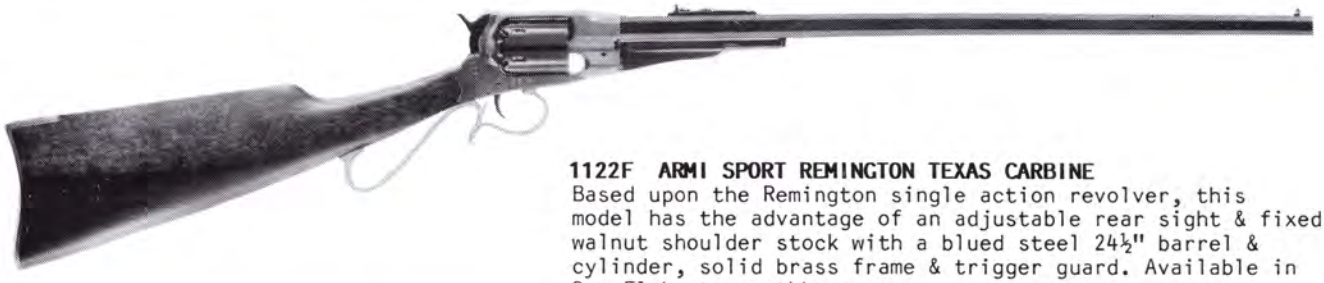
181 PIETTA LE MAT ARMY MODEL
The first models were made by J.Krider of Philadelphia, but due to war production was set up as a cottage industry in and around Paris, only around 3,500 pistols were ever made. With a 9 shot, .44 cal. cylinder revolving around a .65 cal.single shot smooth bore barrel, highly polished blued steel cylinder, frame and barrel, , colour case hardened trigger and hammer and hand chequered walnut grips. Overall length is 14", weight 3½lbs.approx.



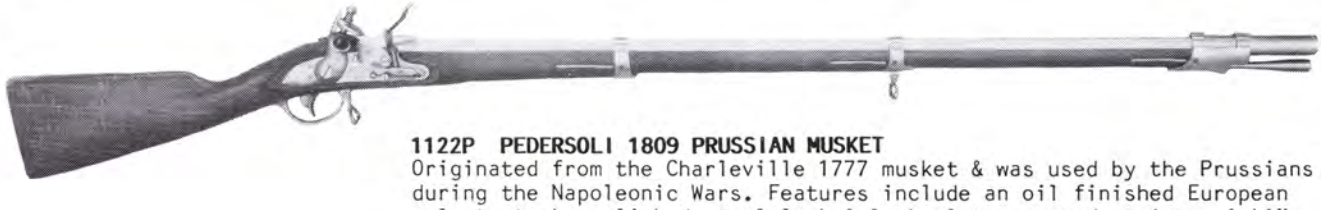
182 PIETTA LE MAT ARMY MODEL DELUXE
Same specifications as item No.181 but with engraving of the highest quality on a silver finish.

183 PIETTA LE MAT NAVY MODEL
Almost identical to the Le Mat Army model, item No.181 the only difference being a slight modification to the hammer nose.

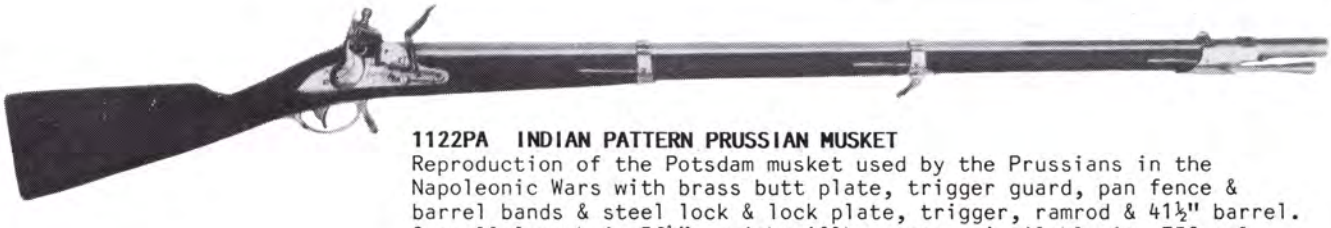
1121 PIETTA 1853 REMINGTON CARBINE
Based upon the Remington 1853 pattern revolver which comes complete with a quick detachable walnut stock & is suitable for small vermin. Has a blued steel frame & 24½" barrel, brass trigger guard & polished walnut grips. Available in .44 cal.smoothbore.



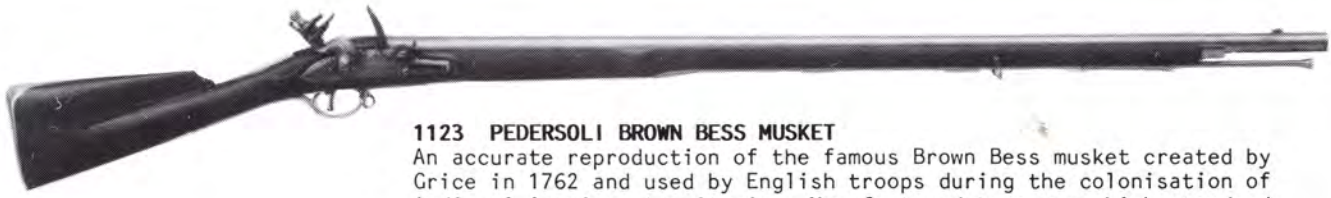
1122F ARMI SPORT REMINGTON TEXAS CARBINE
Based upon the Remington single action revolver, this model has the advantage of an adjustable rear sight & fixed walnut shoulder stock with a blued steel 24½" barrel & cylinder, solid brass frame & trigger guard. Available in 9mm Flobert smoothbore.



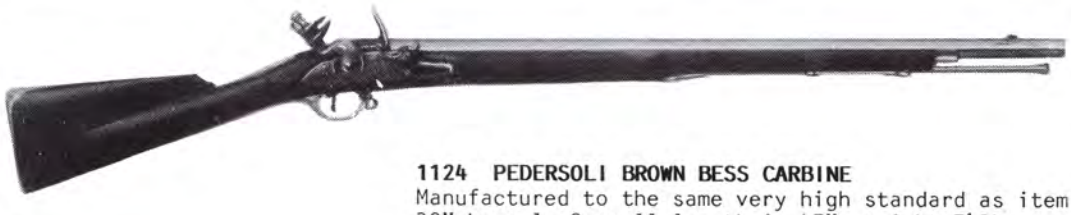
1122P PEDERSOLI 1809 PRUSSIAN MUSKET
Originated from the Charleville 1777 musket & was used by the Prussians during the Napoleonic Wars. Features include an oil finished European walnut stock, polished steel lock & lock plate, ramrod, trigger & 41" barrel with brass trigger guard, barrel bands & pan fence. Overall length is 56", weight 9 1/4lbs.approx. Available in .750 smoothbore cal.



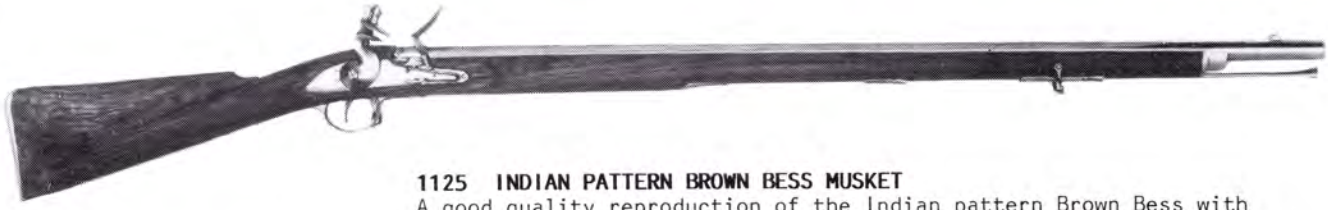
1122PA INDIAN PATTERN PRUSSIAN MUSKET
Reproduction of the Potsdam musket used by the Prussians in the Napoleonic Wars with brass butt plate, trigger guard, pan fence & barrel bands & steel lock & lock plate, trigger, ramrod & 41½" barrel. Overall length is 56½", weight 10lbs.approx. Available in .750 cal. approx.



1123 PEDERSOLI BROWN BESS MUSKET
An accurate reproduction of the famous Brown Bess musket created by Grice in 1762 and used by English troops during the colonisation of Indian & American territories. Manufactured to a very high standard with a fine walnut stock, polished steel barrel & lock with brass furniture. Barrel length is 42", overall length is 58", weight 8½lbs. approx. Available in .75 cal.smoothbore.



1124 PEDERSOLI BROWN BESS CARBINE
Manufactured to the same very high standard as item No.1123 but with a 30" barrel. Overall length is 47", weight 7½lbs.approx. Available in .75 cal.smoothbore.

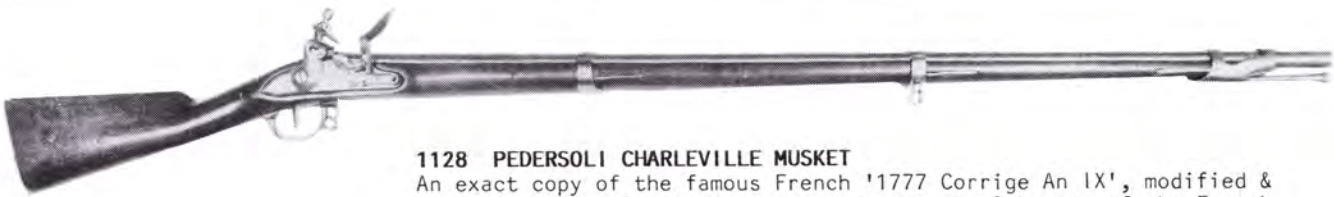


1125 INDIAN PATTERN BROWN BESS MUSKET
A good quality reproduction of the Indian pattern Brown Bess with features that include a polished steel 39" barrel, hardwood stock complete with brass furniture. Overall length is 55", weight 8½lbs. approx. Available in .75 cal.smoothbore.

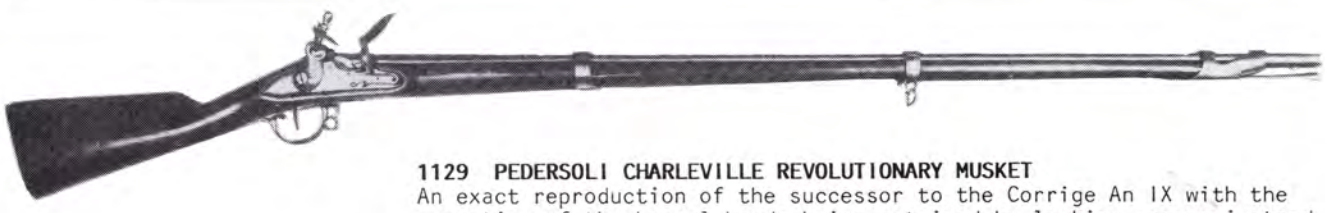
1126 INDIAN PATTERN BROWN BESS CARBINE
Same specifications as item No.1125 but with a 25" smooth barrel. Overall length is 41", weight approx.6 3/4lbs. Available in .75 cal. smoothbore.

1127B INDIAN PATTERN BAKER SHOTGUN
Designed by Eziekel Baker in the early 19th century for issue to the English Army. Features include steel lock & lock plate, trigger, ramrod & 31" barrel with brass patch box, butt plate & trigger guard. Overall length is 47", weight approx.8 1/4lbs. Available in .650 cal.smoothbore approx.

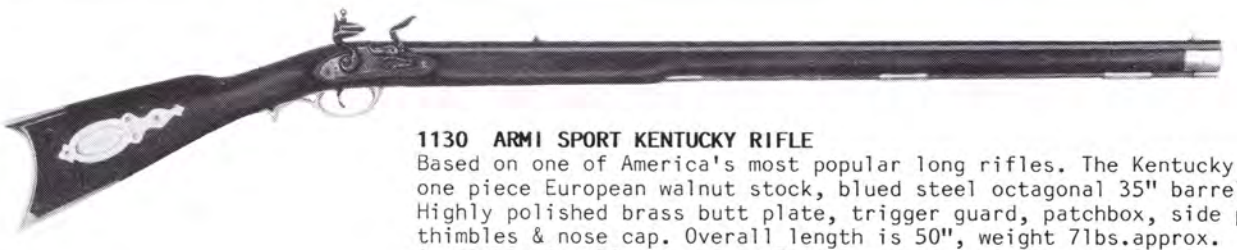
1127C INDIAN PATTERN BAKER RIFLE



1128 PEDERSOLI CHARLEVILLE MUSKET
An exact copy of the famous French '1777 Corrige An IX', modified & used by the Napoleonic Infantries during the 9th year of the French Revolution. Best European walnut stock, all fittings are steel except for the brass front sight. Overall length is 59½", weight 9½lbs.approx. Available in .69 cal.smoothbore.

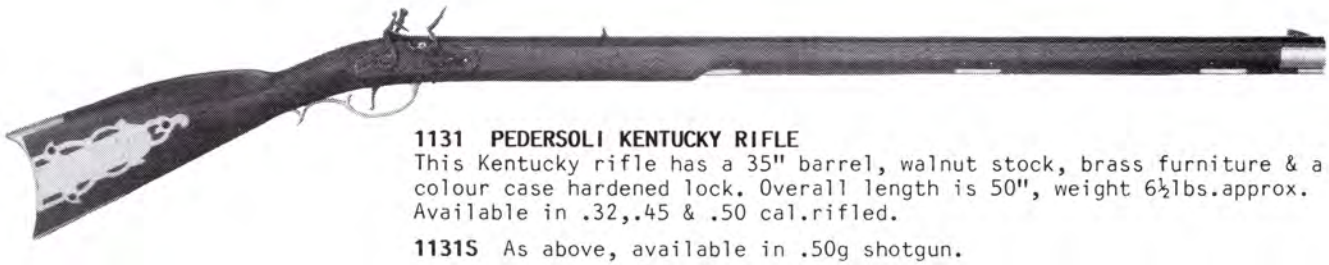


1129 PEDERSOLI CHARLEVILLE REVOLUTIONARY MUSKET
An exact reproduction of the successor to the Corrige An IX with the exception of the barrel bands being retained by locking screws instead of retaining springs and the frizzen shape, otherwise it has the same specifications as item No.1128. Available in .69 cal.smoothbore.



1130 ARMI SPORT KENTUCKY RIFLE
Based on one of America's most popular long rifles. The Kentucky has a one piece European walnut stock, blued steel octagonal 35" barrel. Highly polished brass butt plate, trigger guard, patchbox, side plate, thimbles & nose cap. Overall length is 50", weight 7lbs.approx. Available in .32,.36,.45 & .50 cal.rifled.

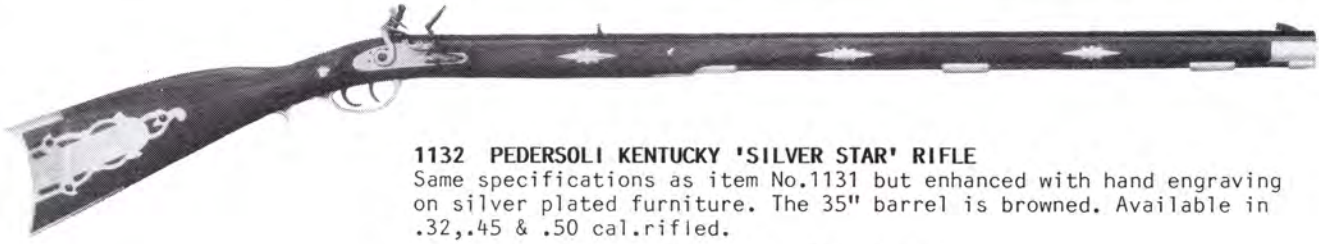
1130S As above, available in .50g shotgun.



1131 PEDERSOLI KENTUCKY RIFLE
This Kentucky rifle has a 35" barrel, walnut stock, brass furniture & a colour case hardened lock. Overall length is 50", weight 6½lbs.approx. Available in .32,.45 & .50 cal.rifled.

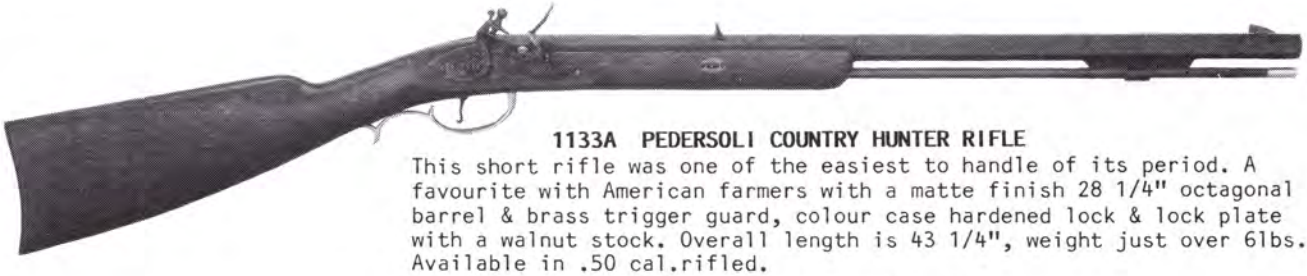
1131S As above, available in .50g shotgun.

1131D PEDERSOLI KENTUCKY DELUXE RIFLE
Same specifications as item No.1131 but with engraved brass furniture & a steel engraved lock. Available in .32,.45 & .50 cal.rifled.



1132 PEDERSOLI KENTUCKY 'SILVER STAR' RIFLE
Same specifications as item No.1131 but enhanced with hand engraving on silver plated furniture. The 35" barrel is browned. Available in .32,.45 & .50 cal.rifled.

1132S As above, available in .50g shotgun.

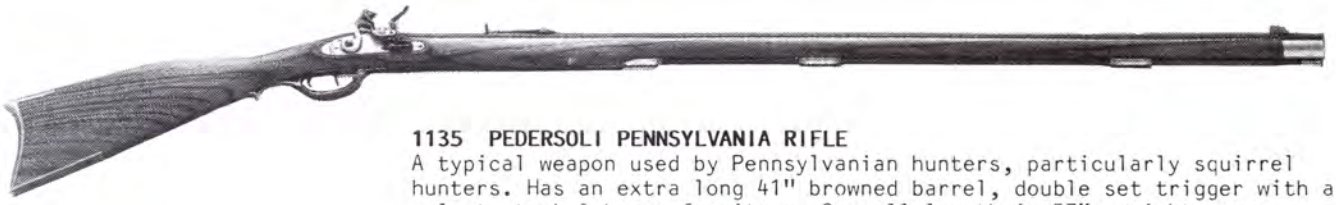


1133A PEDERSOLI COUNTRY HUNTER RIFLE
This short rifle was one of the easiest to handle of its period. A favourite with American farmers with a matte finish 28 1/4" octagonal barrel & brass trigger guard, colour case hardened lock & lock plate with a walnut stock. Overall length is 43 1/4", weight just over 6lbs. Available in .50 cal.rifled.

1133AS As above, available in .50g shotgun.

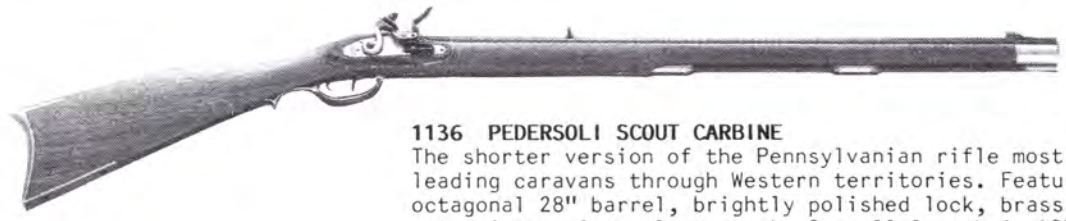
1134 PEDERSOLI ALAMO RIFLE
A faithful reproduction of the historical rifle used by the Texan troops during the Battle of Fort Alamo for the liberation of Mexico. Features include blued 36 1/4" octagonal barrel, set trigger with a brightly polished lock & walnut stock. The brass patch box is engraved depicting two scenes of the battle. Overall length is 51", weight 6½lbs.approx. Available in .32,.45 & .50 cal.rifled.

1134S as above, available in .50g shotgun.



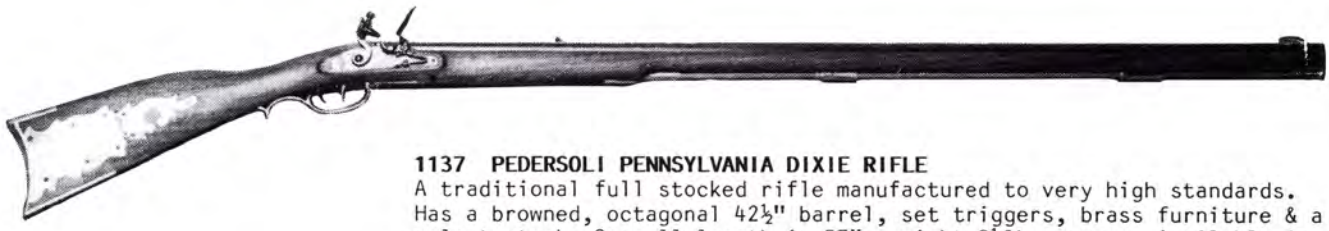
1135 PEDERSOLI PENNSYLVANIA RIFLE
A typical weapon used by Pennsylvanian hunters, particularly squirrel hunters. Has an extra long 41" browned barrel, double set trigger with a walnut stock & brass furniture. Overall length is 57", weight approx. 8 3/4lbs. Available in .32 & .45 cal.rifled.

1135S As above, available in .45g shotgun.



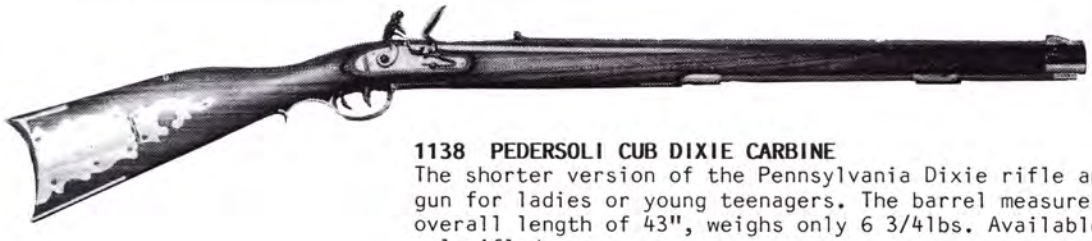
1136 PEDERSOLI SCOUT CARBINE
The shorter version of the Pennsylvanian rifle mostly used by scouts leading caravans through Western territories. Features include a blued, octagonal 28" barrel, brightly polished lock, brass furniture, double set triggers & a walnut stock. Overall length is 43", weight 7lbs. approx. Available in .32,.45 & .50 cal.rifled.

1136S As above, available in .50g shotgun.



1137 PEDERSOLI PENNSYLVANIA DIXIE RIFLE
A traditional full stocked rifle manufactured to very high standards. Has a browned, octagonal 42½" barrel, set triggers, brass furniture & a walnut stock. Overall length is 57", weight 8½lbs.approx. Available in .32 & .45 cal.rifled.

1137S As above, available in .45g shotgun.

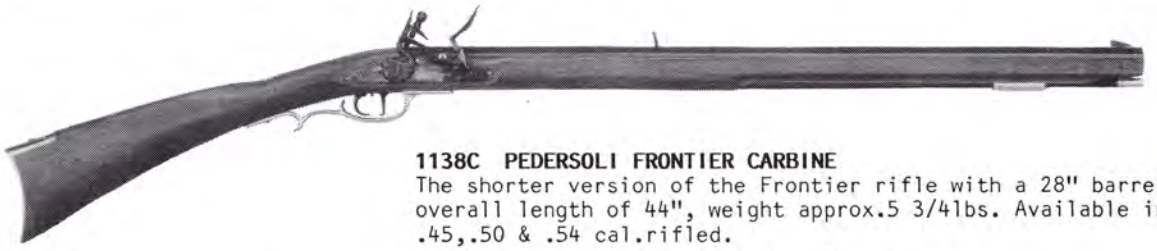


1138 PEDERSOLI CUB DIXIE CARBINE
The shorter version of the Pennsylvania Dixie rifle and a very popular gun for ladies or young teenagers. The barrel measures 28" with an overall length of 43", weighs only 6 3/4lbs. Available in .45 & .50 cal.rifled.

1138S As above, available in .50g shotgun.

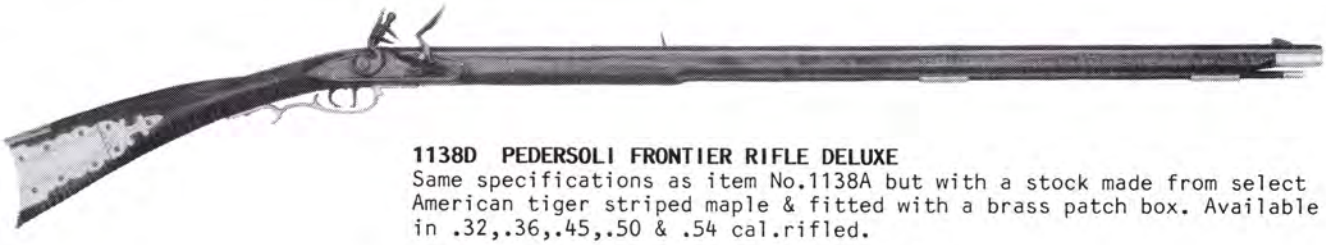
1138A PEDERSOLI FRONTIER RIFLE
The standard version of the Frontier rifle with walnut stock which has been reproduced from the original model of the Golden Age of American long rifles (1760-1840). Has a browned 39" octagonal barrel, double set triggers, colour case hardened lock & lock plate with brass furniture. Overall length is 55", weight approx.5 3/4lbs. Available in .32,.36, .45 & .50 cal.rifled.

1138AS As above, available in .50g shotgun.



1138C PEDERSOLI FRONTIER CARBINE
The shorter version of the Frontier rifle with a 28" barrel & an overall length of 44", weight approx.5 3/4lbs. Available in .32,.36, .45,.50 & .54 cal.rifled.

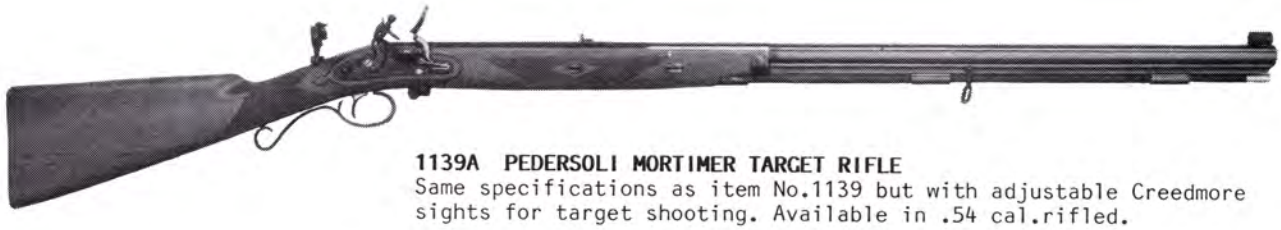
1138CS As above, available in .50g shotgun.



1138D PEDERSOLI FRONTIER RIFLE DELUXE
Same specifications as item No.1138A but with a stock made from select American tiger striped maple & fitted with a brass patch box. Available in .32,.36,.45,.50 & .54 cal.rifled.

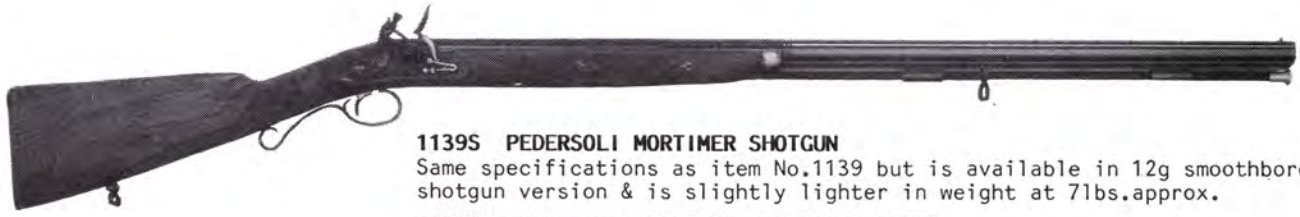
1138DS As above, available in .50g shotgun.

1139 PEDERSOLI MORTIMER RIFLE
A beautiful reproduction of an English flintlock weapon by Mortimer. Half stocked in European walnut with browned 37" barrel with colour case hardened furniture. Overall length is 52½", weight 8lbs.approx. Available in .54 cal.rifled.



1139A PEDERSOLI MORTIMER TARGET RIFLE
Same specifications as item No.1139 but with adjustable Creedmore sights for target shooting. Available in .54 cal.rifled.

1139AD PEDERSOLI MORTIMER TARGET RIFLE DELUXE
Same specifications as item No.1139A but enhanced with hand engraving. Available in .54 cal.rifled.



1139S PEDERSOLI MORTIMER SHOTGUN
Same specifications as item No.1139 but is available in 12g smoothbore shotgun version & is slightly lighter in weight at 7lbs.approx.

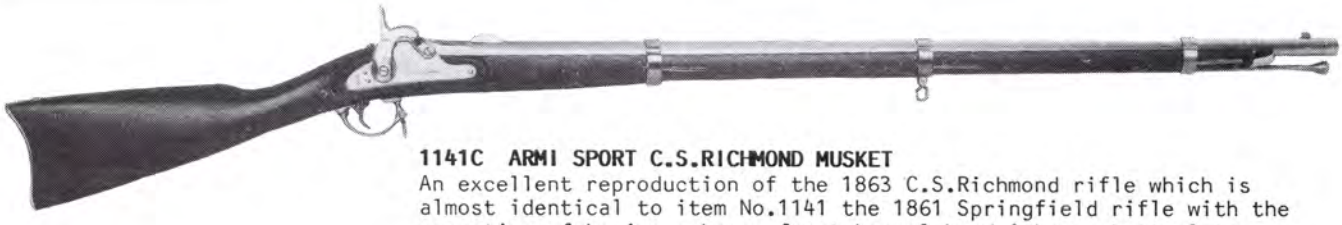
1139SD PEDERSOLI MORTIMER SHOTGUN DELUXE
Same specifications as item No.1139S but enhanced with hand engraving. Available in 12g smoothbore.

1139SM PEDERSOLI SPRINGFIELD MUSKET
A reproduction of the American Springfield 1816 musket originally produced between 1816 & 1844 in the Harpers Ferry & Springfield arsenals taking the idea from the Charleville musket. Features include brightly polished steel furniture & 42" barrel with a walnut stock. Overall length is 57", weight approx.9 3/4lbs. Available in .69 cal. smoothbore.

1140 INDIAN PATTERN BROWN BESS MUSKET
Reproduction of the 1842 Brown Bess percussion musket. Features include a bright steel 39" barrel, lock & ramrod, brass butt plate, trigger guard & ramrod pipes. Overall length is 55", weight 8lbs. approx. Available in 10g smoothbore.

1141 ARMI SPORT SPRINGFIELD RIFLE
A superb example of the 1861 Springfield rifle which was successfully converted to percussion from flintlock for the Civil War. Features include brightly polished steel furniture & 40" barrel with a walnut stock. Overall length is 56", weight approx.9 3/4lbs. Available in .58 cal.rifled.

1141S As above, available in .58g shotgun.



1141C ARMI SPORT C.S.RICHMOND MUSKET
An excellent reproduction of the 1863 C.S.Richmond rifle which is almost identical to item No.1141 the 1861 Springfield rifle with the exception of having a brass front barrel band & brass butt plate. Available in .58 cal.rifled.

1141CS As above, available in .58g shotgun.

1142A ARMI SPORT KENTUCKY RIFLE
Based upon one of America's most famous long guns, this Kentucky has a one piece European walnut stock, brass butt plate, trigger guard, patch box & nose cap with a colour case hardened lock plate. Overall length is 50", weight 7lbs.approx. Available in .32,.36,.45 & .50 cal.rifled.

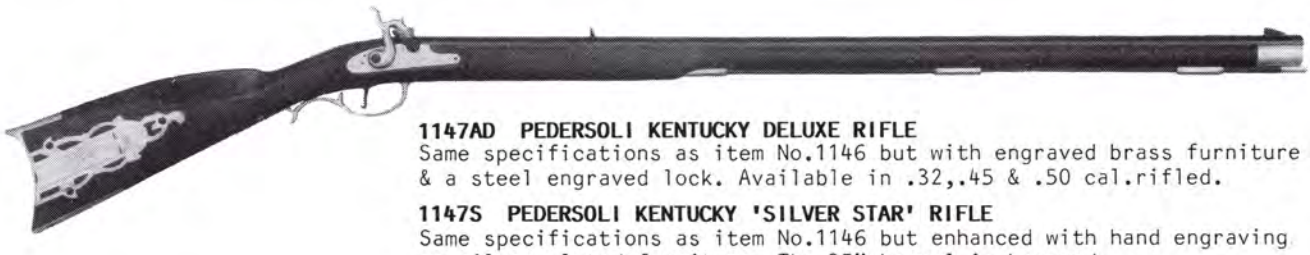
1142AS As above, available in .50g shotgun.

1144 ARMI SPORT BERDAN CARBINE
An attractive carbine with polished brass frame & furniture, blued steel 26" octagonal barrel, walnut stock, double set triggers & adjustable rear sight allowing for greater accuracy. Overall length is 42", weight 6½lbs.approx. Available in .45 cal.rifled.

1144S As above, available in .45g shotgun.

1146 PEDERSOLI KENTUCKY RIFLE
Manufactured to very high standards this Kentucky features a 35" barrel, double set trigger & highly polished brass furniture with a walnut stock. Overall length is 50", weight 6½lbs.approx. Available in .32,.45 & .50 cal.rifled.

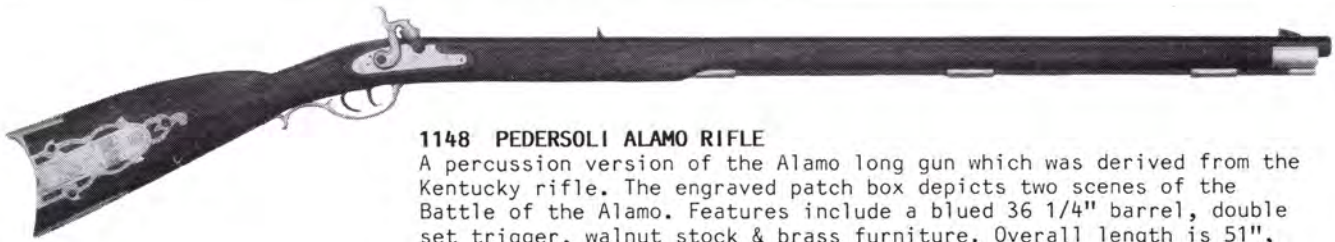
1146S As above, available in .50g shotgun.



1147AD PEDERSOLI KENTUCKY DELUXE RIFLE
Same specifications as item No.1146 but with engraved brass furniture & a steel engraved lock. Available in .32,.45 & .50 cal.rifled.

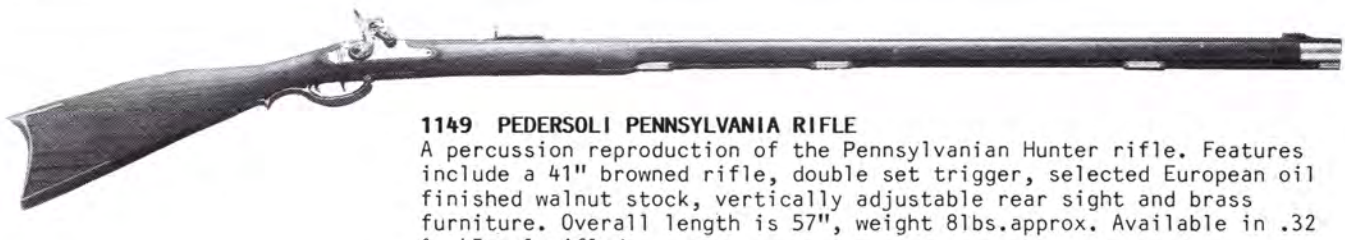
1147S PEDERSOLI KENTUCKY 'SILVER STAR' RIFLE
Same specifications as item No.1146 but enhanced with hand engraving on silver plated furniture. The 35" barrel is browned.

1147SS As above, available in .50g shotgun.



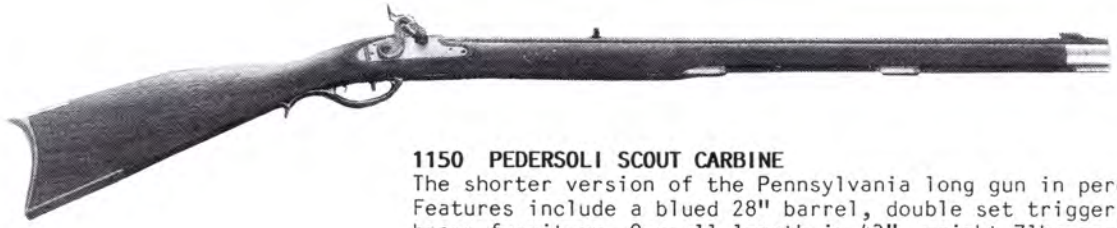
1148 PEDERSOLI ALAMO RIFLE
A percussion version of the Alamo long gun which was derived from the Kentucky rifle. The engraved patch box depicts two scenes of the Battle of the Alamo. Features include a blued 36 1/4" barrel, double set trigger, walnut stock & brass furniture. Overall length is 51", weight 6½lbs.approx. Available in .32,.45 & .50 cal.rifled.

1148S As above, available in .50g shotgun.



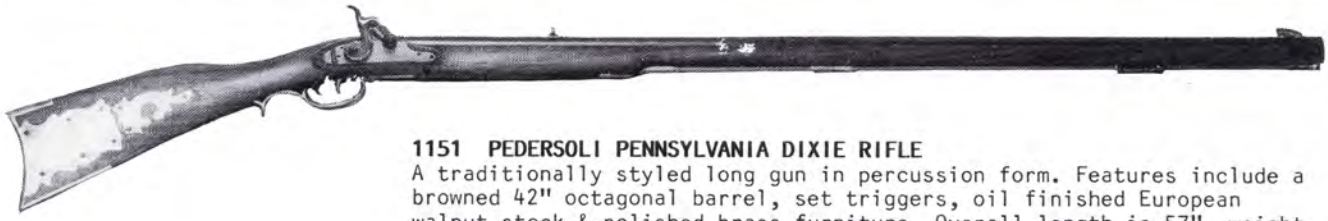
1149 PEDERSOLI PENNSYLVANIA RIFLE
A percussion reproduction of the Pennsylvanian Hunter rifle. Features include a 41" browned rifle, double set trigger, selected European oil finished walnut stock, vertically adjustable rear sight and brass furniture. Overall length is 57", weight 8lbs.approx. Available in .32 & .45 cal.rifled.

1149S As above, available in .45g shotgun.



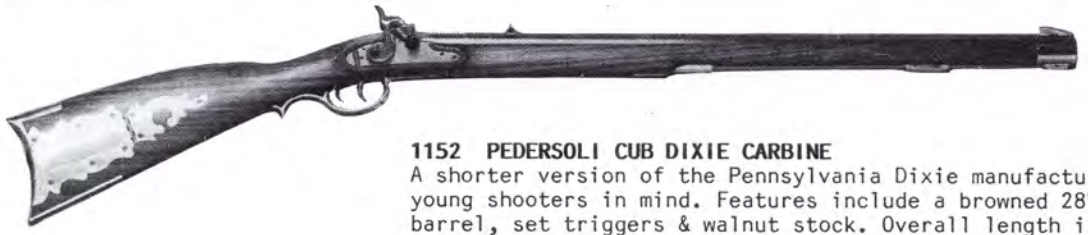
1150 PEDERSOLI SCOUT CARBINE
The shorter version of the Pennsylvania long gun in percussion form. Features include a blued 28" barrel, double set trigger, walnut stock & brass furniture. Overall length is 43", weight 7lbs.approx. Available in .32,.45 & .50 cal.rifled.

1150S As above, available in .50g shotgun.



1151 PEDERSOLI PENNSYLVANIA DIXIE RIFLE
A traditionally styled long gun in percussion form. Features include a browned 42" octagonal barrel, set triggers, oil finished European walnut stock & polished brass furniture. Overall length is 57", weight 8½lbs.approx. Available in .32 & .45 cal.rifled.

1151S As above, available in .45g shotgun.



1152 PEDERSOLI CUB DIXIE CARBINE
A shorter version of the Pennsylvania Dixie manufactured with ladies & young shooters in mind. Features include a browned 28" octagonal barrel, set triggers & walnut stock. Overall length is 45", weight 6½lbs.approx. Available in .40,.45 & .50 cal.rifled.

1152S As above, available in .40g shotgun.

1153A PEDERSOLI COUNTRY HUNTER RIFLE
The percussion version of this easy to handle rifle with blued 28 1/4" octagonal barrel, brass trigger guard, colour case hardened lock assembly & walnut stock. Overall length is 43 1/4", weight just over 6lbs. Available in .50 cal.rifled.

1153AS As above, available in .50g shotgun.

1154 PEDERSOLI KODIAK EXPRESS RIFLE
A traditional double barrelled percussion rifle manufactured to very high standards & successfully tested in African game hunting. Features include a folding leaf rearsight & adjustable ramp front sight with a selected European walnut oil finished stock which has hand chequered panels at the stock wrist & forend, polished locks & lock plate which are engraved & blued steel triggers, trigger guard & 28" barrels. Overall length is 45 1/4", weight 9½lbs.approx. Available in .50,.54 & .58 cal.rifled.

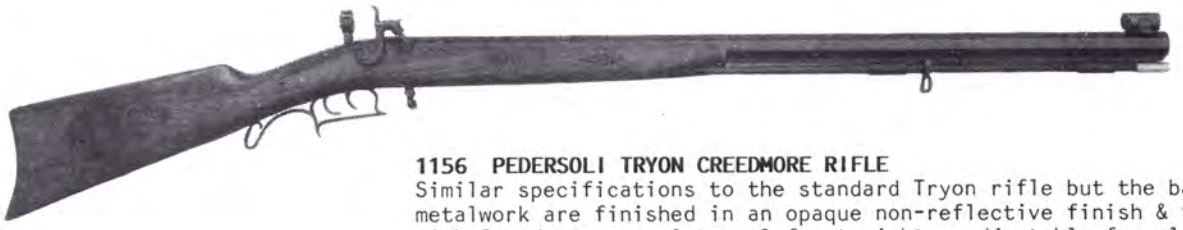
1154CA PEDERSOLI KODIAK COMBINATION
Same specifications as item No.1154 but available as a rifle & shotgun combination. Available in .50-12g.

1154CB PEDERSOLI KODIAK COMBINATION
As above, available in .58-12g.

1154CC PEDERSOLI KODIAK COMBINATION
As above, available in .54-12g.

1155 PEDERSOLI TRYON RIFLE
A beautifully reproduced rifle of the American Plains. Has double set triggers, colour case hardened lock & furniture, blued steel 32" barrel & a European walnut stock. Overall length is 49", weight 9½lbs. Available in .45,.50 & .54 cal.rifled.

1155D PEDERSOLI TRYON DELUXE RIFLE
Same specifications as item No.1155 but with brightly polished steel furniture which is richly engraved & a 32" browned steel barrel. Available in .45,.50 & .54 cal.rifled.



1156 PEDERSOLI TRYON CREEDMORE RIFLE
Similar specifications to the standard Tryon rifle but the barrel & metalwork are finished in an opaque non-reflective finish & fitted with Creedmore rear & tunnel front sights, adjustable for elevation & windage. Ideally suitable for 100 yards target shooting. Available in .45 cal.rifled.

1157 PEDERSOLI BRISTLEN MORGES RIFLE
An authentic reproduction of the Bristlen Morges Swiss target rifle which was manufactured by Marc Bristlen between 1839 & 1860 in the town of Morges. With vertically & horizontally adjustable Creedmore sights, double set, double phase trigger & selected European walnut stock. Comes complete with hand rest knob & brass muzzle protector, colour case hardened lock assembly & furniture with a browned 29½" octagonal barrel. Overall length is 48 1/4", weight 16½lbs.approx. Available in .44 cal.rifled.

1157D PEDERSOLI BRISTLEN MORGES DELUXE RIFLE
Same specifiactions as item No.1157 but enhanced with hand engraving on the brightly polished steel furniture. Available in .44 cal.rifled.

1157W PEDERSOLI WAADTLEANDER RIFLE
Almost exactly like the Bristlen Morges rifle but slightly lighter in weight. A target rifle which is ideal for 50 yards shooting, very accurate & balanced. Weight is approx.14 1/4lbs. Available in .45 cal. rifled.

1157WD PEDERSOLI WAADTLAENDER DELUXE RIFLE
Same specifications as item No.1157W but with rich hand engraving on the furniture. Available in .45 cal.rifled.

1158 ARMI SPORT J.SANTFL RIFLE
An exceptional target rifle based upon a rifle built by Santfl of Munich, Germany around 1850. Oil finished walnut stock, Scheutzen style butt plate & furniture which are polished brass, polished steel 34" octagonal barrel & engraved polished lock. Overall length is 45", weight 10lbs.approx. Available in .45 cal.rifled.

1159 PEDERSOLI 12g DOUBLE SHOTGUN

An authentic reproduction of an English muzzle loading shotgun. The 28" barrels are blued steel with chrome bores, the locks & lock plates are colour case hardened with engraving, colour case hardened trigger guard & double set triggers & the stock is made from selected European walnut & has been chequered. A quality shotgun with graceful lines & a good balance. Overall length is 44", weight 7 1/2 lbs.approx. Available in12g smoothbore.

1159D PEDERSOLI 12g DOUBLE SHOTGUN DELUXE

The deluxe engraved version of item No.1159 with highly polished & richly engraved steel locks, lock plates, trigger guard, hand chequering on the stock & the barrels are brown in finish.

1159E PEDERSOLI 20g DOUBLE SHOTGUN

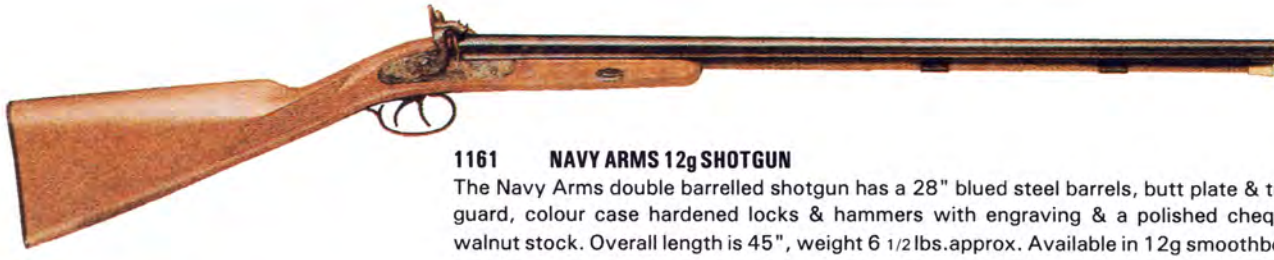
Same specifications as item No.1159 but available as a 20g version of a double barrelled shotgun. The blued steel, chrome bored barrels are 28", overall length is 44", weight 7 1/2 lbs.approx. Available in 20g smoothbore.

1159ED PEDERSOLI 20g DOUBLE SHOTGUN DELUXE

The deluxe engraved version of item No.1159E with highly polished & richly engraved steel locks, lock plates, trigger guard, hand chequering on the stock & the barrels are brown in finish.

1160 PEDERSOLI 10g DOUBLE SHOTGUN

The 10g version of a double barrelled shotgun. The locks & lock plates are polished steel with engravings of hunting scenes, chequered stock, the trigger guard & triggers are colour case hardened & also has an additional sling swivel. The blued steel, chrome bored barrels are 30" in length, overall length is 46", weight 7 1/2 lbs.approx. Available in 10g smoothbore.



1161 NAVY ARMS 12g SHOTGUN

The Navy Arms double barrelled shotgun has a 28" blued steel barrels, butt plate & trigger guard, colour case hardened locks & hammers with engraving & a polished chequered walnut stock. Overall length is 45", weight 6 1/2 lbs.approx. Available in 12g smoothbore.

1162 LONDON PATTERN FOWLING PIECE

A traditionally designed, single barrelled fowling piece. Has a 31" blued steel barrel, lock & lock plate, trigger guard & butt plate with a chequered walnut stock. Overall length is 47", weight 6 lbs.approx. Available in 12g smoothbore.

1163 ARMI SPORT ZOUAVE RIFLE
A reproduction of the Remington 1863 military musket, considered to be one of the most accurate military percussion rifles ever made. Has a 33" blued steel barrel with bayonet lug & three leaf rear sight, colour case hardened lock, brass patch box & barrel bands with a walnut stock. Overall length is 49", weight 8 1/2 lbs.approx. Available in .58 calibre rifled.

1163S As above, available in .58 shotgun.

1163A EUROARMS VOLUNTEER 2 BAND TARGET RIFLE
The Volunteer target rifle with Henry rifling. Has a 33" blued steel barrel & barrel bands, adjustable rear sight, hooded bead front sight, brass trigger guard & butt plate, colour case hardened furniture & walnut stock. Overall length is 49 1/2", weight 9 lbs.approx. Available in .451 calibre rifled.

1163B EUROARMS VOLUNTEER 3 BAND TARGET RIFLE
Same specifications as item No.1163A but the longer 3 band version. Barrel is 36", overall length is 52 1/2", weight 9 lbs.10 oz.approx. Available in .451 calibre rifled.

1163C EUROARMS WHITWORTH 3 BAND TARGET RIFLE
With Sir Joseph Whitworth's patented hexagonal rifling mainly used by Confederate snipers. Has a 36" blued steel barrel & barrel bands, adjustable rear sight, hooded bead front sight, brass trigger guard & butt plate, colour case hardened furniture & walnut stock. Overall length is 52 1/2", weight 9 lbs.10 oz.approx. Available in .451 calibre rifled.

1164 EUROARMS LONDON ARMS 1853 3 BAND RIFLE
A recreation of the London Armoury Company 1853 pattern Enfield 3 band musket which was manufactured in very large quantities & shipped to America during the Civil War. Has a 39" blued steel barrel with traditional Enfield folding sights, one piece walnut stock, brass butt plate & trigger guard, colour case hardened lock & hammer. Overall length is 54", weight 9 3/4 lbs.approx. Available in .58 calibre rifled.

1164S As above, available in .58 shotgun.

1165 EUROARMS LONDON ARMS 1858 2 BAND RIFLE
The Enfield 2 band rifle, sister to the 1853 musket, developed for use by the British Admirality. Has a 33" blued steel barrel, folding rear sight, colour case hardened lock & hammer, brass butt plate & trigger guard & one piece walnut stock. Overall length 49", weight 9lbs.approx. Available in .58 calibre rifled.

1165S As above, available in .58 shotgun.

1165V EUROARMS VOLUNTEER 2 BAND RIFLE
Available in .58 calibre rifled.

1165VS As above, available in .58 shotgun.

1166 EUROARMS LONDON ARMS 1861 2 BAND CARBINE
The short version of the 1853 musket with a 24" blued steel barrel, brass butt plate & trigger guard, colour case hardened lock & hammer, folding leaf rear sight & one piece walnut stock. Overall length is 40", weight 7 1/2 lbs.approx. Available in .58 calibre rifled.

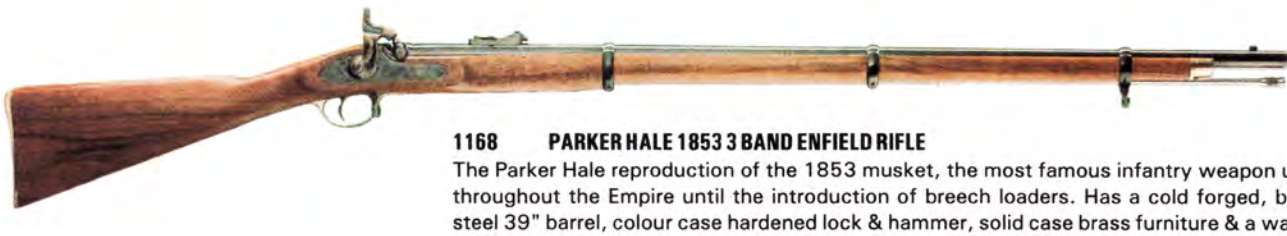
1166S As above, available in .58 shotgun.

1167 EUROARMS COOK & BROTHER CONFEDERATE CARBINE
A recreation of the rare carbine which was supplied to the Confederacy by established gunmaker Master Ferdinand Cook in quantities of around 750 a month until the company ceased trading in 1864. Has a browned steel 24" barrel, brass furniture, colour case hardened lock & a walnut stock. Overall length is 40", weight 7 1/2 lbs.approx. Available in .58calibre rifled.

1167S As above, available in .58 shotgun.

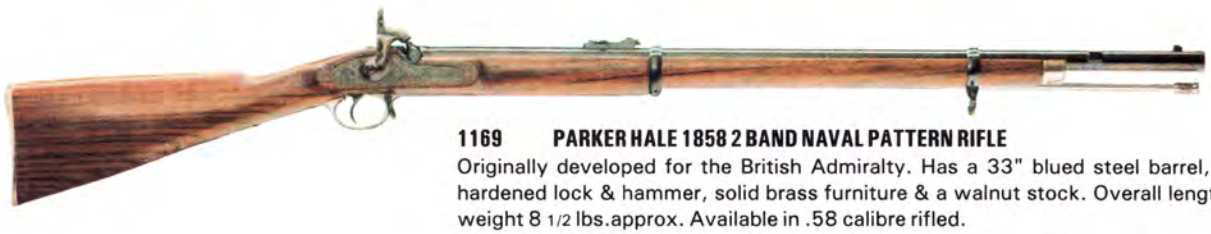
1167A EUROARMS COOK & BROTHER CONFEDERATE RIFLE
Same specifications as item No.1167 but with a 33" barrel & an overall length of 49". Available in .58 calibre rifled.

1167AS As above, available in .58 shotgun.



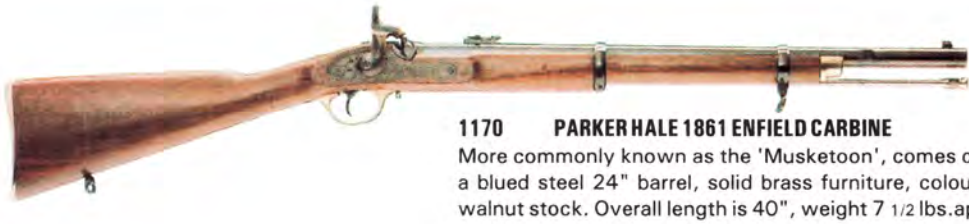
1168 PARKER HALE 1853 3 BAND ENFIELD RIFLE
The Parker Hale reproduction of the 1853 musket, the most famous infantry weapon used throughout the Empire until the introduction of breech loaders. Has a cold forged, blued steel 39" barrel, colour case hardened lock & hammer, solid case brass furniture & a walnut stock. Overall length is 55", weight 9 lbs.approx. Available in .58 calibre rifled.

1168S As above, available in .58 shotgun.



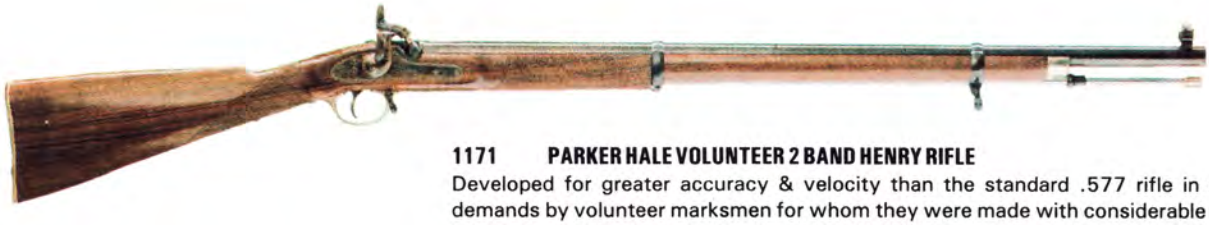
1169 PARKER HALE 1858 2 BAND NAVAL PATTERN RIFLE
Originally developed for the British Admiralty. Has a 33" blued steel barrel, colour case hardened lock & hammer, solid brass furniture & a walnut stock. Overall length is 48 1/2", weight 8 1/2 lbs.approx. Available in .58 calibre rifled.

1169S As above, available in .58 shotgun.

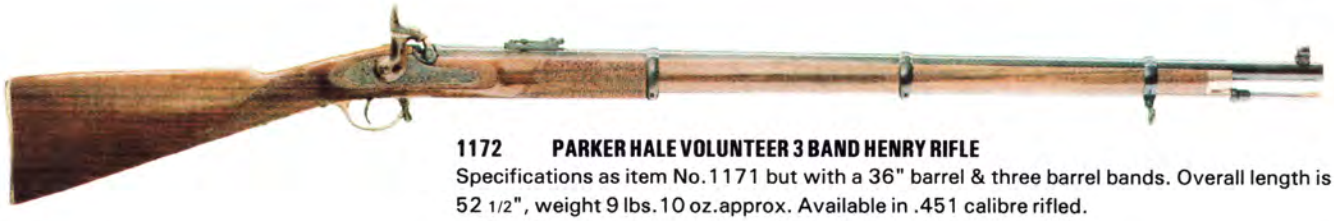


1170 PARKER HALE 1861 ENFIELD CARBINE
More commonly known as the 'Musketoon', comes complete with all the accessories. Has a blued steel 24" barrel, solid brass furniture, colour case hardened lock & hammer & a walnut stock. Overall length is 40", weight 7 1/2 lbs.approx. Available in .58 calibre rifled.

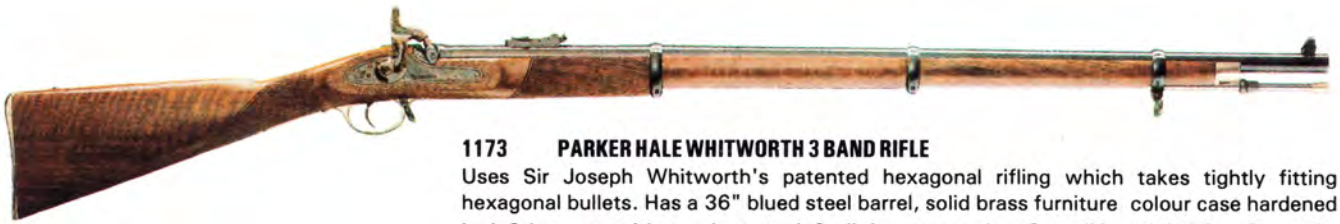
1170S As above, available in .58 shotgun.



1171 PARKER HALE VOLUNTEER 2 BAND HENRY RIFLE
Developed for greater accuracy & velocity than the standard .577 rifle in response to demands by volunteer marksmen for whom they were made with considerable refinements in sights, lock design & stock finish. Has a 33" blued steel barrel, adjustable rear sight, chequered walnut stock, detented lock, brass furniture & all the accessories. Overall length is 49 1/2", weight 9 1/2 lbs.approx. Available in .451 calibre rifled.



1172 PARKER HALE VOLUNTEER 3 BAND HENRY RIFLE
Specifications as item No.1171 but with a 36" barrel & three barrel bands. Overall length is 52 1/2", weight 9 lbs.10 oz.approx. Available in .451 calibre rifled.

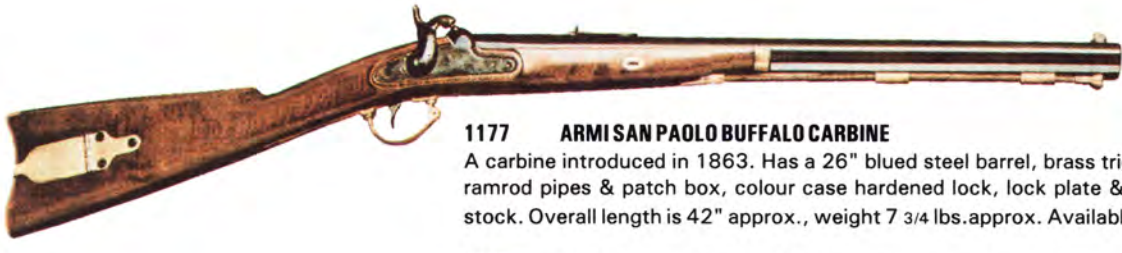


1173 PARKER HALE WHITWORTH 3 BAND RIFLE
Uses Sir Joseph Whitworth's patented hexagonal rifling which takes tightly fitting hexagonal bullets. Has a 36" blued steel barrel, solid brass furniture colour case hardened lock & hammer with a walnut stock & all the accessories. Overall length is 52 1/2", weight 9lbs.12 oz.approx. Available in .451 calibre rifled.

1175 INDIAN PATTERN ENFIELD SHOTGUN
Indian pattern version of the Enfield 3 band shotgun. Has a 35" blued steel barrel, blued barrel bands, swivel loops, trigger, lock plate, hammer & ramrod, brass trigger guard & butt plate. Overall length is 52", weight 7 1/2 lbs.approx. Available in .58 shotgun.

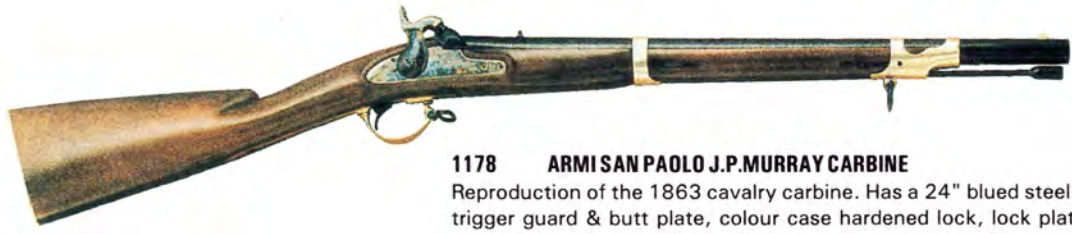
1176 PIETTA SMITHS CARBINE
One of the most successful American Civil War weapons. Half octagonal, half round 21" blued barrel, trigger guard & butt plate, colour case hardened lock & receiver & walnut stock. Overall length is 39", weight 7 1/2 lbs.approx. Available in .50 calibre rifled.

1176S As above, available in 20g shotgun with a 24" barrel.



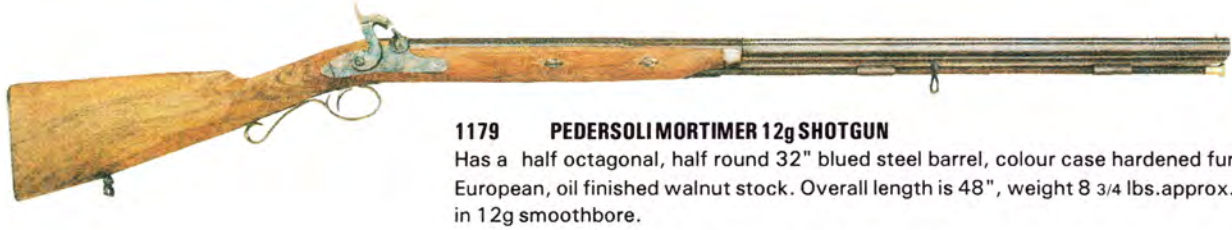
1177 ARMI SAN PAOLO BUFFALO CARBINE
A carbine introduced in 1863. Has a 26" blued steel barrel, brass trigger guard, butt plate, ramrod pipes & patch box, colour case hardened lock, lock plate & trigger with a walnut stock. Overall length is 42" approx., weight 7 3/4 lbs.approx. Available in .58 calibre rifled.

1177S As above, available in .58 shotgun.



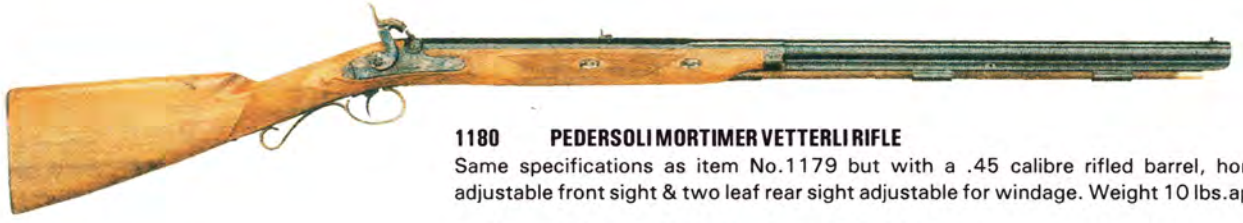
1178 ARMI SAN PAOLO J.P.MURRAY CARBINE
Reproduction of the 1863 cavalry carbine. Has a 24" blued steel barrel, brass barrel bands, trigger guard & butt plate, colour case hardened lock, lock plate & trigger with a walnut stock. Overall length is 49 1/2", weight 8 lbs.approx. Available in .58 calibre rifled.

1178S As above, available in .58 smoothbore.



1179 PEDERSOLI MORTIMER 12g SHOTGUN
Has a half octagonal, half round 32" blued steel barrel, colour case hardened furniture & a European, oil finished walnut stock. Overall length is 48", weight 8 3/4 lbs.approx. Available in 12g smoothbore.

1179D PEDERSOLI MORTIMER 12g SHOTGUN DELUXE
As item No.1179 but with hand engraving & polished steel furniture.

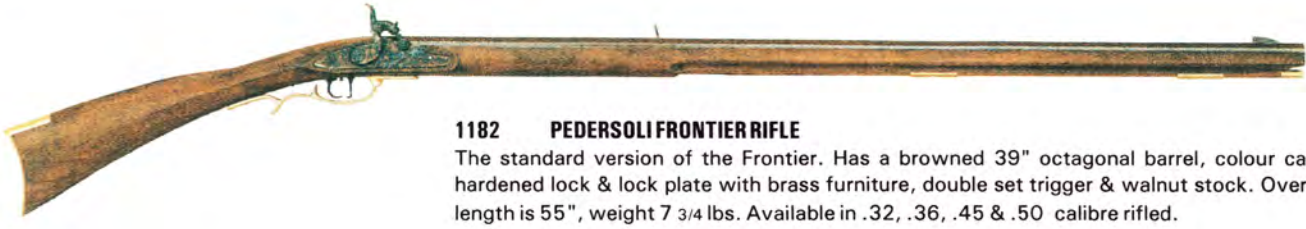


1180 PEDERSOLI MORTIMER VETTERLI RIFLE
Same specifications as item No.1179 but with a .45 calibre rifled barrel, horizontally adjustable front sight & two leaf rear sight adjustable for windage. Weight 10 lbs.approx.

1180D PEDERSOLI MORTIMER VETTERLI RIFLE DELUXE
As item No.1180 but with hand engraving & polished steel furniture.

1181 PEDERSOLI MORTIMER WHITWORTH RIFLE
Same specifications as item No.1179 but with a .451 calibre rifled barrel, tunnel front sight, interchangeable inserts & a Creedmore sight.

1181D PEDERSOLI MORTIMER WHITWORTH RIFLE DELUXE
As item No.1181 but with hand engraving & polished steel furniture.



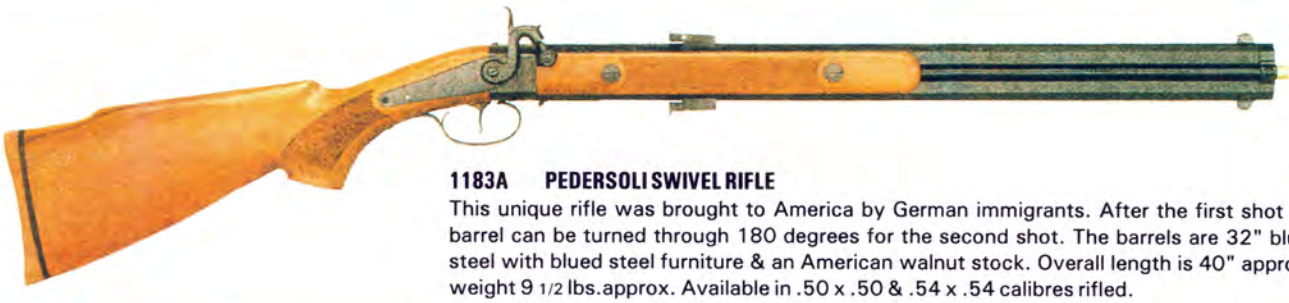
1182 PEDERSOLI FRONTIER RIFLE
The standard version of the Frontier. Has a browned 39" octagonal barrel, colour case hardened lock & lock plate with brass furniture, double set trigger & walnut stock. Overall length is 55", weight 7 3/4 lbs. Available in .32, .36, .45 & .50 calibre rifled.

1182D PEDERSOLI FRONTIER RIFLE DELUXE
Specifications as item No.1182 but with a select American, tiger striped maple stock & brass patch box. Available in .32, .36, .45, .50 & .54 calibre rifled.

1182C PEDERSOLI FRONTIER CARBINE
Specifications as item No.1182 but with a 28" barrel. Weight 5 3/4 lbs.approx. Available in .32, .36, .45, .50 & .54 calibre rifled.

1182M EUROARMS MISSISSIPPI RIFLE
The military model from 1841. The 33" barrel is browned steel with brass barrel bands, patch box & trigger guard, colour case hardened lock & lock plate with a walnut stock. Overall length is 48", weight 9 1/2 lbs.approx. Available in .54 & .58 calibre rifled.

1182MS As above, available in .58 shotgun.



1183A PEDERSOLI SWIVEL RIFLE
This unique rifle was brought to America by German immigrants. After the first shot the barrel can be turned through 180 degrees for the second shot. The barrels are 32" blued steel with blued steel furniture & an American walnut stock. Overall length is 40" approx., weight 9 1/2 lbs.approx. Available in .50 x .50 & .54 x .54 calibres rifled.

1184A ARMI SAN PAOLO MATCHLOCK RIFLE
Reproduction of an early match lock ignition rifle. Has a 43 1/2" half octagonal, half round steel barrel, steel lock & lock plate, barrel bands & furniture with a walnut stock. Overall length is 58", weight 14 1/2 lbs.approx. Available in .63 calibre smoothbore.

1185 PEDERSOLI *'TOMONOBU TEPPO'* RIFLE
A reproduction of a Japanese matchlock rifle, introduced to Japan in 1543 by a Portuguese merchant & used during the war of *'Kawanakajima'* from 1553-1563. Has an octagonal, browned 41 1/2" barrel, brass lock & furniture & an oil finished walnut stock. Overall length is 52 1/2", weight 8 lbs.approx. Available in .492 calibre smoothbore.

1186 PEDERSOLI IN-LINE GAMMA 900 RIFLE
A unique rifle with *'In-Line'* action for a very fast ignition for the modern day hunter. 1204 HAWKSLEY COPPER HUNTING SCENE

1208B HAWKSLEY COPPER TAMBOURINE

1209 PEDERSOLI LEATHER COVERED FLASK

Colt pattern pistol flask with polished brass single shutter top for easy one handed operation. Will accept interchangeable spouts. Overall length is 8" approx.

1209A .36 calibre.
1209B .44 calibre.

1212 PEDERSOLI ZOUAVE FLASK

Brass bodied single shutter powder flask suitable for use with Zouave or a similar calibre rifle/shotgun. Spout supplied is .58 calibre. Will accept interchangeable spouts. Overall length is 8" approx.

1210 PEDERSOLI BASKET WEAVE FLASK

Traditional bright polished basket weave powder flask with brass single shutter top and brass body. Will accept interchangeable spouts. Spout supplied is .44 calibre. Overall length is 8 3/4" approx.

1213 PEDERSOLI COLT WALKER FLASK

The Walker pistol flask has a brass adjustable plunger spout which throws 30-60 grains. The body is polished brass. Overall length is 8" approx.

1211 PEDERSOLI LEAF DESIGN FLASK

French leaf design powder flask with brass single shutter top. An attractive flask equally at home on the range or as part of a cased set. The flask will accept interchangeable spouts. Overall length is 7" approx.

1211A Copper body .44

1214 PEDERSOLI TEXAS FLASK

The flask body is made from heavy copper and is embossed on both sides. Solid brass single shutter top has 15g, 21g and 54g spouts included and will also accept interchangeable spouts. Overall length is 8" approx.

1215 PEDERSOLI FLAT HORN

The Pedersoli flat powder horn comes with a 72g spout and has a brass spring loaded button dispenser which will also accept the interchangeable spouts. Size and shapes vary, but approx.11" overall.

1216 PEDERSOLI LARGE HORN

The larger powder horn has the same brass button dispenser and 72g spout as the flat horn. Also accepts the interchangeable spouts. Size and shapes vary, but approx.13" overall.

1217 PEDERSOLI STAND OF ARMS FLASK

The Stand of Arms Colt flask has a brass single shutter top and adonised copper body. Will accept the interchangable spouts. Overall length is 7½" approx.

1217A .36 calibre.
1217B .44 calibre.

1218 PEDERSOLI STAND OF ARMS ADJUSTABLE FLASK

Specification as 1217 but with a brass plunger type adjustable nozzle. Overall length is 7" approx.

1219 PEDERSOLI DOG AND PARTRIDGE FLASK

The Remington pattern Dog and Partridge flask has a brass single shutter top and adonised copper body. Will accept the interchangeable spouts. Overall length is 6½".

1219A .36 calibre.
1219B .44 calibre.

1220 PEDERSOLI FLORENTINE FLASK

Depicts Neptune rising from the sea. Solid brass single shutter top and brass body. Will accept interchangeable spouts. Supplied in .50 calibre. Overall length is 6½" approx.

1221 PEDERSOLI COLT PATTERSON FLASK

Has an adjustable top with 5 plungers for single operation powder charging of all chambers with a brass body.

1221A PEDERSOLI COLT PATTERSON FLASK

Specifications as item No.1221 but with 1 adjustable charger.

1222 PEDERSOLI PHILADELPHIA SMALL BAG FLASK

Ideal for small pocket pistols. Brass single shutter top and adonised copper body. Supplied in .31 calibre. Overall length is 5" approx.

1223 PEDERSOLI LEATHER COVERED PHILADELPHIA FLASK

Specification as 1222 but has a hand stitched leather body. Supplied in .31 calibre.

1224 PEDERSOLI MANTON 3 WAY FLASK

The flask has 3 storage compartments-for powder, cap or flints and balls. Brass construction with a leather cover. Overall length is 5" approx. Supplied in .31 calibre.

1225 PEDERSOLI UNUM EAGLE FLASK

Small pistol flask depicting an eagle with spread wings holding an American shield, crossed pistols and the wording 'E Pluribus Unum' below. Brass single shutter top and copper body. Supplied in .31 calibre. Overall length is 4½".

1226 PEDERSOLI EAGLE FLASK
Small flask ideal for use with Colt pocket and similar calibre pistols. Polished brass single shutter top. Supplied in .31 calibre. Overall length is 4" approx.

1227A DIXON PATTERN SMALL BAG FLASK
Copper body with brass common top which is adjustable to throw a 3/16, 1/4 and 5/16 dram.

1228 LEATHER SHOT FLASK
Embossed leather shot flask with brass rocker type double shutter top, has 2 settings. Overall length is 8½" approx.

1228A Throws 7/8 or 1 1/8 oz.
1228B Throws 1 1/4 or 1½ oz.

1229 PEDERSOLI ENGLISH SHOT FLASK
Embossed hard leather hand stitched body and brass rocker type double shutter top which has 2 settings to throw either 1 1/4 or 1½ oz. Overall length is 8½" approx.

1230 PEDERSOLI IRISH SHOT FLASK
Specifications as item No.1229 but has an Irish type top with a brass scoop that automatically stops the flow of shot from the flask by a spring loaded shutter when removed. The shot throw is adjustable.

1231 PEDERSOLI ENGLISH SHOT BAG
Soft leather pouch with an Enlgish type rocker, brass double shutter top with 2 settings to throw 1 1/4 or 1½ oz. Overall length is 12" approx.

1233 POWDER/SHOT SCOOP
An adjustable scoop for measuring powder or shot.

1232A CONTINENTAL POCKET PISTOL FLASK
Anodized copper body with brass single shutter top. Supplied in .31 calibre. Overall length is 4½" approx.

1232B CONTINENTAL POCKET PISTOL LEAF DESIGN FLASK
Specifications as item No.1232A but with a leaf design and an overall length of 4 3/4" approx.

1234 PEDERSOLI IRISH SHOT BAG
Specifications as item No.1233 but has an Irish type top which is adjustable for throw.

1235 POWDER MEASURE
Brass measure which is adjustable in 10 grain increments up to 120 grains. Overall length is 5" approx.

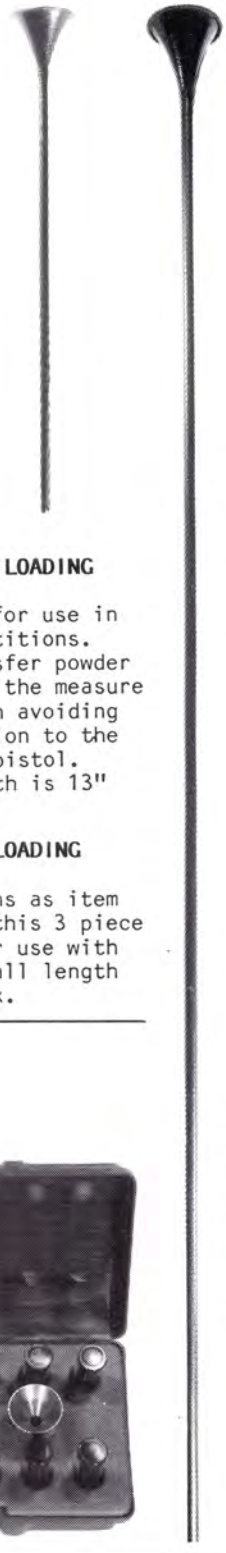
1235A ADJUSTABLE POWDER MEASURE
All brass consruction basic measure which is suitable for pistols and rifles.

1236 LARGE POWDER MEASURE WITH CUT-OFF
Brass measure with swivel top cut-off, enabling a constant measured charge every time. Has a fixed funnel to aid powder pouring and is adjustable in increments up to 120 grains.

1236A SMALL POWDER MEASURE WITH CUT-OFF
Specifications as item No.1236 but adjustable in increments up to 45 grains.

1237 FLINTLOCK PAN PRIMER
Brass pan primer which dispenses fine black powder by depressing a spring loaded nozzle.

1238 NIPPLE PRIMER
Brass nipple primer used for priming the nipple with fine black powder for a positive ignition.



1243A POWDER HORN TOP
Spare brass powder horn plug which is suitable for the large and flat horns. Will accept the interchangeable spouts. Supplied with spout.

1241 PISTOL LOADING FUNNEL
Recommended for use in target competitions. Used to transfer powder charges from the measure to the breech avoiding powder adhesion to the bore of the pistol. Overall length is 13" approx.

1242 RIFLE LOADING FUNNEL
Specifications as item No.1241 but this 3 piece funnel is for use with rifles. Overall length is 41" approx.

1244 SHOT FLASK TOP
Brass shot flask top of rocker double shutter type. Suitable for replacement of damaged top or for manufacture of own flask. Has 2 throw settings.

1244A Throws 7/8 or 1 1/8 oz.
1244B Throws 1 1/4 or 1½ oz.

1239 PISTOL MATCH SET WOODEN CASE
Used to store accurately pre-weighted measures of black powder for match competition shooting. The set contains 15 glass phials with sealing caps and a brass loading funnel. Suitable for charges up to 50 grains.

1240 RIFLE MATCH SET WOODEN CASE
Specifications as item No.1239 but the phials take charges up to 100 grains.

1239A PISTOL MATCH SET ABS CASE
Specifications as item No.1239 but the storage case is made from ABS plastic.

1240A RIFLE MATCH SET ABS CASE
Specifications as item No.1239 but with an ABS storage case and phials which take charges up to 100 grains.

1245 INTERCHANGEABLE POWDER FLASK SPOUTS
Suitable for Italian flasks as specified in flask descriptions. Available in 10,15,18, 21,24,30,36,42,45,48,54, 58,60,66,72,84,100 and 120 grain throw. Please specify requirement.

1239C PISTOL MATCH SET SPARE PHIAL
Glass phial for pistol match set suitable for a charge up to 50 grains.

1240C RIFLE MATCH SET SPARE PHIAL
Glass phial for rifle match set suitable for a charge up to 100 grains.

1240B POWDER FLASK FILL FUNNEL
Brass funnel for making powder flask loading easier, minimising spillage of powder.

1243 HAWKSLEY POWDER FLASK TOP
Brass Hawksley pattern powder flask top. Adjustable to throw from 2 1/4 to 3 drams of black powder.

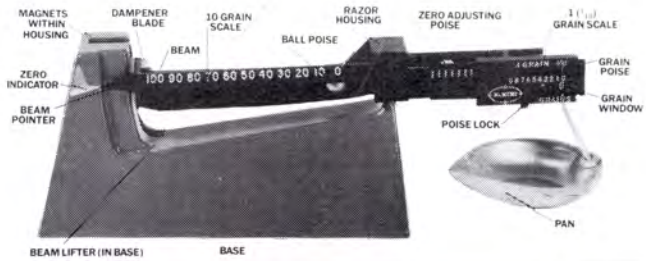
1246 POWDER FLASK SPRINGS
Replacement springs suitable for Italian flasks in various types and sizes. Please specify type of flask.

1247 SHOT FLASK SPRINGS
Replacement spring for shot flasks in various types and sizes. Please specify type of flask.

1248 LEATHER POWDER FLASK POUCH
Suits most types of flask, please specify requirements. Has a flask retaining strap and belt loop.

1252 JAMES DIXON LEATHER FLASK
Leather covered with a patent brass single shutter top. The design of James Dixon & Sons, Sheffield is almost a century old.

1260 LEE POWDER SCALES
A very reliable scale capable of giving a lifetime of service. Has a magnetically dampened beam for fast accurate reading and is adjustable from 0-120 grains in 1/10th grain increments.



1253 JAMES DIXON LEATHER FLASK
Specifications as item No.1252 but has a patent double shutter top.

1258 PEDERSOLI TUBULAR FLASK
Tubular shape powder flask with a brass body. Will accept the interchangeable spouts. Supplied in .44 calibre.

1259A CHARLEVILLE 1777 AN IX MOULD
Single cavity brass ball mould in .69 calibre. With wooden handles and a steel sprue cutter.

1261 COLT PATTERN MOULD
Double cavity brass mould which casts 1 round ball and 1 conical bullet. Has a steel sprue cutter plate.

1261A .31 calibre.
1261B .36 calibre.
1261C .44 calibre.

1262 REMINGTON PATTERN MOULD
Double cavity brass mould which casts 1 round ball and 1 conical bullet. Has a steel sprue cutter plate.

1262B .36 calibre.
1262C .44 calibre.

1263 COLT WALKER MOULD
Single cavity brass mould which casts 1 conical bullet. Has a steel sprue cutter plate. Available in .44 calibre.

1264 KENTUCKY MOULD
Double cavity brass ball mould has wooden handles and steel sprue cutter.

1264A .31 calibre.
1264B .36 calibre.
1264C .44 calibre.
1264D .45 calibre.
1264E .50 calibre.

1265 COLT PATTERSON MOULD
Double cavity brass ball mould in .36 calibre. With wooden handles and a steel sprue cutter.

1266 ZOUAVE MOULD
Single cavity brass mould will cast 1 hollow base minie bullet. Has wooden handles with a steel sprue cutter and base plate. Available in .58 calibre.

1267 BROWN BESS MOULD
Single cavity brass ball mould with steel sprue cutter and wooden handles. Available in .75 calibre.

1268 .680 DIAMETER MOULD
Steel pincer type mould with wooden handles which casts 1 round ball. Suitable for loading 12g cartridges.

1269 .695 DIAMETER MOULD
Single cavity brass ball mould with steel sprue cutter and wooden handles. Suitable for loading 12g cartridges.

1270 .775 DIAMETER MOULD
Steel pincer type mould which casts 1 round ball. A sprue cutter is incorporated in the handles.

1271 CUSTOM MADE MOULD BLOCKS
We can supply single cavity brass mould blocks to any size required up to 1" in diameter. Most popular sizes are kept in stock, unusual sizes can be made to order- delivery time being 2 weeks approx. Will fit on to Lyman mould handles, item No.1273D.

1271A Up to .600" in diameter.
1271B Over .600" in diameter.
1271C Belted.

1272 LE MAT MOULD
Brass mould with steel sprue cutter suitable for use with Le Mat Cavalry, Army or Navy models.

1273 .451 MOULD BLOCKS
Single cavity, hollow base mould with sprue cutter which will cast 1 conical bullet that is slightly oversized and must be passed through a sizing die. Can be used with Lyman mould handles, item No.1273E.

1273A LYMAN .577 MOULD BLOCKS
Specifications as item No.1273 but with a captive base plug for casting .577 bullets.

1273B .451 PUNCH AND SIZING DIE
A cast .451 bullet will be slightly oversized and must be passed through a sizing die after lubrication to ensure perfect roundness and an exact finished diameter size.

1273C .577 PUNCH AND SIZING DIE
Specifications as item No.1273B but for sizing .577 cast bullets.

1273D HELMUT MOHR .577 MOULD BLOCKS
Single cavity .577 mould blocks with sprue cutter which will cast a 560 grain bullet with a short cavity base that is slightly oversized and must be passed through a sizing die. The screws which hold the handles and captive base plug in place have coin slots for easy opening and closing of the blocks. Can be used with Lyman mould handles, item No.1273E.

1273E LYMAN MOULD HANDLES
Large size handles with wooden grips and a solid metal frame which will attach to the mould blocks listed above.

1273L BLACK POWDER RIFLE/PISTOL LUBRICANT
Henry Krank bullet lube is especially formulated for use with black powder rifle and pistol bullets. Compatible for use with Lyman and other types of lube-sizers.

1288A COLT PATTERSON LOADING TOOL

Tool used to load the Colt Patterson revolver, item No.150 & 151. Made from blued steel.

1289 MULTI PURPOSE TOOL & KNIFE

Muzzle loaders tool with a screwdriver, nipple wrench, brass short & long bullet starters, ramrod reductor & blade with ABS plastic handle.

1289A MULTI-PURPOSE TOOL KNIFE DELUXE

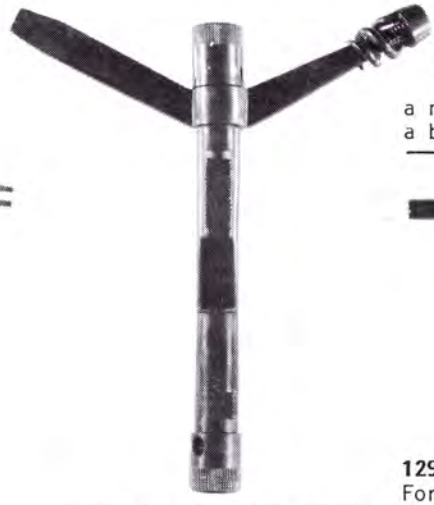
Specifications as item No.1289 but with a wooden handle.

1297D COLT BABY DRAGOON NIPPLE KEY

Reproduction of the Baby Dragoon nipple key/ screwdriver. Made from blued steel.

1297E COLT BABY DRAGOON DELUXE NIPPLE KEY

Specifications as item No.1297D but made from high quality carbon steel.



1291 PARKER HALE NIPPLE KEY & COMBINATION TOOL

Steel Enfield combo tool comprising of a nipple, key, screwdrivers & pricker with starter, ball puller worm & a mainspring clamp.

1292 ENFIELD/ZOUAVE PATTERN NIPPLE KEY

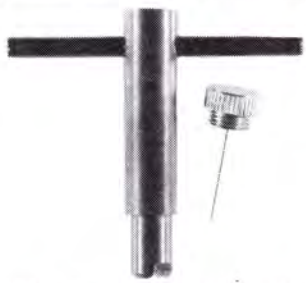
Suitable for Enfield & Zouave rifles & other guns using Top Hat caps.

1293 RIFLE, PISTOL & SHOTGUN NIPPLE KEY

Suitable for single shot pistols, Kentucky rifles & shotguns using larger No.11 type nipples.

1294 DELUXE NIPPLE KEY

Suitable for pistols, rifle & shotguns with a nipple pricker inside a brass screw top.



1295 ZOUAVE NIPPLE KEY

For use with Zouave & similar types of rifle nipples. Steel body & 'T' bar. Has a nipple pricker inside a brass screw top.

1296 COLT WALKER NIPPLE KEY

Suitable for Walker reproduction revolvers. Incorporates a wrench & screwdriver with centre section used to aid the mainspring removal.

1297 COLT PATTERN NIPPLE KEY

Reproduction of the Colt revolver nipple key screwdriver. Made from blued steel.

1297A DELUXE COLT PATTERN NIPPLE KEY

Suitable for most Colt reproduction revolvers. Made from high quality carbon steel.

1298 RUGER NIPPLE KEY

Hexagonal nipple key for use with Ruger Old Army revolvers.

1299 NIPPLE & WRENCH SET

Cruciform type nipple key/screwdriver supplied with 6 No.11 nipples. Suitable for most of the Italian reproduction revolvers.

1299A DELUXE MULTI-PURPOSE NIPPLE KEY

Universal model with screwdriver & 3 nipple wrenches. Cruciform type made from high quality carbon steel.

1300 IN-LINE NO.11 CAPPER
Brass in-line capper with carrying loop. A convenient & safe way of carrying No.11 caps. Suitable for revolvers, rifles & shotguns.

1301 LARGE DRUM CAPPER
Suitable for carrying No.11 pistol/rifle caps. Spring loaded brass capper. Diameter 2 1/4" approx.

1301A SMALL DRUM CAPPER
Specifications as item No.1301 but diameter is 1 3/4" approx.

1303 STAINLESS STEEL NIPPLE WRENCH
Dark, hardwood handle, stainless steel shaft & brass furrel. Ideal for cased sets. Overall length is 5" approx. Suitable for pistols, rifles & shotguns which use No.11 caps.

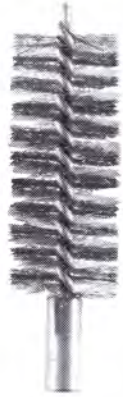
1304 REPLACEMENT NIPPLES
We have a large selection of nipples available. If possible please send full details of manufacturer & model of gun, or an original nipple to use as a pattern.

1304A For Italian revolvers
1304B For shotgun, rifle & single shot pistols (Please specify)
1304C For Colt Walker
1304D For Zouave rifle
1304E For Enfield rifle
1304F For Volunteer rifle
1304G For Ruger pistol

1302 STAINLESS STEEL TURNSCREW
Dark, hardwood handle, stainless steel shaft & brass furrel. Ideal for cased sets. Overall length is 5" approx.

SPARES FOR LOADING/ CLEANING KIT

Spare parts for items No.1306 & 1307



1308 BRONZE BRUSH
Please state calibre.

1309 BRISTLE BRUSH
Please state calibre.

1305 SNAP CAP
Snap cap & chain for use with military type weapons using Top Hat caps. Prevents damage to the nipple & hammer when not in use.

1310 MOP

1408 ELEY COL. HAWKER BLACK POWDER

Col. Hawker Black Powder is supplied in 2lb tubs. (Black Powder Certificate Required).

1420 CREEDMORE SIGHTS

Suitable for fitting to most Rifles for long range shooting. Blackened steel construction with clear graduations. Use Standard for Mid–Range and Large for Long Range shooting.

1420A Standard Sight with Vertical adjustment.

1420B Standard Sight with Vertical and Horizontal adjustment.

1420C Large Sight with Vertical adjustment.

1420D Large sight with Vertical and Horizontal adjustment.

1420E Sharps Sight with Vertical adjustment.

1425 DIOPTRE SIGHTS

Precision made adjustable target rifle sights. Excellent quality at a reasonable price.

1425A Creedmore Professional.

1425B Creedmore Swiss.

1425C Creedmore Swiss (Schutzen).

1426 SWISS TUNNEL FORESIGHT

The Swiss tunnel foresight has a single post and bead fixed element. The sight is adjustable for windage by sliding within the dovetail on the rifle. Normally used with rear sights having vertical adjustment only.

1428 SHARPS TUNNEL FORESIGHT

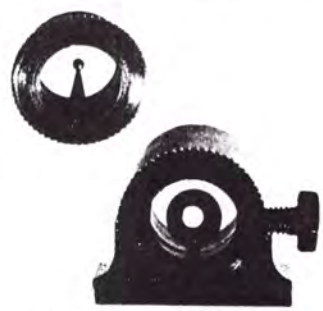
Originally made for use with Sharps Target Rifles, but may be used or adapted to fit many others. Adjustable for windage by sliding within dovetail on rifle.

1450 ZOUAVE FORESIGHT

Zouave pattern foresight slides over the muzzle of the rifle and is held in place by a knurled locking screw. The sight may be used or adapted to fit other rifles.

1452 HAWKEN FORESIGHT

Suitable for most long guns using open rear sights. Adjustable for windage by sliding within dovetail on rifle.



1454 CREEDMORE TRYON FORESIGHT

The Tryon foresight has interchangeable elements and is adjustable for windage by sliding within the dovetail on the rifle.

FRANGIBLE TRAINING BULLETS

DEFINITION

FRANGIBLE TRAINING BULLETS (F.T.B.™) ARE DESIGNED TO DISINTEGRATE UPON IMPACT AGAINST A HARD SOLID SURFACE, SIGNIFICANTLY REDUCING THE RISK OF UNWANTED PENETRATION OR RICOCHET. IN ENCLOSED RANGES CONVENTIONAL LEAD BULLETS CONTAMINATE THE ATMOSPHERE, F.T.B.™ OVERCOME THIS PROBLEM.

FRANGIBLE TRAINING BULLETS

ARE THE SAME SIZE AND SHAPE AS CONVENTIONAL ROUNDS, HEAVY ENOUGH TO OPERATE SELF-LOADING WEAPONS AND PROVIDE ADEQUATE DOWN-RANGE VELOCITY AND STRIKING ENERGY. THEY HAVE BEEN EXTENSIVELY TESTED WITH POSITIVE RESULTS AND FOUND TO PERFORM WITH GOOD ACCURACY AT NORMAL RANGE DISTANCES WHEN FIRED FROM A VARIETY OF MODERN WEAPONS.

WHY CHOOSE F.T.B™?

- *NO LEAD CONTAMINATION OR TOXIC LEAD VAPOURS*
- *NO RICOCHET*
- *REDUCED PHYSICAL DAMAGE TO TRAINING RANGES*
- *SUITABLE FOR INTERACTIVE TRAINING VIDEO USE*
- *SPECIAL OPERATIONAL USE - AIRPORT TERMINAL BUILDINGS, ON BOARD SHIPS, AIRCRAFT AND NUCLEAR INSTALLATIONS*
- *STRONG ENOUGH TO RESIST FORCES IN LOADING AND FIRING*
- *HEAVY ENOUGH FOR SELF LOADING WEAPONS*

TECHNICAL SPECIFICATION		
	.38 S & W Special	9mm Parabellum
Bullet Weight	86 grains (5.6 grams)	86 grains (5.6 grams)
Bullet Material	CuW polymer	CuW polymer
• Muzzle Velocity	1100 FPS (335 m/s)	1300 FPS (395 m/s)
• Muzzle Energy	232 ft llbs (314j)	322 ft llbs (437j)
Penetration Effect	will not penetrate 3mm mild steel plate	
Ricochet Effect	will not ricochet from 3mm mild steel plate inclined at 15 degree angle of firing. Bullet disintegrates on impact and does not splash back.	

• muzzle velocities are dependent upon barrel length and type of weapon and propellant used. Values quoted are typical for most types of modern handguns and revolvers.

BULLET HEADS ARE AVAILABLE FOR CLIENTS WISHING TO LOAD THEIR OWN AMMUNITION OR AS LIVE AMMUNITION FOR REGISTERED PERMIT HOLDERS.

LASTS A LIFETIME

RELOADING PRESSES

3600
Simplex Master 6 Position Turret Reloading Press
The Master Turret press combines the features of speed, precision and power and the flexibilty of multiple die mounting.
The six position turret head allows the user to mount each reloading die in its most convenient sequence.
The large diameter indexing circle assures extreme accuracy in press alignment.
The small diameter die mounting circle, rear edge head support and high tensile steel pivot will minimise press springing.
The large opening accomodates long magnum cartridges and projectile combinations.
The powerful compound linkage can handle case sizing easily.
The Master press utilises the standard 7/8 x 14 dies.
3600A
Simplex Master 6 Turret only
3600B
Simplex Master 6 Turret Handle

3602
Simplex Master "0" Frame Heavy Duty Reloading Press
The Master "0" Frame with its closed and balanced design, virtually eliminates springing during the heaviest case sizing and bullet forming operations.
The large magnum length opening accomodates the long magnum cartridge and projectile combinations.
The powerful compound linkage can handle heavy case sizing and forming easily.
A positive stop is built into the toggle block to limit ram travel to just past top dead centre.
The all steel primer arm will provide a lifetime of no distortion service and can be operated by right or left handers.
Utilises the standard 7/8 x 14 dies and custom 1.25 x 12TPI dies.
3603
Simplex Universal Primer Arm
3604
Simplex Primer Punch Set

3607
Simplex Primer Catcher
Made of heavy duty plastic, this handy accessory catches ejected primers before they end up on the floor. The unit locks securely to the press but is easily removed when when emptying primers.

3609
Simplex Collet type Bullet Puller
For pulling bullets from reloads or because standard ammunition needs alteration. Grips any length or shape bullet without damage and holds tightly as the case is pulled away.
3609A
Simplex Collets (Specify Calibre)

DIE SETS

Master 7/8 x 14 Reloading Dies
Precision reamed and heat treated to last a lifetime. The interior of the die is hand polished while the exterior is the standard 7/8 x 14 thread and fits any press using this standard.
Rifle Die Sets
For Bottleneck rifle and pistol cartridges. Available in full length resizing or neck resizing two die sets.
Neck Resizing Dies
The accuracy conscious reloader can retain the fire formed dimensions of his case and only resize the neck area.

Pistol Die Sets
For straight wall rifle and pistol cartridges. Each set comes with the extra seating screws necessary for popular projectiles used with the cartridges. The two step expander die prevents bullet tipping and eliminates the need for excessive case mouth flaring.
Snap in Shell Holders
The shell holders are accurately machined and hardened for the best possible fit and long life.

Carbide Die Sets
A must for the serious hand gun reloader. The carbide full length sizing die eliminates the need for case lubrication, reduces sizing effort and last a lifetime.
Available in a three die set or the carbide sizing die can be purchased seperately.

1.25 inch x 12TPI Thread (Not Pictured)
Custom made dies for use with the Master "0" Frame Press.
See Die Set chart for calibres.

Please use the Simplex Master Die Set Tables for reference and calibres.

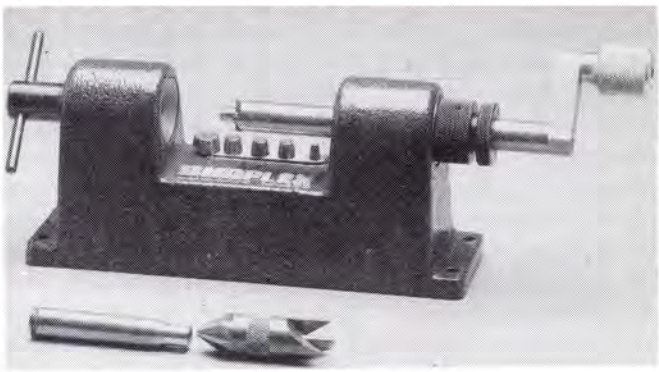
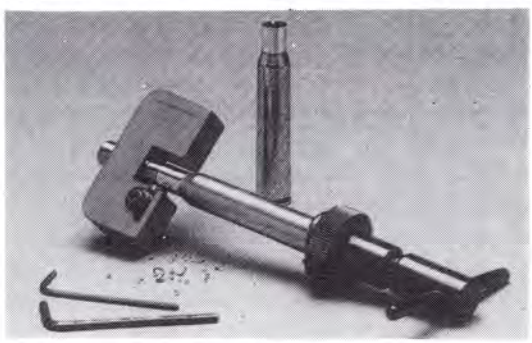
ACCESSORIES



3630
Simplex Master Case Trimmer Kit
Includes four collets and an eight pilot set. Accurately restores fired cases to their correct length. Completely adjustable for most cartridge cases.
An interchangeable pilot system for most .17 to .45 calibre cartridges.
The cutter and spindle are hardened and precision ground for a long service life.
3630A
Simplex Master Case Trimmer
3630B
Simplex Master Case Trimmer Spare Cutter

3632
Simplex Case Trimmer Model 2 Kit
The simpler design of this tool allows the handloader to keep cases trimmed square to axis and correct length.
Comes complete with an eight pilot set in order to trim cartridges from .17 to .45 calibre.
3632A
Simplex Case Trimmer Model 2
3632B
Simplex Case Trimmer Model 2 Spare Cutter

3635
Simplex Case Trimmer Pilot.
3635A
Simplex Case Trimmer Pilot Set (8).
3638
Simplex Case Trimmer Collet.
3638A
Simplex Case Trimmer Collet Set (4).



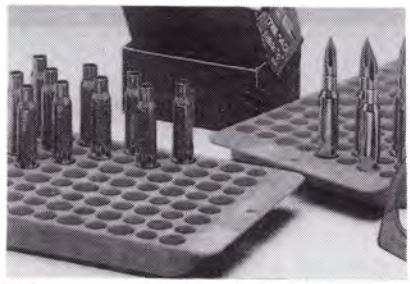
This unique case holder is available to suit most cartridges from Hornet through to Magnum calibres and utilises the same numbering system as the loading die shell holders.

3640
Simplex Case Neck Turning Tool (Specify Calibre)
The Simplex case neck turning tool is a precision tool for the turning of formed cases or trueing eccentric factory brass. It was originally designed for accurately turning case necks concentric to fit precision target chambers, but is now finding more general use in obtaining better accuracy in the field.
The anodised alluminium body is fitted with a precision, radius ground cutting tool of high speed steel. Hexagon keys are provided for setting the socket adjusting and locking screws. Hardened and mandrils are available in .17 to 8mm calibres.
3641
Simplex Case Neck Turning Tool Mandrill (Specify Calibre)
3642
Simplex Neck Turning Tool Shell Holder
3643
Simplex Neck Turning Tool Spare Cutter

3645
Simplex Primer Pocket Cleaner
The tool favoured by target shooters. It will clean the bottom of the primer pocket without damage to the walls, so important for maintenance and close primer fit.
3646
Simplex Inside-Outside Case Deburring Tool
The sharp edges of the case mouth that result from trimming can be removed quickly and accurately. The cutter is hardened and precision ground for long life and will handle cases from .17 to .45 calibre.

3648
Simplex Master Powder Measure
Accurate case charging round after round.
Micro bored and precision honed rotor cylinder and large diameter precision ground rotor drum.
The large baffled powder hopper ensures a constant powder head over the metering chamber.
A unique micrometer design allows a small diameter metering chamber for accurate powder packing and is constructed from fibre-reinforced plastics, which are corrosion free and almost as strong as steel.
Other features include:
Quick change over from small to large cartidges.
Comes complete with large and small metering screws.
Two drop tubes .22-6.5mm and .270-.45 calibre.

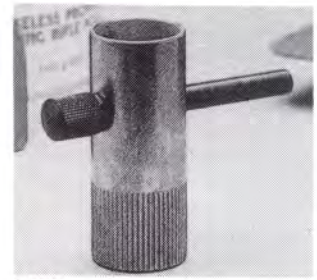
3649
Simplex Master Powder Measure Stand
To be used for convenient mounting of the powder measure on a bench top.



3651
Simplex Case Loading Tray
A heavy plastic tray that holds up to forty cases. There are two hole sizes in sequence to handle most calibres and streamline powder filling.

3653
Simplex Powder Funnel .17
Avoids powder spills around the case neck. The funnel throat will fit most cartridges. Has an anti-roll lip to keep it on the bench.

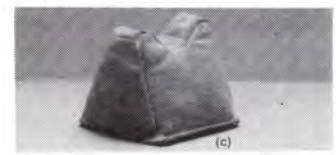
3653A
Simplex Powder Funnel .22 to .45



3655
Simplex Powder Dripper
A small tool to make easy work of balancing powder scales. Revolve the knurled knob and the powder trickles into the scale pan, one or two granules at a time and balances underweight charges fast.

3657
Simplex Master Bench Rest Large
A heavily constructed rest designed for the bench rest shooter.
A broad rest platform for the larger target rifle forends.
A fully adjustable forend stop.
Easy elevation adjustment without moving the rifle from the rest.
Hardened anchor point screws.
A large 16"/410mm leg screw pitch circle diameter for good stability.
Weighs-12.6lbs/5.7kg.

3659
Simplex Master Bench Rest Small
The lighter weight rest ideal for range or field.
The same easy adjustment as the Master Stand.
Hardened anchor point screws.
A 10½"/270mm pitch circle diameter.
Weight-7lb/3.1kg.



3660A
Simplex Bench Rest Top Bag (a)
3660B
Simplex Bench Rest Rear Bag (b)
3660C
Simplex Bench Rest Front Bag (c)

3668
Simplex Case Lube Kit
A complete kit for efficient lubrication, essential for proper full length resizing. Comes with cloth covered felt pad, Case Lube, three neck brushes (See 4675).

3669
Simplex Case Lube Pad

3670
Simplex Case Lube (50ml)
A heavy duty, formulated sizing lube.

3671
Simplex Die Care Kit
Case Lube, Die Preserver and Cleaner.

3672
Simplex Die Cleaner (100ml)

3673
Simplex Die Preserver (100ml)

3675
Simplex Neck Brush Kit
For cleaning case necks, this kit contains three different neck brushes in .22, .25 and .30 calibres. Comes complete with an interchangeable handle.

THE QUINETICS POWDER MEASURE

3800 Quinetics Powder Measure

INSTRUCTIONS FOR USE

1. Load powder cylinder with right powder to be used.
2. Hold Powder Measure in your hand, thumb on trigger, fingers around the drop tube.
3. Using a 3/4" wooden dowl pin about 10" long or something equal in weight, tap the drop tube ten times. This is to settle powder particles and prevent bridging.
4. To throw a charge, move trigger to maximum position, drop tube and release.
5. Throw three charges and discard, making sure to tap the drop tube four times after each charge thrown.
6. Move and hold trigger in extreme compressed position to expose adjusting screw head in hole at end of Powder Measure.
7. Turn adjusting screw head clockwise to increase powder charge throw weight. Turn adjusting screw head anti-clockwise to decrease powder
8. Throw a charge, check weight, adjust and re-check until two consecutive charges are at desired weight. Tap the drop tube four times after each charge thrown.
9. Place end of drop tube over neck of cartridge case to be charged.
10. Pull and release the trigger, tap drop tube four times.

THE "MAGNUM MODEL" KINETIC BULLET PULLER

3. Cap

2. Collet

1. Hammer Body

3801 "Magnum Model" Kinetic Bullet Puller

INSTRUCTIONS FOR USE

1. Loosen cap until chuck inside accomodates round for easy entry. Insert and rotate cartridge until chuck engages cartridge cannelure or comes into solid contact with rim or rimmed cartridge.
2. Tighten Bullet Puller.
3. Rap Bullet Puller against a hard, solid surface, cap end up, gripping handle mainly with thumb and forefinger. With the handle shaft held in a parallel position, the cartridge case is well aligned with the force of extraction. Otherwise Bullet Puller plastic head will break.
4. Re-tighten cap after each rap.

WARNING!

NOT TO BE USED ON RIM FIRE CARTRIDGES OR EXPLOSIVE PROJECTILE AMMUNITION.

PLEASE REMEMBER TO WEAR SAFETY GOGGLES WHEN USING THIS BULLET PULLER.

THE QUINETICS AUTOMATIC MULTI-CALIBRE SHELL HOLDER

3802 Quinetics Automatic Multi-Calibre Shell Holder

INSTRUCTIONS FOR USE

1. Insert the Shell Holder into loading tool ram, secure holder in ram in the usual manner.
2. Raise loading tool ram to the maximum up position, adjust die to contact Shell Holder, then reverse die a fourth turn.
3. Insert cartridge case that is to be processed into the shell holder.
4. Raise ram of loading tool, making sure the cartridge case enters die in proper manner.
5. Continue loading tool ram's upward movement until case has entered die to proper depth. Re-adjust die if necessary to assure the "cam action" snaps gently over "center". Lock die in place.
6. Lower ram to complete down position, twirl cartridge case with fingers till chuck releases cases (approximately one-third revolution and back). Tilt case to remove from Holder.
7. Repeat operations 3, 4, & 6.

TAKES CARE OF YOUR ENTIRE RELOADING RANGE, RIFLE AND PISTOL.

PISTOL GLOVES

Our Pistol Gloves are available in 4 sizes, which cater for all needs. Of butterfly type and made of heavy duty brown vinyl with a fleecy nylon lining, they are of very good quality and especially for us. The Gloves have a strong full length zip and have a muzzle pocket incorporated in the lining. All 4 sizes of the Pistol Gloves are available with a zipped external pocket – which is ideal for carrying spare magazines, tools etc.

45 PG1 WITH POCKET
Overall length approx. 11½" and suitable for most 4" barrelled pistols and revolvers.

46 PG2 WITH POCKET
Overall length approx. 13½" and suitable for most 6" barrelled pistols and revolvers.

47 PG3 WITH POCKET
Overall length approx. 15½" and suitable for most 8" barrelled pistols and revolvers.

48 PG4 WITH POCKET
Overall length approx. 18" and ideal for many single shot and large framed pistols and revolvers.

RIFLE COVERS

These Rifle / Shotgun Covers are especially made for us, to very high standards and are available in a variety of materials and sizes as shown below.

410 LONG GUN COVER Made in strong brown vinyl, with fleecy lining. Overall length approx. 63" to take most long guns. Has reinforced nose cap and sling attaching points. Supplied with strong nylon sling and has full length zip.

411 10" CARBINE GUN COVER Made in strong brown vinyl, with fleecy lining. Overall length approx. 44" to take most carbines. Has reinforced nose cap and sling attaching points. Supplied with strong nylon sling and has full length zip, and an external zipped pocket, which is ideal for Multi–chokes, Sights, Magazines etc.

413 11" GUN COVER Material specification as item 410, overall length approx. 49" and made 11" wide to take the largest scoped rifles.

414 10″ COVER WITH POCKET Material and specification as item 411.

415 9″ COVER WITH POCKET As above item 414 but with a width of 9″.

---

Fits S and W models 57 and 58.

4214 Cal. .44 Spl.
Fits Charter Arms Bulldog.

4215 Cal. 9mm
Fits S and W model 547 (not for Ruger).

MTM FOR PISTOL

CASE-GARD 50

CASE-GARD 50® Series the Original MTM™ handgun Ammo Containers

Shooters around the world, in the 10's of 1000's have learned to rely on these ammo cases, for a lot of reasons:

- versatility – cases for every caliber from 9mm to .44 Mag.
- durability – virtually indestructible material doesn't warp, crack, chip, peel, expand or contract
- each round rests in its own individual compartment
- unique hinge will survive 1,000,000 open and close cycles, and is designed to keep the cover in the open position when reloading
- Snap-lok latch protects contents from inadvertent spilling – it doesn't open unless you want it open – even if dropped on concrete!

4250 For 9mm
4251 For .38/.357
4252 For .44/.45

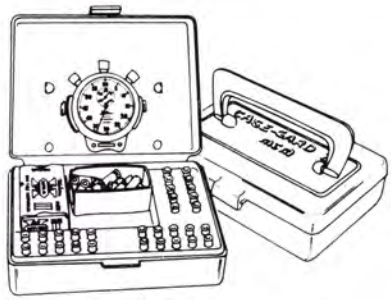
CASE-GARD 100

These New CASE-GARD® 100 Ammo Boxes are yet another example of MTM's responding to shooters' needs. Each model holds 100 pistol rounds in absolute security. Compact and convenient, the Mag 100's will be high on the shopping lists of law enforcement officers, competitive shooters, weekend plinkers – all handgunners who plan to spend several hours on the range.

FEATURES INCLUDE:

- the MTM Snap-lok latch; loaded rounds are protected from accidental spilling
- an integral hinge guaranteed for 1,000,000 open-close cycles
- dust and moisture resistant design protects ammo while stored or being transported
- top and bottom surfaces designed to facilitate solid stacking
- molded of virtually indestructible high impact polypropylene
- pressure sensitive label for reloading data included with each box

4253 For 9mm
4254 For .38/.357
4255 For .44/.45



CASE-GARD® 22 Match Ammo Box – Something Special for the Small Bore Competitor. Precision molded body designed to hold 30 rounds – 3 strings – projectile-down for easy handling; plus box of ammo and loose rounds, if desired. Inside of lid equipped with supports for stop watch. The lid holds the watch at a 40° angle, for ease of reading by shooter. The CASE-GARD 22 Match Ammo Box features Snap-lok latch, virtually indestructible integral hinge, and handsome leather-like finish.

4256 For .22 Match
4256A SB200 100 round version

A Great Idea for .22 Enthusiasts

Special CASE-GARD Ammo Wallet carrier holds 30 rounds, .22 Longs, or .22 Mags. ... a really convenient way to carry ammo to the range, or field. Design features are identical with those built into center fire Ammo Wallet carriers:

- handsome, leather-like finish provides good gripping surface
- Snap-lok latch protects case against inadvertent opening, even if dropped
- each round is carried securely in its own recess
- virtually indestructible hinge is guaranteed for 1,000,000 Open-Close cycles.

Shipping data: 30-22M 12 to 3 lb. carton
Available in Dark Brown

4257 For .22 Wallet

MTM AMMO BUCKLE

The MTM Ammo Buckle provides the handgunner with 6 easy-to-reach rounds. Each is held securely in its own compartment assuring complete quiet.
As attractive as it is functional, the MTM Ammo Buckle makes a great gift for any handgun enthusiast.
Made of high impact Lexan, for .38, .38 Special or .357 mag. cartridges.
Available in Black.

4260 Ammo Buckle
(Cartridges not supplied)

4270 PISTOL STORAGE BOX

A compact container designed for storing semi–autos and revolvers with a barrel length of 4" or less. Made of strong polypropylene with integral latches and a provision for padlocking, the box has internal compartments for magazines, silica jell, and an adjustable ammo tray to hold 25 rounds of 9mm, .38/.357, .44mag or .45ACP.

4271 HANDGUN CASE

Strong polypropylene case with foam interior. Dual latches prevent accidental opening, comes with closet hanger and is available in two sizes.

4271A For up to 6" barrel.
4271B For up to 8½" barrel.

4273 UTILITY CASE

A strong utility case that will take up to 4 handguns or a spotting scope and accessories. The case is made from polypropylene and features a foam lining, nickel plated latches with locks and a belted lip which protects the contents from moisture and dust. Dimensions are 18½" × 13½" × 5".

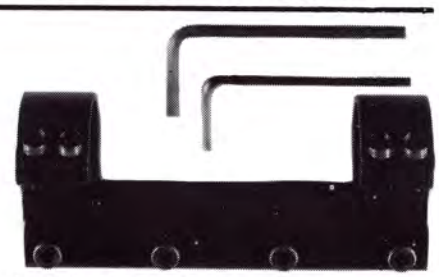
PECAR BERLIN

4585 INTERAIMS MARK V POINT SIGHT
No need to worry about a perfect line from the eye through to the target. With this sight you just put the red dot on the target and fire. Can be mounted on to standard 1" ring mounts on the largest calibre weapons. Weighs only 6oz (160g).

We stock a wide range of mounts and bases too many to list. Please telephone if you have difficulty in finding mounts or bases for a specific rifle – we will be happy to try and help you.

4590 WEIHRAUCH SCOPE MOUNT
A very strong single piece scope mount which is suitable for scopes with a 1" diameter tube – the dovetail is 11mm which is the standard for Weihrauch and most other good quality air rifles.

4590A NIKKO SCOPE MOUNT
One piece bridge mount, 1" tube diameter-12mm dovetail clamp.



4590B BISLEY SCOPE MOUNT HIGH
For 1" Scopes up to 56mm lenses, for 9.5-11.5mm grooves.

4590C BISLEY SCOPE MOUNT STD.
For 1" Scopes up to 45mm lenses, for 9.5-11.5mm grooves with a removable stop pin.

4590D ARRESTOR BLOCK
Suitable for all guns with dovetail grooves from 9-13mm.

4591 TM SCOPE MOUNTS

Take 1" dia. scopes and fit 10mm/⅜" dovetail – a good strong mount at a very reasonable price.

4592 TM SEE THROUGH SCOPE MOUNTS

Take 1" diameter scopes and fit 10mm/⅜" dovetail. Allow original sights to be used while scope sight is in position on the rifle.

PARKER HALE MOUNTS

We try to keep in stock the full range of mounts and bases that Parker Hale produce, please telephone your requirements, we will be happy to quote you on your needs or offer advice.

LEUPOLD MOUNTS & RINGS

We will be happy to advise you on mounts and bases and quote you on a system to meet your requirements.

STD 1-PIECE MOUNT BASE

Front part of base accepts dovetail ring, locking it in position. Rear ring is held by windage adjustment screws. Models to fit virtually every rifle.

STD 2-PIECE MOUNT BASES

These bases offer greater accesibility to the magazine or breech area and added flexibility in mounting scopes on bolt action rifles. Fluted or customized look. Two sets are available for each of three different of rifles... Remington 700-type actions, Winchester Model 70-type actions and Mauser-type actions. Reversible bases are available for each action to accommodate a wide variety of scopes and action lengths. Fits right and left-hand rifles.

STD RINGS

STD Mount Rings will fit STD 1 and 2-piece bases. They are available in super low, low, medium, high and super high heights. Most shooters prefer to mount the scope as low as possible consistent with the profile of the barrel and the particular scope used. 4-inch ring spacing will accommodate all Leupold scopes.

2-PIECE DUAL DOVETAIL™ MOUNTS

A low-profile, 2-piece base design, both front and rear bases accept a rotary dovetail ring. The absence of windage screws on the rear base, makes the Dual Dovetail extra secure. Sets fit Remington Model 700 and Winchester Model 70-type actions, these bases accept all Dual Dovetail rings listed below.

STD HANDGUN MOUNTS

These sturdy mounts include both the base and a set of two dovetail rings.

LEUPOLD RING MOUNTS

Ring Mounts to fit Ruger 77, No. 1 and 77/22 Integral Scope Mount

These ring mounts enable you to mount your scope lower than standard Ruger rings will. They are totally interchangeable with the Ruger integral scope mounting rings.

7/8" Low: .859 1" Super High: 1.127
1" Low: .734
1" High: 1.15

.22 Rimfire No-Tap 1" Scope Ring Mounts

Mount Leupold scopes on your favorite .22 rimfire without drilling and tapping the receiver for mount bases. Rings lock into receiver dovetail for a strong, precise mount. Ideal for mounting Leupold's Compact 4X RF Special.

7/8" Low: .721
1" Low: .721
Medium: .846

Sako Dovetail Ring Mounts

An excellent alternative to the standard Sako ring mounts, these combine Leupold strength with the option of lower ring heights. A variety of configurations let you pick the best height for your scope.

1" Low: .734
1" Medium: .859
1" High: .984
1" Super High: 1.156

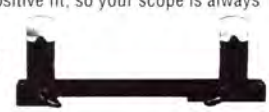
NEW LEUPOLD AIRGUN MOUNT

This unique mounting system works without a base and is designed for air rifles and handguns with receiver grooves that measure from 9.5mm to 11.0mm. Consists of two non-adjustable, 2-piece rings with keepers. Ring Height: 1.057

NEW LEUPOLD QUICK RELEASE™ SYSTEM

Detach your scope with ease, and then re-attach it without losing your zero. Super-close machining tolerances give a positive fit, so your scope is always sighted-in.

1" Low .550 #47178
1" Low Matte #47179
1" Med. .770 #47180
1" Med.Matte #47181



Gunmaker Bases

Similar to Leupold 2-piece bases except without fluting and mounting holes for complete freedom in customizing. Must be drilled for each particular action. Front base accepts dovetail ring, rear base contains windage adjustment screws.

WINDAGE Part No. 41350 DOVETAIL Part No. 41349

Gunmaker Ring Blanks

Just the thing for gunmakers who care about quality. The bottom is straight and unfinished so gunmakers can finish to fit any action. The top is completed: hole bored, with screw holes drilled and tapped (packaged singly—sold per package)

Part No. 43076

Extension Ring Sets (1 inch)

A reversible extended front ring and a regular rear ring, available in low and medium heights.

MEDIUM EXTENSION RINGS (.770) Part No. 29425
LOW EXTENSION RINGS (.650) Part No. 29424

4595 SIMMONS SPOTTING SCOPE

15-60 x 60mm. Complete with a 3X finder scope built right into the ocular housing. Black spotting scope with slide-out sunshade. Focuses from 10 metres to infinity at any selected power from 15-60X.

4596 762 SPOTTING SCOPE

A very versatile spotting scope that offers both straight and angled 45° eyepieces on the same scope. The scope comes complete with one 20x and one 40x magnification eyepiece and a sturdy tripod which has both coarse and fine adjustment.

4596B Interchangeable 30x eyepiece
4596C Interchangeable 50x eyepiece
4596D Tripod for above

4600 NIKKO 8 x 40mm BINOCULARS

Auto Focus wide angle binoculars, the latest in opticls design eliminates focus setting fast and trouble free.

4601 NIKKO 8-16 x 40mm BINOCULARS

Description as 4600 and these binoculars are also with auto focus. All you have to do is set the interpupillary distance-the distance between the pupils of your eyes-and the eyes do the focussing automatically.

4670 MAUSER M96 SHOULDER STOCK

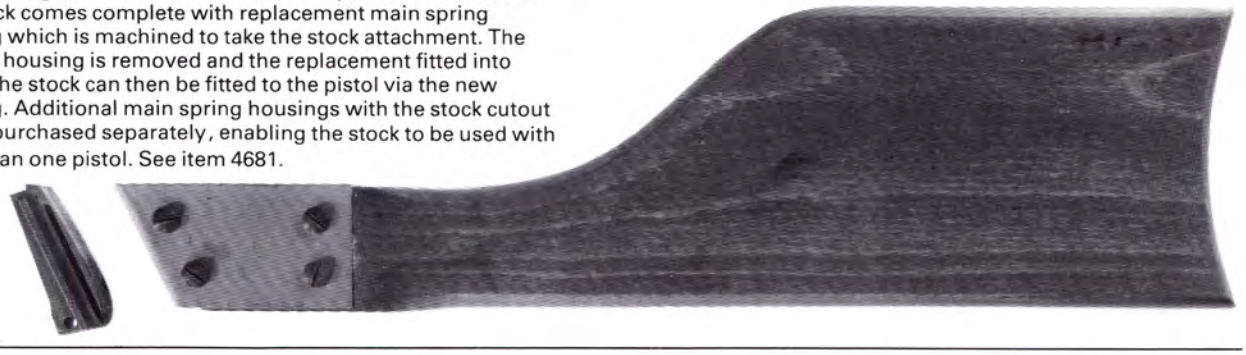
A very good quality reproduction of the famous Mauser "Broomhandle" shoulder stock / holster. Ideal for the many owners of the M96 pistols which have been separated from their original stocks over the years. The stock slides into the channel in the rear grip frame of the pistol and is held in position by a spring catch at the base of the stock fitting.

4671 P08 LUGER SHOULDER STOCK

Another very good reproduction shoulder stock. This is the stock board of the famous Luger pistol that was used in both WW1 and WW2 by the German Army. The stock fits all models of the pistol having the stock fitting lug on the back of the grip frame. Again ideal for pistols which have lost their original stocks.

4672 COLT .45 SHOULDER STOCK

A stock designed to turn the .45 Auto Colt pistol into a carbine. The stock comes complete with replacement main spring housing which is machined to take the stock attachment. The original housing is removed and the replacement fitted into place. The stock can then be fitted to the pistol via the new housing. Additional main spring housings with the stock cutout can be purchased separately, enabling the stock to be used with more than one pistol. See item 4681.



4673 M1 CARBINE FOLDING STOCK

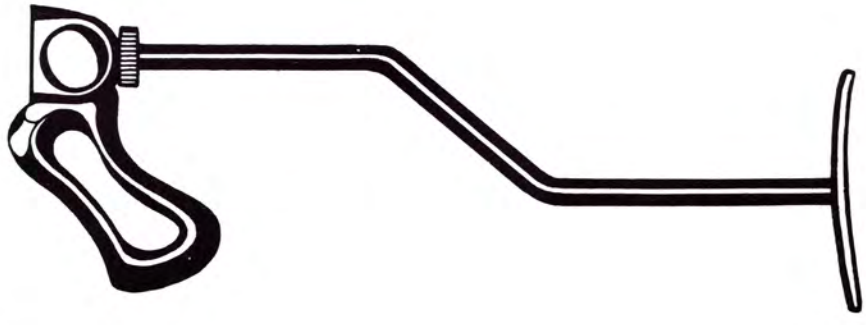
U.S. Government patt. M1A1 folding stock for M1 carbine. Supplied complete with handguard and barrel band retaining clip. Just slip in your M1 Carbine barrelled action and lock barrel band in place. Nothing extra to buy. All parts are interchangeable with WW2 U.S. Govt. issue stock. Stock grip and handguard are oil finished walnut, all steel parts are parkerized.

4674 MOSSBERG PRACTICAL SHOTGUN STOCK

Pistol grip and skeleton stock to fit Mossberg shotguns. Original stock is removed and the pistol grip is attached to replace it. The gun can then be used just with the pistol grip or with the skeleton stock added, which is just a quick screw fit into the pistol grip. The stock is supplied complete with fitting bolt and Allen Key.

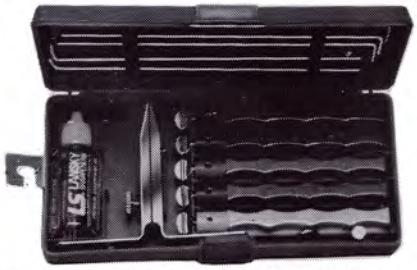
4675 STEVENS PRACTICAL SHOTGUN STOCK

As item 4674 but with grip machined to fit Stevens shotguns. As above, supplied complete with fitting bolt and Allen Key.



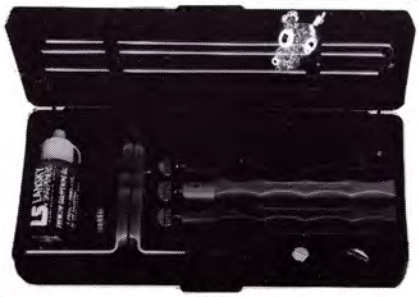
LANSKY SHARPENERS

4680 DIAMOND SHARPENING SYSTEM
This kit has four hones-Extra Coarse, Coarse, Medium and Fine on colour coded plastic finger grooved hone holders for finger protection and identification. while sharpening.



4681 DELUXE SHARPENING SYSTEM
Offers a more extensive hone selection. Contains everything the Standard kit has, plus two more hones:An extra Coarse Stone and an Ultra Fine High Ceramic Stone on holders plus two more guide rods.

4682 NATURAL ARKANSAS SHARPENING SYSTEM
These stones have been prized for their unique ability to polish as they sharpen. They come in three grades:Soft, Hard and Black Hard Arkansas.



4683 STANDARD SHARPENING SYSTEM
Features a clamp which can be fitted with a honing stone guide to give an exact stone-to-knife angle. You can select angles from 30, 25, 20 or 17 degrees by using the correct angle guide hole attached to the knife clamp.

SNAPCAPS

4690 .22 CAL.
Plastic rimfire cap which are sold in packs of 20.

4691 9MM CAL.
All brass cap with spring striker, sold individually.

4692 .38/ 357
All brass cap with spring striker, sold individually.

4693 .45ACP
All brass cap with spring striker, sold individually.

4694 12 BORE
Solid brass cap with spring striker, sold individually.

4695 16 BORE
Solid brass cap with spring striker, sold individually.

4696 20 BORE
Solid brass cap with spring striker, sold individually.

4697 .410
Solid brass cap with spring striker, sold individually.

CLEANING KITS

4700 3 PIECE 12 BORE CLEANING KIT
A good quality kit with 3 section wood rod in 10¾" sections. Brass fittings with brush, wool mop and turks head included in the kit make this kit good value for money.

4701 2 PIECE ROSEWOOD 12 BORE CLEANING KIT
A very good quality kit which has a 2 section rosewood rod in two 17" sections, brass fittings, brush and wool mop make it excellent value.

4702 3 PIECE ROSEWOOD 12 BORE CLEANING KIT

Another good quality kit, this one having a 3 section rosewood rod in 11" sections. All fittings are of brass and the kit contains brush, wool mop and jag.

4705 TURKS HEAD JAG
A traditional pattern of cleaning for stubborn leading or plastic deposits in smooth bore barrels.

Another high quality German game target which features Chamois facing left. Target size 86cm × 122cm – sold individually.

4810 DJV RUNNING BORE TARGET

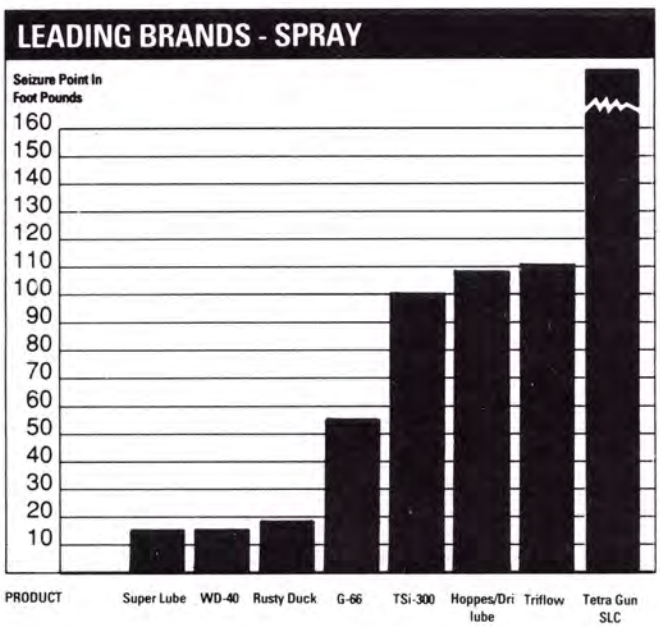
Another high quality German game target which features Bore running to left. Target size 86cm × 163cm – sold individually.

Tetra Gun®

4900
TETRA GUN CARE KIT
Contains: 4oz TETRA GUN SLC, 2oz TETRA GUN L, 2oz TETRA GUN G, conditioning cloth, cleaning patches and touch-up tips.

TESTS PROVE THAT TETRA GUN CARE PRODUCTS ARE THE BEST YOU CAN BUY

The Faville-La-Valley friction testing machine is the industry standard for measuring the performance of lubricants. **TETRA GUN** is the only lubricant on the firearms market exceeding the limits of the test machine. The values on the vertical scale for the items in the horizontal scale are stated in foot pounds at the point of seizure.

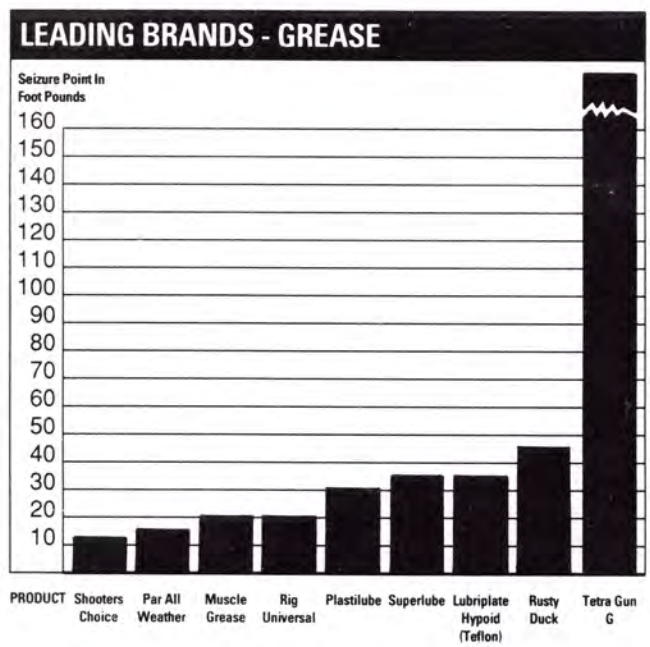


4903
TETRA GUN SLC PENETRATING SPRAY LUBRICANT/CLEANER
Spray on as an all-purpose gun cleaner, lubricant and preservative. It will not change or stain surfaces and the carrier evaporates quickly as it cleans. The best for those difficult to reach areas because it 'flows' quickly after being sprayed into actions, internal mechansims, magazines etc. TETRA GUN SLC removes old conventional lubrication, dirt and combustion residue and prevents them from sticking in future firings. TETRA GUN SLC will not burn or 'flash' as most other gun sprays do. Also, it is an outstanding bore cleaner for black powder firearms.

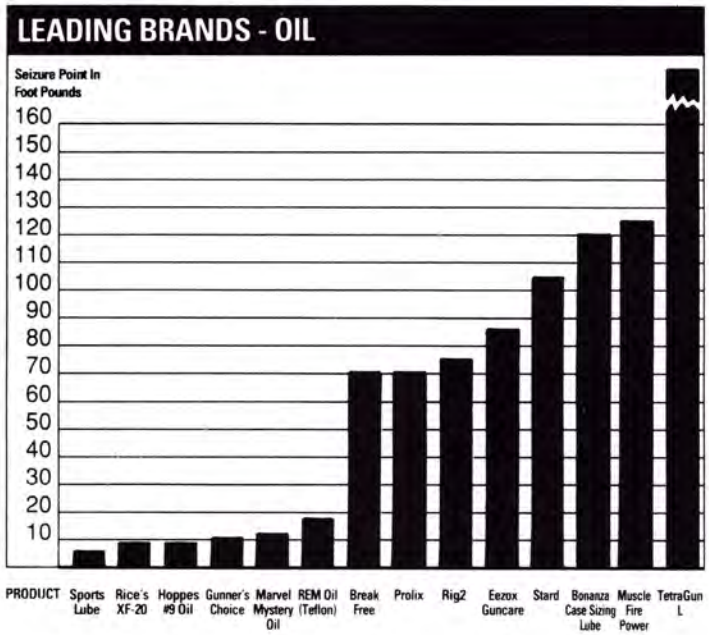
FOR ALL SPORTSMEN
TETRA GUN products have been developed to enhance the life and improve appearance and performance of fine weapons, sporting classics, knives and collectibles.

4905
TETRA GUN G PENETRATING GREASE
TETRA GUN G is the best product for use on metal to metal contact areas such as rifle and shotgun bolts, moving slides, locking lugs and sight screws. TETRA GUN G is not a conventional grease, so only a light coating need be applied to the metal surface. Note that even if the grease is not visible after use, it is still embedded in the metal providing lubrication and protection.

FOR BLACK POWDER ENTHUSIASTS
TETRA GUN has an enthusiastic following among dedicated practitioners of this original sport. No other lubricant/conditioner better meets black powder's requirement for preservation and ease of cleaning. Black powder residue build-up is greatly reduced on TETRA GUN conditioned surfaces. Therefore the shooter will be able to increase the number of rounds fired between cleanings.



TOPS IN LUBRICITY TESTS



4907
TETRA GUN L PENETRATING LUBRICANT OIL
Use in any light lubricating situation where the oil base will carry the lubricant to difficult to reach places such as the inside of gun barrels, actions, small parts etc. The best form for wiping the outside of firearms or other metals. It is also an outstanding bore cleaner, bore conditioner and leather or knife treatment. TETRA GUN L is easily applied to a patch for treating the gun bore.

FOR COLLECTORS
The demand for preservation of fine firearms, edged weapons and knives has catapulted TETRA GUN into the world of the serious collector. Easy to apply, cost-effective TETRA GUN ensures mint condition appearance and smooth functioning of collectibles for the enjoyment of present and future generations.

4903
TETRA GUN SLC PENETRATING SPRAY LUBRICANT/CLEANER (4fl.oz)

4905
TETRA GUN G PENETRATING GREASE (2oz)

4907
TETRA GUN L PENETRATING LUBRICANT OIL (4fl.oz)

ABOUT TETRA GUN
The TETRA GUN family of patented fluoropolymer microsphere suspensions was developed expressly for firearms and ballistics applications. This technology evolved from United States aerospace research. TETRA lubricants electrostacically bond into the metal surface, greatly reducing friction and debris attachment. A TETRA treated surface is also resistant to rust and rot because moisture and oxygen are prevented from penetrating the surface. Once TETRA GUN is embedded, it will not evaporate or wash off. Instead, TETRA GUN can only be removed by abrading the surface. The effective operating range of TETRA GUN is from -100°F to +750°F.

TEST RESULTS

VELOCITIES (Typical data)

	Untreated	Treated
Remington 700 (.223)	3122 fps	3163 fps
Sako Carbine (.243)	3146 fps	3173 fps
Ruger 77 (.308)	2724 fps	2788 fps
Remington 700 (30-06)	2729 fps	2787 fps
Remington 700 (.308)	2503 fps	2537 fps
S&W .357 (Magnum)	721 fps	728 fps

ACCURACIES (Extreme spread-100 yards, handloads)

	Untreated	Treated
Remington 700 (.223)	1.125"	.75"
Remington 700 (.308)	1.4375"	1.125"
Sako Carbine (.243)	1.1875"	1.0625"
Winchester 70 (.270)	2.185"	1.4375"
S&W .38 PPC	2.25"	1.125"

FIRING RATES

	Untreated	Treated
Viking (9mm)	750 rpm	850 rpm
Mod 12 Experimental Auto Shotgun	40 rpm	50-60 rpm
K-Gun (Modified M-16)	800 rpm	1000 rpm

SUPERIOR BORE CONDITIONING FOR IMPROVED ACCURACY

FIVE SHOTS AT 100 YARDS
Remington 720 rifle
Federal 30-06 ammunition
Sierra 165 gr Bt bullet
Leupold 24x rifle scope

BEFORE TETRA GUN TREATMENT
Elevation = .7"
Windage = .8"
Extreme spread = 1.0"

DURING TETRA GUN APPLICATION
First shots are high and 'dirty'
Group is large
Small group develops at 15 shots

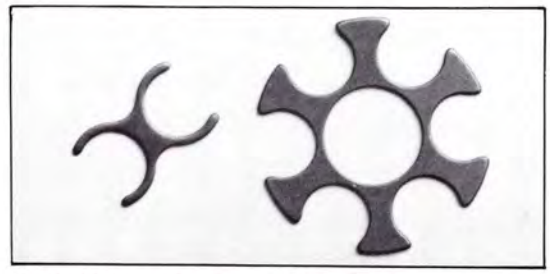
AFTER TETRA GUN TREATMENT
Elevation = .5"
Windage = .65"
Extreme spread = .7"
Group slightly higher, more round and tighter

RANCH PRODUCTS

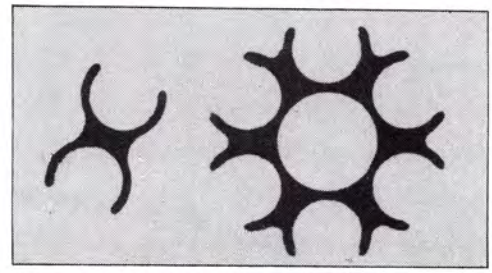
All 1/3, 1/2 & Full Moon Clips are actual size.

The 1/3 Moon Clips were designed for a means of convenient storage in original factory boxes or in standard belt loops. The Full Moon Clips were developed as the ultimate speed loading device for a revolver, which cuts seconds off conventional speed loading times and still allows usage of standard speed loading pouches.

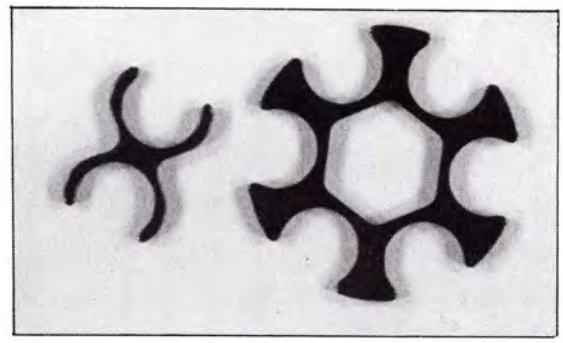
1/3 & FULL MOON 9mm CLIPS FOR RUGER & ASTRA REVOLVERS
Replaces the difficult to find 1/2 Moon Clips for the Ruger 'Speed', 'Service' and 'Security 6' service 9mm revolvers developed in the early 1980's.



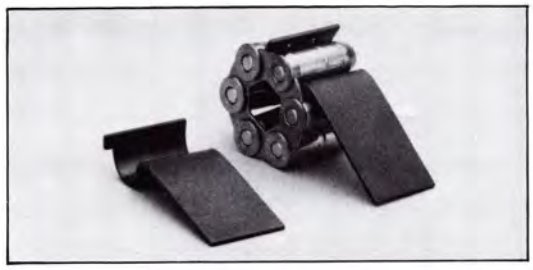
4910 RUGER/ASTRA 9mm 1/3 MOON CLIP
4912 RUGER/ASTRA 9mm FULL MOON CLIP



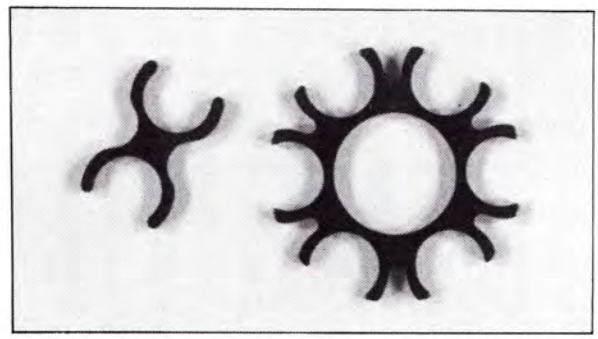
4910 RUGER/ASTRA 9mm 1/3 MOON CLIP
4912 RUGER/ASTRA 9mm FULL MOON CLIP



4913 45 ACP 1/3 MOON CLIP
4914 45 ACP FULL MOON CLIP
4915 45 ACP STAINLESS FULL MOON CLIP
(Stainless Steel finish matches the Smith & Wesson 625 Series).

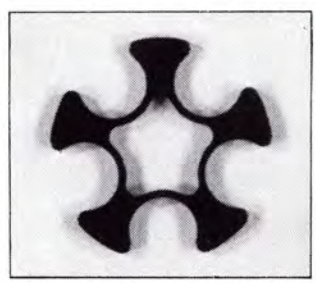


4916 EXTRACTOR TOOL
For the removal of spent cases from the Full Moon Clips.

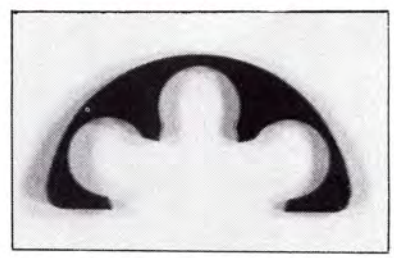


4918 SMITH & WESSON 10mm MODEL 610 1/3 MOON CLIP
4919 SMITH & WESSON 10mm MODEL 610 FULL MOON

4917 .22 CALIBRE ADJUST-LOADER
Fits over the follower pin on the Ruger Mark-I & II and similar pistols to provide a large flat for your thumb, made from spring steel, the tip can also be used as a handy sight adjuster.



4920 SMITH & WESSON 9mm MODEL 940 & RUGER MODEL SP101 5 SHOT FULL MOON



4921 WEBLEY .45 1/2 MOON CLIP

SCOPE CARE PRODUCTS

4925
Scope Care Spray Lens Cleaner and Defogger

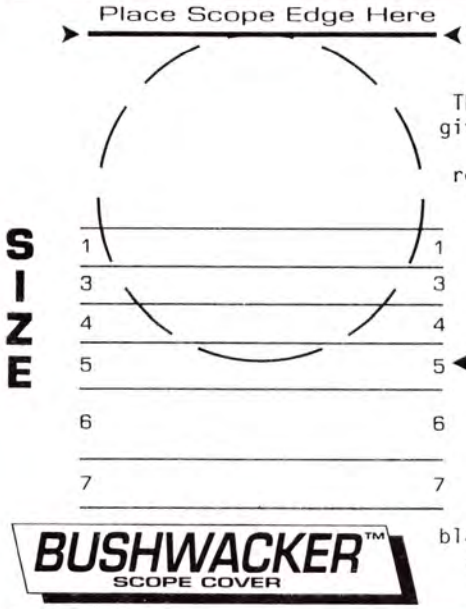
Scope Care contains special formulas that enable it to protect glass or plastic lenses. It can also prevent fogging caused by extreme temperature change.
•Anti Static-repels dust and lint.
•Gives over 300 measured sprays.
•Compact for easy carrying and field use.

Cleaning Directions: First brush the lens with a lens cloth or clean tissue, very lightly. Spray the lens and wipe clean in the usual fashion. Repeat the final step 3 times on first application for best results. This reduces the possibility of the lens being scratched while cleaning, due to any surface grit that may be present.

For Maximum Results: Clean the rifle scope just before hunting, so the lens is clean and clear.

Scope Care®

BUSHWACKER PRODUCTS



4927
Bushwacker See-Thru Scope Cover

The Bushwacker Scope Cover is designed to give minimal distortion for quick off-hand shots. For longer range shooting it is recommended that the cover should be left open. Stretches tightly on to the scope but does not restrict its function.

Fits any scope size, six different sizes are used-1,3,4,5,6, and 7. The measuring gauge can be used to determine the correct size scope cover needed.

The covers are made from tough plastic in yellow or matte black, the special spring open hinge makes it quicker to use and keeps it away from the lens, free from causing distortion.

MUZZLE MITT PRODUCTS

4930
Muzzle Mitt Gun Muzzle Protector

Muzzle Mitt can be used safely and effectively to protect gun muzzles and barrels from snow, sleet, ice, rain, dirt, dust or sand.

Muzzle Mitt rolls onto the barrel and will stretch to fit if needs be, and can be used on almost any firearm. The thin latex material safely protects the gun barrel from obstruction, yet can also be fired or shot through, with no apparent loss of performance or accuracy and it won't harm both the shooter or firearm.

If the front blade or bead sight is covered by the Muzzle Mitt and it is to be used for sighting purposes, then the Mitt can be rubbed at that point, causing the thin wall to split around the sight and give a clear sight picture.

MUZZLE MITT™
"roll on -- shoot thru"

WEBLEY AND SCOTT LIMITED ...

TEMPEST & HURRICANE

Air pistols with a Pedigree

Bred from the earlier Mk I, Senior and Premier air pistols the current Tempest and Hurricane models have evolved from the benefits gained from 65 years of continuous development.

For many years these two pistols have sustained the position as World best sellers in their class, which is not surprising when you look at their styling and specification. Compact barrel over cylinder format, beautifully balanced, ergonomically designed grips with a comfortable thumb rest conveniently located near to the thumb operated barrel release catch. Light alloy non-corrodible frame with a durable epoxy finish, steel components metal coloured. Adjustable trigger interlocked with a manual safety for safe disciplined shooting.

The recoil is in the same direction as a genuine firearm making the pistol ideal for training purposes.

Barrels cold finished button rifled available in either .177 (4.5) or .22 (5.5) calibre. Barrel retention is achieved using the famous Webley revolver stirrup design.

Both models available with optional simulated wood grips at a small extra cost.

3 YEAR GUARANTEE

TEMPEST

Shown with optional simulated wood grips.
Weight 2.0 lbs (0.91 Kg)
Length 9.12 ins (23.2 cm)
Rearsight adjustable for windage and elevation.

HURRICANE

The construction of the Hurricane is similar to the Tempest but has an increased sighting radius more suitable for target practice. This is achieved using a longer barrel housing and a fully adjustable micro-click rearsight mounted on an extension to the rear of the frame.
Weight 2.4 lbs (1.09 Kg)
Length 11.2 ins (28.3 cm)

VELOCITY (both models)

.177 (4.5) cal	420 f.p.s.	(128 m/sec)
.22 (5.5) cal	330 f.p.s.	(100 m/sec)

HURRICANE FITTED WITH A TELESCOPIC SIGHT

The Hurricane can be fitted with a 1.5 x 15 Telescopic sight as an optional extra. The mounting bracket, which fits in place of the rearsight, is supplied free with every Hurricane.

GOLD STAR

This elegant rifle is unique in having a 10 shot fully indexing magazine. All you have to do is insert the magazine, cock the rifle, aim and fire it — no fiddling with loading individual pellets. The transfer tube which pushes the pellet out of the magazine sizes the pellet in the barrel to exactly the same depth and gives the rifle excellent accuracy.

Features
1. Patented Maxi Grip scope rail.
2. Manual and cocking safety.
3. Fully adjustable two stage trigger.
4. Threaded muzzle weight to suit B.S.A. silencer.
5. Delux hand finished stock.
6. F.A.C. version available.

Overall length	Barrel length	Weight	Muzzle Velocity Ft/sec	Metre/sec
108cm/42½"	45cm/18"	3.9Kg/8.5lbs	.22 625	191

SUPER STAR MK2

This rifle is the all round full power underlever sporting air rifle, voted "Gun of the Year" in Airgunner magazine two years running. The first rifle to be offered with B.S.A.'s patented rotating breech. This allows the pellet to be placed directly into the chamber in complete safety. The Super Star established new levels of accuracy in its field, equally at home winning a spring class in a field target shoot or hunting rabbits. The Super Star is almost 2lb lighter than the competition.

Features
1. Patented rotating breech.
2. Patented Maxi Grip scope rail.
3. Two stage trigger adjustable from 4½lb to a few Oz.
4. Hardened vibration free piston.
5. Fully adjustable sights.
6. Delux hand finished stock.
7. Threaded muzzle weight to take the multi baffle silencer.
8. F.A.C. version available.

Overall length	Barrel length	Weight	Muzzle Velocity Ft/sec	Metre/sec
110cm/43"	45cm/18"	3.9Kg/8.5lbs	.177 850	260
			.22 625	191
			.25 530	160

SUPER STAR MK2 CARBINE

The "SS" carbine version fo the Super Star MK2 is aimed firmly at the hunter. The rifle has all the award winning features of the Super Star but also has the threaded barrel weight which permits the fitting of the BSA multi baffle silence.

Features
1. Patented rotating breech.
2. Patented Maxi Grip scope rail.
3. Two stage trigger adjustable from 4½lb to a few Oz.
4. Hardened vibration free piston.
5. Fully adjustable sights.
6. Deluxe hand finished stock.
7. Threaded muzzle weight to take the multi baffle silencer.
8. F.A.C. version available.

Overall length	Barrel length	Weight	Muzzle Velocity Ft/sec	Metre/sec
97cms/39"	35cm/14"	3.75Kg/8.25lb	.177 850	260
			.22 625	191
			.25 530	160

STUTZEN MK2

Regarded by some as the most attractive full power air rifle in the world, the Stutzen MK2 incorporates the technical innovations of the RB2 into the classic elegance of the hand finished long stock with the rose wood Schnabel. In addition the rifle has the Maxi Grip scope rail and is available with or without a Williams high quality rear sight.

Features
1. Patented rotating breech.
2. Patented Maxi Grip scope rail.
3. Concealed cocking lever.
4. Fully adjustable trigger with safety.
5. Fully adjustable sights.
6. Classic hand finished stock with Schnabel.
7. Light weight.

Overall length	Barrel length	Weight	Muzzle Velocity Ft/sec	Metre/sec
99cm/39.5"	35cm/14"	3.54Kg/7.8lbs	.177 850	260
			.22 625	191
			.25 530	160

AIRSPORTER RB2

This new rifle continues the illustrious name of the Airsporter. It combines the elegance of the traditional B.S.A. curved trigger block with the full power, accuracy and safety of the rotating breech first seen on the Super Star. The rifle was designed for the all round sportsman. It is light in weight, light to cock with a trigger which is adjustable for pull as well as depth of engagement.

Features
1. Patented rotating breech.
2. Concealed cocking lever.
3. Fully adjustable trigger with safety.
4. Fully adjustable sights.
5. Light weight.

Overall length	Barrel length	Weight	Muzzle Velocity Ft/sec	Metre/sec
111cm/44.5"	45cm/18"	3.6Kg/7.95lbs	.177 850	260
			.22 625	191
			.25 530	160

AIRSPORTER RB2 CARBINE

This combines all the excellent features of the RB2 with the "SS" carbine style. Designed with the hunter in mind it is fitted with the threaded barrel weight to allow the fitting of the B.S.A. multi baffle silencer.

Features
1. Patented rotating breech.
2. Concealed cocking lever.
3. Fully adjustable trigger with safety.
4. Fully adjustable sights.
5. Light weight.

Overall length	Barrel length	Weight	Muzzle Velocity Ft/sec	Metre/sec
103cm/41"	35cm/14"	3.5Kg/7.64lbs	.177 850	260
			.22 625	191
			.25 530	160

SUPER SPORT CUSTOM

A superb break barrel air rifle which is based on the Super Sport but has in addition a high quality stock with hand finished cheek piece, hand finished pistol grip checkering, two stage fully adjustable trigger with safety and the patented Maxi Grip scope rail.

Features
1. Patented barrel latch for accurate barrel positioning.
2. Fully adjustable two stage trigger with safety.
3. Fully adjustable sights offering both bead or blade style sights.
4. Recoil pad.
5. Patented maxi-grip scope rail.
6. F.A.C. version available.

97cm/38"	45cm/18"	2.7kg/6lbs	.177 650	200
			.22 500	150

All B.S.A. airguns are British-made to the high degree of perfection that has made B.S.A. one of the most famous names in shooting throughout the world. Most B.S.A. airguns are available in a choice of either .177, .22 or .25 calibre and each has an individual serial number. Attention is paid to every detail, mechanical parts being engineered to fine tolerances, barrels accurately bored and triggers adjustable without removal from the stock. To ensure optimum performance, every B.S.A. airgun is individually tested on the company's own purpose built range, with velocities being recorded on a sophisticated electronic chronograph.

1. All B.S.A. rifles except for the Meteors have a piston weight system which precisely tunes the power output to obey legal limits.

2. All B.S.A. barrels have rifling with 1 turn in 19 inches right handed. Carbine barrels are a nominal 14 inches long and standard barrels are a nominal 18 inches long.

3. B.S.A. are happy to offer all our rifles except the Meteors in a high power version for F.A.C. holders and export markets.

In nickel plated brass.

813 ACME METROPOLITAN POLICE WHISTLE
In nickel plated brass.

814 ACME COMBINATION WHISTLE
In nickel plated brass.

MAG-LITE™ ®

Mag-Lite, with a background of 25 years in the screw machine business, is the culmination of four years of dedicated research and development. More than just a flashlight, it's the realization of everything a fine precision tool should be.
Why call it a tool? Because it's made like one, *to be one!*
Mag-Lite's unique patented features explain:
Lexan lens and reflector for maximum clarity, beam effectiveness *and* impact resistance.

Adjustable Beam control is the result of a patented cam-action design that allows for a "focused" far reaching spot or a soft over-all flood with less than a quarter-turn of its head cap.
The Switch, generally the weakest link in any flashlight is, in Mag-Lite, a story of its own. A patented exclusive, the Mag-Lite assembly is a sealed, self contained, self cleaning (rotating), three position (on, off and "signal") switch. The button is an easy action, soft rubber depressor that's totally flush with the barrel for "snag" free convenience.
Total quality is a Mag-Lite by-word: all fittings are O-ringed for maximum moisture and corrosion resistance, the outer casing, of aircraft grade aluminium, is anti-magnetic and anodized against acid and corrosive damage

D-Cell
Small Head Model ML (without batteries)

824 MAGLITE ML6 TORCH

823 MAGLITE ML5 TORCH

822 MAGLITE ML4 TORCH

821 MAGLITE ML3 TORCH

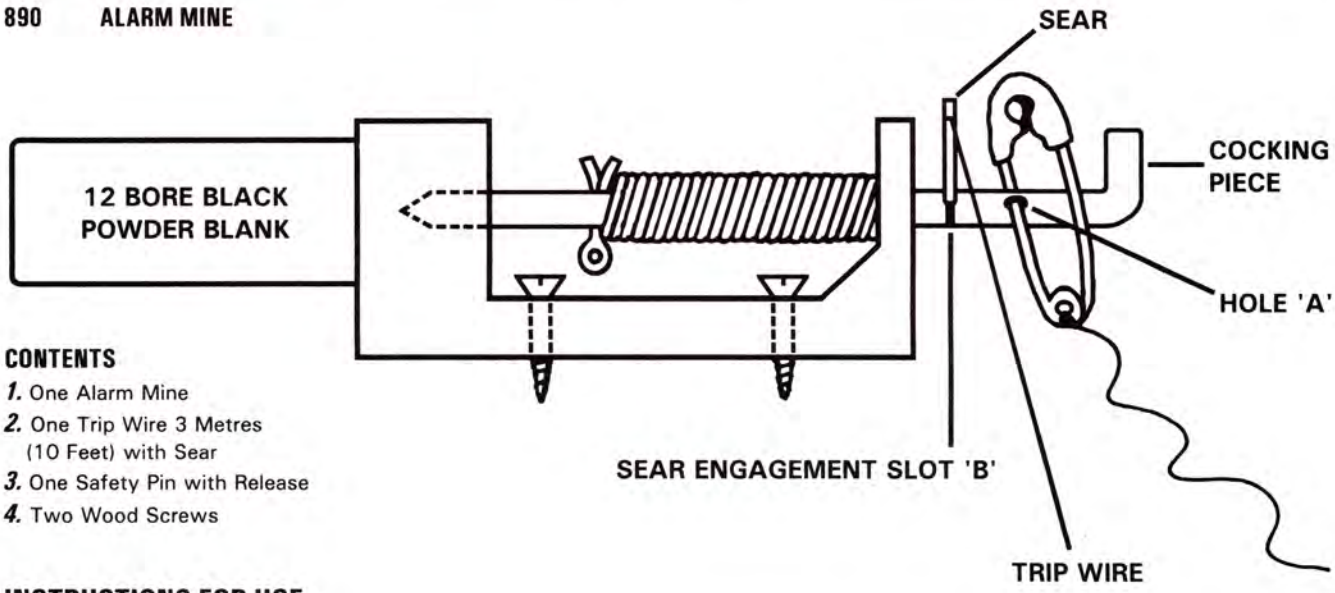
Henry Krank ALARM MINE

890 ALARM MINE



CONTENTS

1. One Alarm Mine
2. One Trip Wire 3 Metres (10 Feet) with Sear
3. One Safety Pin with Release
4. Two Wood Screws

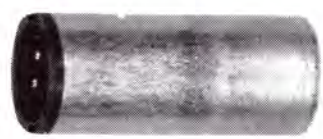
INSTRUCTIONS FOR USE

1. Attach Alarm Mine in vertical position to convenient tree, fence post, door frame etc. **FOR 12g BLACK POWDER BLANKS** with cocking piece upwards, **FOR FLARES** with cocking piece downwards. If you wish to use in open field, fasten to wooden stake and firmly drive into ground.
2. Grasp cocking piece and pull to limit of travel and insert safety pin through hole 'A'.
3. Grasp cocking piece and raise until the sear can be placed in sear engagement slot 'B'.
4. Attach loose end of trip wire to firm object so that wire is across path intruder will take.
5. Place 12 bore Black Powder Blank/Flare Adaptor into slot at end of Alarm Mine.
6. Gently pull string attached to safety pin in order to remove it from Alarm Mine. The mine is now armed. A slight pressure on the trip wire will release the striker and fire the blank/flare.
7. To disarm Alarm Mine, replace safety pin in hole 'A', grasp cocking piece firmly, pull and remove Black Powder Blank/Flare Adaptor.
8. **ALWAYS** wear eye protection when arming/disarming Alarm Mine. **NEVER** mount mine adjacent to any flammable substances.

ALARM MINE ACCESSORIES

891 ALARM MINE FLARE ADAPTOR

The Alarm Mine Flare Adaptor allows 16.5mm Flares to be used with the Alarm Mine. The adaptor replaces the usual 12g Black Powder Blank. The 16.5mm Flares screw on to the end of the adaptor.



8326 16.5mm SIGNAL FLARE

The 16.5mm Flares are available in boxes of ten. For carriage purposes they are classed as an explosives/pyrotechnics product and have to be sent by road. Please ask for cost when ordering.

8325 12g BLACK POWDER BLANK

The 12g Black Powder Blanks are available in packs of ten. For carriage purposes they are classed as an explosives/pyrotechnics product and have to be sent by road. Please ask for cost when ordering.

892 ALARM MINE SIGNS

The Alarm Mine Signs can be used to warn of Alarm Mines in use and also act as a deterrent in their own right. Sold in packs of five.
(Size - 8 1/2" x 8").

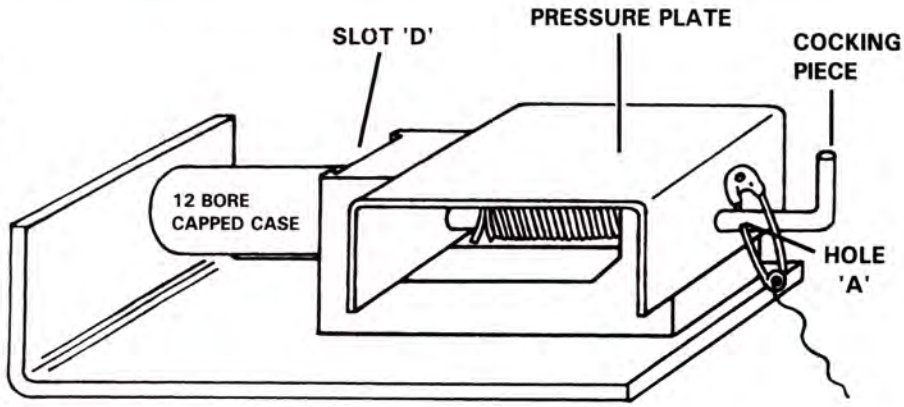
8350 FLARE KIT

Survival Flare Kit suitable for all outdoor pursuits.
BOATING CAMPING CANOEING HANG GLIDING HIKING HILL CLIMBING HUNTING MOUNTAINEERING SEA FISHING WILDFOWLERS
For carriage purposes 16.5mm Flares are classed as an explosives/pyrotechnics product and have to be sent by road. Please ask for cost when ordering.
CONTENTS:
1 Flare Projector, 6 Red Flares, 3 White Flares, 1 Unbreakable Plastic Magazine.

Henry Krank GROUND MINE

893 GROUND MINE
8324 12g CAPPED CASES

The 12g Capped Cases are available in packs of ten. For carriage purposes they are classed as an explosives/pyrotechnics product and have to be sent by road. Please ask for cost when ordering.



CONTENTS

1. One Ground Mine
2. One Safety Pin with Release

The Ground Mine will give warning of approach of trespassers in areas where it is not practical to use the Alarm Mine.

INSTRUCTIONS FOR USE

The Ground Mine should be sited in a shallow depression. The mine is fired by pressure.

1. Pull cocking piece and raise pressure plate to hold cocking piece in position.
2. Place safety pin through hole 'A'.
3. Place a 12 bore Capped Case in slot 'D'.
4. Unclip safety pin and withdraw attached string.
5. Conceal mine with vegetation etc. If possible, pack Ground Mine into a plastic bag to limit effect of moisture.
6. **ALWAYS** wear eye protection when arming/disarming Ground Mine. **NEVER** place mine adjacent to any flammable substances.

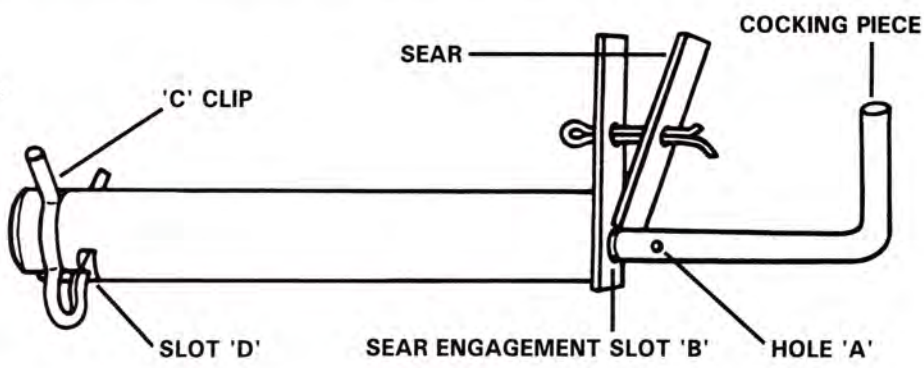
WARNING!!

Use 12 bore **CAPPED CASES ONLY.**

Henry Krank DOOR MINE

8200 DOOR MINE
8210 .25 RIMFIRE BLANKS

Available in packs of one hundred. Please ask for carriage charges when ordering.



CONTENTS

1. One Door Mine
2. One Safety Pin with release
3. One 'C' Clip

INSTRUCTIONS FOR USE

1. Grasp cocking piece and pull to uppermost limit of travel and insert safety pin through hole 'A'.
2. Grasp cocking piece and raise until sear can be placed in sear engagement slot 'B'.
3. Mount Door Mine in suitable position around 12" above ground level in gap between door and frame.
4. Revolve 'C' clip until a .25 Rimfire Blank can be fitted into slot 'D' at end of Door Mine.
5. Revolve 'C' clip 180 degrees to retain blank in position.
6. Unclip safety pin and withdraw with attached string. The mine is now armed. An opening of the door will release striker and fire blank.
7. To disarm Door Mine, replace safety pin in hole 'A', release sear from sear engagement slot 'B', revolve 'C' clip back through 180 degrees and remove blank.
8. **ALWAYS** wear eye protection when arming/disarming Door Mine. **NEVER** position mine adjacent to any flammable substances.
